The DAILY NEBRASKAN purposes to  
be the free voice of student sentiment;  
to be fair, to be impartial, to seek advice  
as well as offer it, to truthfully picture  
college life; to go further than the mere  
printing of news by standing for the  
highest ideals of the University; in short,  
to serve the University of Nebraska.

**TO ALL CADETS**

You have been asked to sign a petition asking for the re-establishment of the annual cadet encampment. To the most of you, camp means only a half-formed impression of a jolly good time. To others of you it means something else. Don't you want to know exactly what you are petitioning for before you sign?

Here are a few facts we would like to have you know. We don't want you to get any preconceived notion that camp is one round of pleasure after another. It is not. Personally, we would not go through the last encampment again for all the commissions in the War Department. And we don't want you to ever have to. We are certain that such a camp will never again be attempted by University officers. But we want you to know what has happened in the past. Then, again, there comes up the two very important questions: Can you spare the time from your studies if camp is held during the school year? and can you spare the time from your summer work if it is held after school?

The petition states nothing as to the time, the cost, the place, or the nature of the encampment. We believe you should know all these facts. From what we have been able to gather, camp will be held after examinations are over, during commencement week. This means one week less for summer vacations to all except seniors, and to them it means the probability of not being in Lincoln for graduation. The cost has only been estimated. It is thought that about ten dollars will cover all expense, including railroad fare to the farthest place under consideration, and perhaps only five dollars, if some nearby town is chosen. It is planned to have the camp at Leavenworth, Kansas, together with the Universities of Kansas and Missouri. We have been assured that in the proposed camp there will be no other "hikes" than the morning ones; afternoons will be left to oneself, and there will be no more "night parades."

We are not at all against such a camp. Personally we want to see the proposal carried through. We believe, however, that you should see both sides of the argument, and should have hold of all the facts, before you sign any petition. The good talking points of camp are common knowledge to you all by now. You realize that there are many positive benefits. You get to know more people better at camp than anywhere else in college; it is the "melting pot" of University society; it offers good recreation. But what we insist on is

this: FIND OUT JUST WHAT YOU ARE PETITIONING FOR. If you like it, sign; if you don't like it, don't sign. Choose for yourself.

**People We Know.**

Please note that the phone number of the Daily Nebraskan has been changed and is now L-7451.

Verna Stahl of Liberty, Neb., is at the Achoth house.

The Conservation Commission is planning on holding several district congresses in the state. One will be held at McCook, March 6 to 12.

Dr. Condra exhibited the Nebraska industries and resources film at the threshermen's convention last night.

Coach Stiehm's brother, Mr. Wm. H. Stiehm, was married last night to Miss Hattie Haney. The ceremony was performed at Johnson Creek, Minn.

**TODAY IN NEBRASKA'S HISTORY**

February 19, 1902.

The basketball team returned last night from their northern trip and report an excellent time. They lost to Minnesota, but won at Sioux City and Omaha.

February 19, 1909.

Nebraska won both games from Ames last Friday and Saturday nights. They played a better game than they have exhibited before this season. Drake comes to Lincoln for two games next Friday and Saturday nights.

with the possibilities of the plan. A committee was appointed to gather data and prepare a report on the advisability of such a plan at Nebraska.

Last night C. H. Epperson made his report to Phi Alpha Tau. He outlined the work as it is carried on there, placing special emphasis on its great popularity. It is considered as one of the duties of the University. The people of the state have come to expect it. They are anxious to get their town in the circuit. Besides its value to the University, it is of immense value to the students taking part—by no means a small number are given a chance to travel over the state, to get into intimate touch with a great number of people, to gain experience in their special line of activities.

Can this be of value to this University? Epperson declared it could, beyond a doubt, be made to be one of the greatest things for the school, in bringing it into popular service, in gaining it popular approval. In the first place, he declared, many people in the state feel that the University is a place to spend money, learn to smoke a "bulldog" pipe, and gamble. They have examples of this constantly before their eyes. But they have no example of what the University really is doing. They don't know the big things which the University is doing for their sons and daughters. Extension work will supply this. It will give them a proper impression of what this institution is here for. And it will prove instructive and entertaining in the meanwhile.

