VOL. XIII. NO. 135

UNIVERSITY OF NEBRASKA, LINCOLN, SATURDAY, APRIL 25, 1914.

PRICE 5 CENTS

CADET INSPECTION

UNIVERSITY REGIMENT INSPECTED BY U. S. STAFF OFFICER.

CAPTAIN LAUBACH PLEASSED

Lieutenant Bowman Satisfied With Showing Made by Cadets Yesterday—Large Crowds Turn Out to See Soldiers.

Yesterday afternoon the University cadets responded promptly to the call of the bugle and, on schedule time marched to the Athletic Field, where the government inspection was held. Capt. Howard Laubach of the United States Army was in charge of the inspection and in not more than an hour had completed his work. Commandant Bowman remarked that he was more than pleased with the inspection and Captain Laubach showed an attitude of satisfaction after his task was finished.

For some time after the inspection the companies gave exhibitions of company drill in battalion formation, extended order drill, bayonet exercises, Butts Manual, advance to the attack and battalion drill. One company did outpost duty during the exercises.

Many people were present to see the inspection. The war agitation at this time arouses the interest of the people and they turn out en masse when drill exhibitions are given.

In one movement where the cadets were required to run forward and fall flat on the ground, a portion of a company was forced to fall down in a mud puddle. Like true warriors, however, they never wavered, but executed the command as if they were falling on the downiest of heather. Throughout the entire inspection the same old spirit prevailed, which was very noticeable to those on the side lines. Owing to the bad condition of the grounds, some of the planned field work was dispensed with.

Government Inspector Satisfied.
"The inspection of your cadet regiment was very satisfactory."
(Continued on page 2)

RECRUITING STATION ON THE UNIVERSITY CAMPUS

Captain Paine in Charge—Number of Enlistments—Questions Answered.

"What's that little brown tent for, out on Twelfth street, in front of the Armory?" was a general question around the campus yesterday.

The War department has established a recruiting station at this point for the enlistment of volunteers into the cadet companies of the Sixth Nebraska regiment. Capt. C. H. Paine, captain of I company, which won the compet in 1912, is in charge of the station.

He reports that a number of enlistments were made yesterday. He states that a number of inquiries have been received regarding the nature of the enlistment. Enlistment is made provisionally that service will be required if war is declared, but in case such does not happen, the papers will be canceled. In no case will the volunteers be required to serve out a term as national guardsmen.

IT MAKES NO DIFFERENCE

LAWS TO CELEBRATE AT BEACH NEXT THURSDAY

Rally Monday Morning for Half Hour—Professors to Participate in Excitement.

The season's out-of-door festivities will be inaugurated next Thursday when the laws stage their annual barbeque at Capital Beach. Unlike last year's picnic, this will be a genuine barbeque. The committee has arranged with an old-time artist who had twenty years' experience on the Mexican border, and who guarantees a dish fit for the most exacting epicure.

In order to work up a proper appetite for this great love feast, the dean has granted a special rally Monday morning. This will start at ten minutes of nine and last until nine-twenty. The most notable stumblers from each class, in charge of Bayard Griffin, will stir up the "pep" of the assembled multitude. Tickets will then be put on sale and Professor Wilson says that no one will "go out, young man" until he has dug down for the necessary six bits.

The barbeque is a unique, distinctive affair of the law college. On this one day they orate, eat and romp like a happy family. For the only time during the year Doctor Maxey comes down from his dignity, Professor Robbins says nice things about the embryonic jokes d'y understand, and Professor Wilson and the dean lead that grand old anthem that has spurred so many tired intellects to redoubled efforts over Street, Coke and Blackstone.

There will be good speeches (by out-of-town lawyers), athletics will be lightly indulged in, and there will always be on tap plenty of nice, fresh, juicy roast steer.

ARTIFICIAL BREATHING PRACTICED ON DOGS

Doctor Lyman Much Interested in His New Machine—Other Experiments Later.

Doctor Lyman and his assistants have been demonstrating a series of interesting experiments in the physiology laboratory this week. An artery in a dog's neck was opened and the artificial respiration started. A lechol was then injected into the artery and all the different stages of alcoholism were shown in a few minutes, from the happy stage of excitement to the last stage of drunkenness. Fifteen centimeters of alcohol was sufficient to kill a dog. Caffeine and adrenalin were also used in another similar experiment.

