

The Daily Nebraskan

VOL. XIII. NO. 122

UNIVERSITY OF NEBRASKA, LINCOLN, WEDNESDAY, APRIL 8, 1914.

PRICE 5 CENTS

BOARD OF REGENTS

SECOND REGULAR MEETING OF YEAR HELD YESTERDAY.

ENCOURAGE SOPHS PLEDGING

Much Business Transacted—Appointments Confirmed—Do Not Act According to Recommendations of Uni Senate

The Board of Regents of the University of Nebraska met this morning in the office of the Chancellor for their second regular meeting of the year. The passing of the budget for the academic year beginning September 1, 1914, was the item of business which held the largest interest among University employees. Final action was also taken on the revision of University titles, although not following the radical recommendation of the University Senate. Many miscellaneous matters were taken up and disposed of and the following appointments made by the Chancellor since the last meeting of the board were confirmed:

Appointments Confirmed.

To be clerk in the department of Agricultural Extension, as successor to L. C. Stevens, resigned, William Vining; lecturer in the department of Animal Husbandry, R. R. Doderidge; assistant in Bacteriology and pathology, J. J. Putnam; assistant in Greek, Maude Gaeckler; blacksmith at the Farm, John Feldhus; stenographers at the Farm, Lena C. Ellison and Margaret Johnson; scholar in Zoology, Susanna Parsons.

More Definite Refunding Rule.

Although the rule as set down by the Regents yesterday is in effect no different from the present practice of the University, it was thought necessary to make the rule more explicit because of several misunderstandings arising from its former indefinite stating. Matriculation, library or incl-