C. L. Rein discussed the plan in detail, adding to Mr. Epperson's outline many practical suggestions. There is a demand for co-operation between the people of the state and their University, Mr. Rein declared. This move would not only serve to amuse and instruct them, to give experience to the participants, but—most important of all—it would establish some very tangible relationship, some actual co-operation, between the people and the University.

Phi Alpha Tau went on record, after a long round-table discussion, as being unanimously in favor of the establishment of the extension work at Nebraska. A committee to push the movement along was appointed consisting of Reed B. Dawson, Raymond E. Kirk and Charles H. Epperson.

**NO MINNESOTA GAME**  
(Continued from Page One)

Minnesota does not deem it advisable to play a return game in Lincoln every third year. From a financial point of view it may be of interest to know that the Nebraska share on a 50 per cent basis of the 1912 game at Minneapolis was \$2,925.10, while the Minnesota share on a 50 per cent basis of the 1913 game at Lincoln was \$5,184.73.

**Football Dates.**

Five games on the 1914 football schedule are contracted for.

The opening game will be played with Washburn at Lincoln on October 3. The October 10 game is not sure yet. It will perhaps be with a Missouri Valley team.

October 17, the old Minnesota date, is open. It will be filled by some big team. We are sorry to see the Gophers off the schedule, but the position taken by Coach Stiehm was fair and every Nebraskan should be proud of his stand. The October 24th date is also open. On October 31 the Ames Aggies will appear in Lincoln. This will be a great game. Last year Ames ran up the highest score on the Cornhuskers of any team they opposed.

Morningside College, of Sioux City, will appear in place of Wesleyan. This means a much harder game. Morningside will be a drawing card. The Kansas Jayhawkers will be among us on November 14. This encounter will be staged on Nebraska Field.

The last game of the season will be pulled off at Iowa City against the Hawkeyes on November 21.

**POINT SYSTEM DISCUSSED**  
**BY GIRLS' CLUB COUNCIL**

Busy Meeting of a Leading Girls' Organization—Has 380 Active Members.

The Girls' Club Council members met at the Temple Tuesday evening to be viewed by the picture man, and afterward had their meeting and spread in Faculty Hall. Reports were given of the work carried on thus far this year.

Miss Jeanette Finney explained the object of the point system which has been investigated by the Xi Deltas. They have investigated the methods and degrees of success of the system in other schools and at this meeting submitted their report to the club for consideration and discussion.

The objects of the point system are: First, to relieve the few overburdened women who because of their capability are asked to undertake more duties than they can without injury to their health or to their academic work; and, second, to distribute among a larger number of women the work which gives them splendid opportunities to develop their powers of organization and their executive abilities.

No girl should carry more than 20 points at any one time.

If accepted by the club, the point system will go into effect next year, being enforced by a committee working in connection with the advisor of women.

The report of the Black Masque parties given each Saturday afternoon for all University girls showed, according to the increasing attendance, that the parties have been a social as well as a financial success.

Members of the committee now investigating the advisability of a student council explained what work they have done and some of the problems they are now trying to work out before the matter is submitted to the student body for final decision.

The "Santa Claus" work carried on by the Silver Serpents was reported by Miss Genevieve Lowry. Twenty-four families were cared for this year and it is hoped to do much more extensive work next year.

The Girls' Club has arranged to have Miss Bertha Conde, senior student secretary for the national board of the Y. W. C. A., from New York, and a graduate of Smith College, speak at the Girls' Convocation on Thursday. She will speak of the problems of college girls after leaving college. Miss Conde thinks that many girls teach after leaving college because they know of nothing else. By thorough investigation she has made certain that there are many other worth while vocations.
