

# The Daily Nebraskan

VOL. XIII. NO. 127

UNIVERSITY OF NEBRASKA, LINCOLN, WEDNESDAY, APRIL 15, 1914.

PRICE 5 CENTS

## OFFICERS ELECTED

COMMERCIAL CLUB NOW A REALITY IN NEBRASKA UNIVERSITY.

### PRES. TAYLOR ENTHUSIASTIC

Perkins of the Nebraskan Vice President—Program and Constitution Committees Named—Faculty Members Speak

Officers for the Commercial Club, organized last night, are: Otis E. Taylor, president. Frank S. Perkins, vice-president. Richard V. Koupal, secretary. John A. Philpi, treasurer.

H. H. Corey, G. Loomis, C. A. Olson and H. C. Harvey were appointed as members of the program committee by the president-elect. R. E. Cady, as chairman, and O. H. Zumwinkel and Robert Van Boskirk are members of a committee for the drafting of a constitution and by-laws.

Professor Martin started the ball rolling by outlining the purpose of the club. Dean LeRossignol spoke and endorsed the movement. Professor Stephens told of the personal benefit that the members of the club would derive from their activeness in such an organization, and Professor Virtue emphasized the fact that every man would have to keep his shoulder at the wheel during his entire University career in order to make the club a continued success.

Arrangements will be made at an early date for another meeting, as well as a smoker, in order that the various men in the department may become acquainted with each other and familiar with the workings and purposes of the club. Prominent business men will be secured to make practical talks before the club at the meetings as they are held.

## GIRLS' CLUB REPRESENTATIVE CHOSEN YESTERDAY

Miss Genevieve Lowry to Leave for Bloomington in Ten Days—Asks Suggestions.

At a meeting of the Girls' Club board yesterday, suggestions were given to the delegate, Genevieve Lowry, who will attend the national convention of Girls' Clubs in Bloomington, Indiana, the 24th and 25th of this month. At this convention suggestions will be asked and given as to ways and means of promoting the best interests of the girls and school at large. Miss Lowry expects to get inside information on student councils in various schools. She is also planning to investigate the values of the point system as it exists in other places. New ways of raising funds, of running parties in which dancing is eliminated and other such topics will be brought up by her. Miss Lowry will be glad to receive any suggestions on matters which should be investigated.

About ten dollars is lacking from the amount decided upon as necessary to send our delegate to the convention. This may be drawn from the treasury, however, as the Woman's Club recently presented the Girls' Club with \$25. Many girls expressed their desire to buy tags last Friday, but were unable to do so because of lack of funds that day.

# Who Is The Most Popular Girl

THE DAILY NEBRASKAN wants to know the most vital of all University questions: To whom belongs the title of the "First lady in the school"? Everybody has a vote--or as many votes as ballots. The ballots will be in the paper tomorrow and Friday. All votes must be put in the Popular Girl Contest box in University Hall before seven o'clock Friday evening

We wish that the merits of the various candidates be carefully considered, so we offer the following suggestions: Judge them according to the following---1. Beauty. 2. Congeniality. 3. "Fussing" ability.

## CUT OUT THE BALLOT IN TOMMORW'S PAPER

### OMAHA TEAMS CALLING FOR SOCCER GAME DATES

Inter-department Baseball League to Be Formed—Athletic Board to Meet Monday.

Coach Stiehm is in receipt of a letter from Omaha asking for a game of soccer. It is probable that a couple of games will be arranged. "Jumbo" has also been trying to get two Omaha semi-pro teams to come and put on a game for the benefit of Nebraska fans who are learning to enjoy the great English game.

The Athletic Board will meet next Monday afternoon at four o'clock in Dr. Clapp's office. Several matters of routine will be disposed of. Coach Stiehm will bring before the board his recommendation that an inter-department baseball league be formed. Mr. Stiehm will submit articles and will suggest the calling of caucuses to choose delegates to a meeting for the forming of rules and regulations.

This is a part of the plan Mr. Stiehm has been working on to encourage greater numbers to participate in athletics. He believes that it would be possible to form an eight or nine team league. As he has tentatively outlined the league, he would have nine teams. Freshman Laws, Junior and Senior Laws, Civil and Electrical Engineering, Mechanical Engineering and Foresters, School of Commerce, School of Agriculture, Arts and Science Freshmen, three senior classes in Arts and Science College.

The plan as outlined is to bar no one. The plan would be to have each team play every other team at least once. This would mean about thirty-six games in all. The winners would be determined on the percentage basis.

### SENIOR INVITATIONS

Senior Invitations will be on sale again at the tables in U. Hall and in the Library, Wednesday and Thursday. This will positively be the last sale.

### Compulsory Athletics.

Why can't a rule be passed requiring compulsory athletics? Coaches favor it and the student's own health demands it. Let him play some of the intercollegiate games or do work in the gym.