MISSOURI CLUB MET IN TEMPLE LAST NIGHT

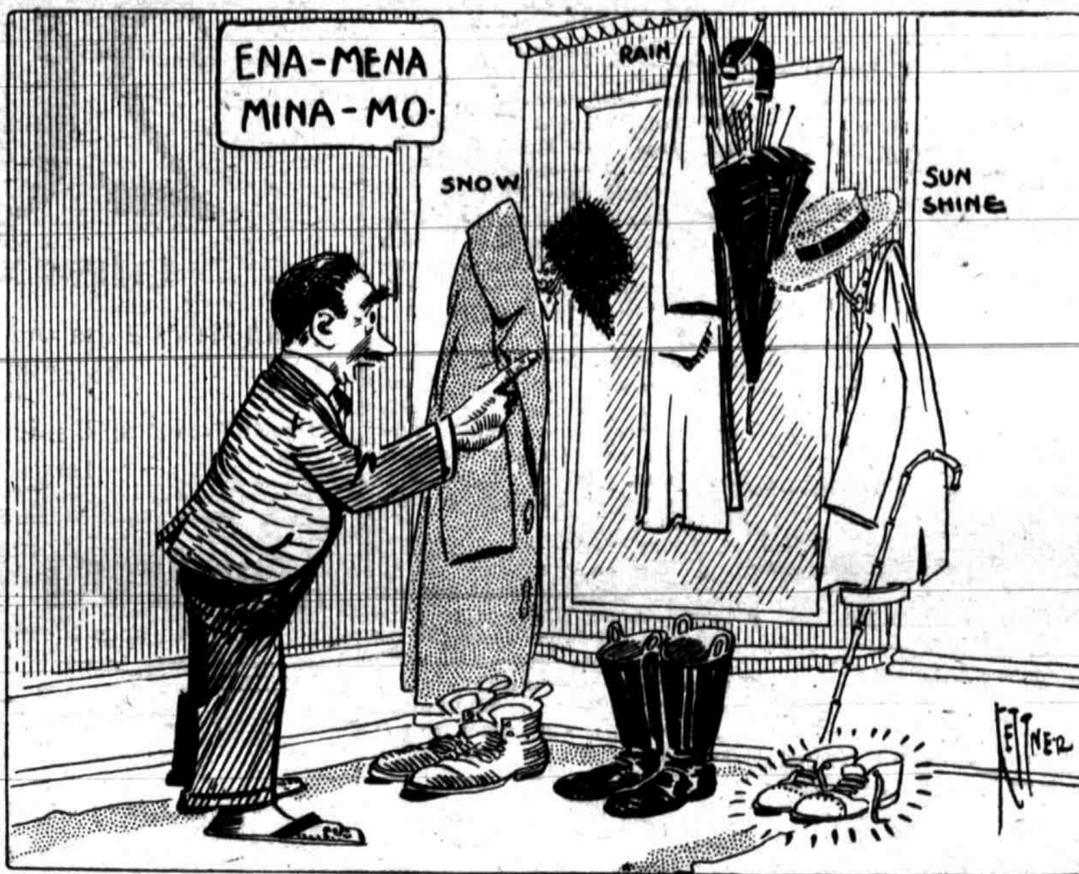

Plans Discussed for Increase of Membership—Prospects Bright—Next Meeting Set for April 18.

The Missouri Club, organized last February, met last night in the Temple High School in regular monthly meeting. The club is led by Mr. B. M. Asendorf as president. Mortan M. Krugg, vice president; Miss Hallie Workman, secretary-treasurer, and Charles Neal, sergeant-at-arms, are his able assistants. Two meetings a month are held, one being a business and the other a social session. The next social meeting is to be held Saturday evening, the 18th of April.

Any student or faculty member who has lived in Missouri is qualified to become a member of this organization. Those interested may secure detailed information from Mr. Krugg, phone B-1562.

About twenty-five young people are now connected with the Missouri Club, but Mr. Asendorf says he sees no reason why the number should not be twice as large. Some of the present members are now living in Nebraska, but their former residence in Missouri make it possible to become affiliated with the organization.

WHICH WILL IT BE TODAY?

TWENTY-FIVE SENIORS TRY OUT FOR PLAY

Cast Will Be Announced Tomorrow—Conflict of Date Forces Change.

About twenty-five young people tried out for places in the senior play, "The Fortune Hunter," last night in the Temple Theater. The nine young ladies are: Misses Marian Preece, Vivian Cleaver, Helei Sturba, Helen Keeler, Dorothy Knight, Beas Jeffries, Margaritte Keffer, Louise Rise and Isabel Coons. The young men are: Messrs. Hugh Agor, Don Ahrens, Emmett Dunaway, Charles H. Epperson, Guy Williams, Paul Yates, R. K. Ammerman, Harold Diers, Niel Brown, F. J. Chase, E. W. Hohen, Orville Chat, D. P. Griswold and A. H. Coleman. Members of the cast are not to be announced until tomorrow morning.

The parts for the members of the cast to commence work on are already in the hands of the committee in charge. An advance payment of fifty dollars of the hundred royalty was sent with the order for the parts.

On account of a conflict of dates with other events scheduled for this spring, the senior play will probably not be given until the latter part of the school year. The Kosmet Klub play, to be given the middle of May, makes it impossible for the seniors to give their play at that time and the Engineers' Week the first part of the same month interferes with the success of the play then.

Northwestern.

The plans for the student council were brought to a sudden halt on account of objections being made by the student body to vote on the proposed plans without further discussion and explanation. Another mass meeting is to be held at which the plans will be thoroughly discussed.

EQUAL SUFFRAGE TO BE DISCUSSED BY HOWARD

Lecture to Be Free—Mainly for University Population, But Others Are Invited.

Dr. Howard of the University will give an address on "Equal Suffrage" in the Temple Theater, Thursday evening of this week at 8:00 o'clock. The lecture is open to the general public, but will be especially directed to University people. Those in charge are very anxious that all University people interested in the subject—and all should be—hear what Dr. Howard has to say. He is recognized as one of the foremost sociologists in the country and an authority on the home and family relations. They believe that no matter upon which side your convictions lie, you owe it to yourself and to the interests of better social justice to become familiar with all phases of the question. The lecture is free.

