DRAKE-NEBRASKA HOLD INDOOR MEET BY WIRE

First Event of Novel Meet Will Be Contested—Every Man in School Eligible to Compete.

An intercollegiate meet in which every man in school may compete is the novel idea evolved by Coach Griffith, which has taken form in the shape of an indoor meet with Nebraska University. One event will be held each day during the next two weeks. The records for each event will be exchanged daily by telegraph. Today, the first event of the meet, the high jump will be held. Any man in the University will be eligible to compete. In order to enter it is only necessary that he appear at the gymnasium at 4 p. m. today. The contest will be held on the dirt floor and the bar will be at first placed at a height at which any man can clear it. Grad-

ually the bar will be raised until the last man is eliminated. The marks of the thirty best jumpers will be averaged and that average will constitute Drake's record in the high jump.

At the same time a similar contest will be going on at Nebraska. Tonight Coach Griffith will wire the Drake mark to Coach Guy Reed of Nebraska and he will in turn wire back Nebraska's mark in the same event. The winner of the first event will be announced in tomorrow's Delphic. Tomorrow at 4 p. m. the shot put will be conducted in the same way and various other track and field events will be included for the next two weeks. The team winning the most events will win the meet.

Coach Griffith Originates Idea.

The idea of a meet in which all the men of the University may have a part has been evolved by Coach John L. Griffith of Drake in an attempt to answer the criticism often made, that college athletics served only to develop the few experts to the detriment of those most in need of development. In the proposed plan every man in school will be able to enter his favorite events. There is hardly a man in school who will not be able to place among the thirty best men in any one event. There are absolutely no restrictions as to entrance.

Indicates Average Strength.

The records secured from the meet will stand as a fair indication of the normal average athletic ability for the men of the institution. Comparison of the records made by the two schools, Nebraska and Drake, will be of considerable interest, while there is a possibility for much competitive enthusiasm to be aroused for the meet—Drake-Delphic.

NEBRASKA HERE THURSDAY.

Varsity Seeks Revenge for Double Defeat at Cornhusker Camp.

Hard practice is the program for the Varsity squad in preparation for the game with Nebraska on the Drake floor Thursday.

The team arrived home from Nebraska Sunday morning somewhat the worse for the two-game series. They made an unexpected showing, however, particularly in the first game, which they lost 33 to 20. The score was 12 and 12 at the end of the first half, but Nebraska forged ahead in the second session. The second game was lost 31 to 10, but the team was disturbed somewhat by a shift from the usual playing order.—Drake-Delphic.

CORNHUSKERS LEAD THE VALLEY BASKETBALL TEAMS

Has Won Two Games and Lost None—Kansas Ranks Second.

Including the games played Friday and Saturday, the basketball situation in the Missouri Valley Conference is:

Teams—	Won	Lost	Pct.
Nebraska	2	0	1000
Kansas	9	1	.900
Missouri	4	4	.500
Ames	4	6	.333
Kansas Aggies	2	4	.333
Washington	1	5	.166
Drake	0	4	.000

This table takes into account the following games: Nebraska whipped Drake Friday and Saturday, which were the first Conference clashes for the Cornhuskers; Kansas has beaten Washington four times, the Tigers twice, and the Aggies three times; Missouri took three games from Ames and one from Washington; the Kansas Aggies defeated Ames once and the Jayhawkers once; Ames licked Drake twice, the Aggies once and the Tigers once; Washington came out ahead of the Tigers on one occasion, and Drake has yet to register a victory.—Missourian.

OMAHA X-UNI TEAM GOES DOWN TO DEFEAT

Another Scalp Added to Nebraska's List—Starting Off the Final Tour Right.

A WAY OUT OF IT

"I don't know what I am ever going to do with that boy of mine. He is careless and absolutely reckless of consequences, and doesn't seem to care for anyone."
"Good! You can make a taxicab driver out of him."

JOHN F. CONROY, Harvard Graduate Who Appears at the Orpheum This Week, has Only Complete Set of Medals Granted for Saving Lives In the U. S.

Medal Given Mr. Conroy by Carnegie Fund

Lincoln this week is the temporary home of a man who claims the distinguished honor of possessing the only complete set of medals granted publicly in the United States for saving lives.

The man is John F. Conroy, Boston's noted swimming instructor, who with his models and diving girls, one of whom is his sister, and the other a well known actress in water scenes and horsemanship moving pictures, is appearing in a spectacular aquatic act at the Orpheum.

Mr. Conroy possesses four medals and has a record for having saved 137 lives from watery graves.

He has one of the five medals in existence granted by Congress for life-

saving, and also has one granted by the Carnegie hero fund commission, another by the United States Volunteer Life Saving Corps and another by the Massachusetts State Humane Society.

The Carnegie medal was granted Mr. Conroy upon application of residents of Manchester-by-the-Sea, Mass., after he had saved the life of Walton Scully, son of James P. Scully, Pittsburgh millionaire, under most sensational circumstances during a gale.

Mr. Conroy was for ten years physical director of municipal gymnasiums and public schools in Boston. He also was instructor in heavy gymnastics at Harvard and holds an A. B. degree from that institution.