### DESERT PLANTS FROM ARIZONA ARRIVED SAT.

Cacti to Be in Bloom on the Campus—Brilliant Colors to Be Prominent in Beds.

Dr. Bessey's collection of cacti and desert plants arrived Saturday from Arizona. Nearly all of the specimens were obtained near the government botanical laboratories at Tucson, Arizona. Both the thorny and the thornless varieties are found in abundance. One of the cacti is about four feet high and two feet in diameter. It is known as the giant cactus, and is covered with huge spines; the skeleton of the internal structure accompanies it. The desert plants are brilliantly colored and their flowers are very attractive. One noticeable characteristic is the small leaves in proportion to the size of the plant.

Dr. Bessey has made arrangements to have a giant cactus in bloom shipped from Arizona to place on exhibition on the campus.

Nearly all of the plants and cacti are growing in the greenhouse and may be visited by the students.

### NEBRASKA UNI. STUDENTS FEATURED IN THE MOVIES

"How Jones Joined the Fraternity" Name of Play—At the Magnet Next Week.

A real live University moving picture will be shown at the Magnet next week. The name of it is, "How Jones Joined the Frat." The characters are all Nebraska students and it is a story hinged upon entirely local surroundings. The part of Jones is taken by Maurice Clark and the role of leading lady by "Peggy" Rustin.

The story commences with the arrival of Jones from the country at Nebraska for his freshman year. Being a promising young youth, he is rushed by one of those "fraternity societies" and he pledges. He becomes a hero at a game of soccer and wins the respect and admiration of a dashing college lass (Miss "Peggy" Rustin). Coach Stiehm staged a special demonstration of the newly-introduced English game on Nebraska Field for the film.

After having gone through all the preliminary stages of a pledge, he is united into the bonds of his organization by an initiation. During this time he and his soccer admirer have grown very intimate and her sorority sisters appear to be out of harmony with the growing friendship. When the day arrives for the formal, the girls lock her in her room so that she will be unable to take Jonesy to the big function.

Jones's frat brothers tell him of the plight of his ideal and he rushes to her house to rescue her, where he is arrested for burglary. At the trial he is pronounced insane and taken to the state asylum, where he is placed in a cell.

His frat brothers and "his girl" visit him in captivity. A little later he is

## BATTLE TOMORROW

UNIVERSITY CADETS AND FARM WILL WAGE MIMIC WAR.

### CONDITIONS OF THE FIGHT

Cadets Will Fall in at 3:00 P. M.—All Anxious for the Fray—State Farm Claim They Will Be Victorious.

The war stir in Mexico has nothing on the battle rumors which are floating around the campus. The opening of hostilities between the Uni and State Farm cadets will take place tomorrow afternoon. The cadets will fall in on Twelfth street at 3:00 p. m. and will march from there to Ninth. The general conditions of the battle are as follows:

Information pertaining to the joint maneuver of the University and the School of Agriculture regiments:

**General Situation.**  
The Blues (University) and the Reds (School of Agriculture) are at war. The Red division has been defeated at Milford and is retreating toward Omaha, being pursued by the Blues. The Reds have detached a force and three wagon trains to move all military stores at the State Farm to Omaha.

**Special Situation, Blue.**  
The Blue division commander has directed Colonel H. F. Kramer of the University regiment to make a forced march and capture or destroy all military stores of the enemy at the Farm. At 3:30 p. m., when the point of the advance guard arrives near Salt creek and Ninth street, Colonel Kramer receives reliable information from the scouts that the Red's wagon trains will be ready to start at about 5:00 o'clock, and will move north on

## NEB. AGGIES DEFEATED BY SCHOOL OF AGGIES

Absence of Some of the Regulars Has Telling Effect—Bottger the Star Twirler.

The "Nebraska Aggies" went down to Defeat before the School of Agriculture to the tune of 9 to 5 yesterday. Considering that the Aggies have defeated their rivals on two previous occasions, yesterday's battle was a severe blow to them. Gordon Beck, Whisnend and Lathrop, on the regular line-up, were unable to be present and their absence was sorely felt. Bottger, twirler for the "kids," was the man who did the work. The Aggies were unable to locate the ball at any time during his regime. He was supplanted by another recruit in the ninth and the regulars succeeded in piling up their scores in that half.

Ernie Frank and Bill Hosek were the stars for the Aggies. Hosek was elected captain of the squad last night.

The line-up of the College of Agriculture was as follows: Allen Danley, first base; Pier, center field; Hosek, shortstop; E. Frank, third base; Gary, second base; Leard, right field; Watson, left field; Sides, pitcher; Houston, catcher; Kirk, pitcher.

The manager of the School of Agriculture team refused to make known the names of his heroes and the Nebraskan is unable to publish them.