LOCKER ROOMS CLOSED BECAUSE OF SMALLPOX

Almost Entire Memorial Hall Was Closed Yesterday—Fumigation in Locker Rooms Necessary.

Owing to the fact that several cases of smallpox have developed among the boys taking gymnasium work, it was considered advisable to fumigate the gym yesterday. All the locker rooms, the chapel and the armory were thoroughly disinfected.

The diphtheria cases that were quarantined by the health authorities Saturday are not in a serious condition. One patient will be released from the isolation hospital this week, as it was measles, not smallpox.

PAN-HELLENIC DANCE IS ANNOUNCED MAY 21

"Some Function"—Big Rush for Dates Expected Shortly—Be Wise.

Life is just one dance after another.

Now comes the Pan-Hel committee with plans and preparations for the big Pan-Hellenic ball of the year, which will be held May 15 in the Auditorium. Notwithstanding all the high-class competition they have had, the committee avows that they have the proper facilities for putting on "the" social stunt of the season and are making preparations with that end in view.

Publicity Man Garrett states that he has lingered around these halls of knowledge for several years and during his sojourn it has been his privilege to attend many of the so-called famous social successes, but the coming Pan-Hel ball gives promise of clearly outclassing all former functions in originality, vivacity and sociality.

Tickets will be on sale soon. The usual rush for dates for this affair is expected and a number of the enterprising sororities are making preparations. One sorority has ordered two additional phones; another will have two extra dark porters and messenger boys. A girl from a sorority house on Fourteenth street said that they had fifteen dates for it already and that they are contemplating on securing some quiet lady to stay at the house that evening, as they expect to all be gone. So goes the story and the advice of the committee to all is, Get your dates at once.

Pledge.

Sigma Delta Chi, the honorary journalistic fraternity, announces the pledging of Arthur C. Chace, '16, Stanton Nebr.

SORORITY RULES

INTER-SORORITY GIRLS DISCUSS HOUSE RULES AT DINNER.

MISS GRAHAM GIVES ADVICE

"No Week Dates for Freshmen" Advised—Sophomore Pledging—Thirty, "Quiet Hour," Etc., Rules Are Discussed.

A general uniformity and more strictness in house rules is what Miss Graham, dean of women, advised for the sorority house girls at an inter-sorority dinner last night, held at the Temple. Each sorority was called upon to give personal testimony as to the manner in which their house was conducted and from the reports submitted those present were led to believe that some of the sorority houses at Nebraska are models in the manner of government and methods of maintenance. The testimonials delivered were in many respects masterpieces and exposed much thought and consideration.

No Week Dates for Freshies.

One of the sororities announced that they had a rule which prohibited freshmen from having week night dates and this plan was endorsed by Miss Graham. The matter of the ten-thirty rule and similar regulations was also taken up and discussed.

Co-operative Buying.

The manner in which the business and financial departments of the different houses were managed also received consideration. It was suggested that co-operative buying among the organizations would be of economical value. By purchasing all the coal, provisions, etc., in one lot they would be given the advantage of lower prices. This idea seemed to meet with much favor and it will be investigated.

Each sorority was also questioned

JAP ENGINEERS DISCUSS ENGINEERING IN JAPAN

J. E. Brown Elected New President of A. S. M. E.—President Luebs Resigns.

At the monthly meeting of the A. S. M. E. last night, A. C. Luebs resigned his position as president, to take up his work as president of the Engineering Society. J. E. Brown was elected to fill his place for the remainder of the semester.

Talks were made on "Engineering in Japan," by H. Ichinosa and Nisa Sato. They discussed the new railroad construction in their country and also building and bridge construction. This was well brought out by the use of interesting lantern projections. The first railroad was built in 1870 and was only eighteen miles long, and required two years to complete. Now they have 7,000 miles, over an area equal to that of California. Engineering has been held back in the past on account of the lack of iron ore for steel construction work, but they have taken long strides since their war with Russia and the prospects are bright for their small empire. Chemical engineering has also developed and in a short time will exceed all other classes.