At some other time another dog will be used to show the blood pressure.

Arrange Schedules.
Coach Stiehm is anxious to have a conference with all the managers of the Interdepartment Baseball League for the purpose of arranging a schedule.

CLARINET COMPANY WAS ORGANIZED YESTERDAY

Section of the Band Went Through Exercises—Officers to Be Announced Later.

A new company has been formed at Nebraska. All this happened yesterday at inspection. The company is composed of the clarinet section of the band. This section of the band got out on the field and went through various drills the same as the other companies. Instead of a rifle the boys used their instruments. Butt's Manual was also executed in grand style. The officers have not yet been announced. This will be done soon.

NEXT TUESDAY IS DAY FOR RESERVING SEATS

Cast Working Hard on Parts—Manager Kiddoo Says Much Interest Is Being Shown.

Many inquiries have been made as to when reserved seats for "The Fortune Hunter," the senior play, may be secured at the Oliver. The manager states that 1:00 p. m., next Tuesday, April 28, is the time when Mr. Owen Gane, holder of ticket Number 1, may exchange it for his choice of the seats. Other seniors holding numbered tickets may then exchange them for reserved seats as follows: Numbers 1 to 25, from 1:00 to 1:30; numbers 25 to 50, from 1:30 to 2:00; numbers 50 to 75, from 2:00 to 2:30, etc. After the seniors who have paid their assessments have reserved their seats the sale will be open to the public generally.

Indications point to a record-breaking sale. Several organizations have filed requests for large blocks of seats. One fraternity will take fifty seats in a body. Organizations that desire reservations together may so arrange by application to Manager Kiddoo.

Advertising folders have been distributed at the recent Shakespeare plays at the Oliver, and the townspeople are showing a great deal of interest in the play. Bookings at the Oliver have been so poor this year that the people of Lincoln welcome an opportunity to see an up-to-date play like "The Fortune Hunter," well presented.

Marion Preece is doing excellent work in rehearsals as the daughter of the old inventor. Her charm and beauty finally convince Nat (Rockie Amerman) that he would rather have her than Josie Lockwood (Isabel Coons) even though Josie has a million.

NO SOPH PLEDGING

BOARD OF REGENTS ADVISES A POSTPONEMENT OF RULE.

ACTION TAKEN YESTERDAY

Meets With General Approval of the Greek Organizations—Miss Gittings Granted Leave of Absence for One Year.

The Board of Regents held a meeting in Administration Building yesterday and dispensed with several items of business.

The Board of Regents recalled their resolution favoring sophomore pledging and gave Chancellor Avery permission to suspend for two years the operation of such a rule. The Board, at a recent meeting, passed a motion favoring the adoption of sophomore pledging at once. This retraction meets with general favor among the Greek fraternities, although there are a few of the organizations who favor the adoption of the new ruling at once. At a recent meeting of the Interfraternity Board, the matter was discussed pro and con by the different members and it is thought that their attitude had something to do with the retraction.

Miss Ina E. Gittings, professor of physical education, was granted a year's absence from the University. Professor Hutton Webster of the Sociology department was given a similar leave.

Chancellor Avery was instructed to proceed with the formation of the graduate school of education. Dean Fordyce presented a number of recommendations for the reorganizing of the teaching staff of the Teachers College, following the formation of the new school, which were all approved. Professor Luckey will be dean of the new school.

The Medical College was granted the following representation in the University Senate: Professors Pointer, Willard, Guenther, Gifford, Schulz, Cutter, Jonas, and Bridges.

STUDENTS COUNCIL CONVENTION WAS NOT HELD

Not Enough Present to Do Business—Inspection Probably Kept Many Away.

On account of the small number, not even a quorum being present, no student council convention was held yesterday afternoon. Probably the government inspection had something to do with the absence of the rest of the members. The first meeting will be held either on Tuesday at eleven o'clock or at seven o'clock on Wednesday or Thursday evenings. It is hoped that there will be a full attendance at this meeting, because nothing can be done without the united effort of the whole body. Watch the Rag for the exact date of the meeting.

Minnesota.

The 1914 Gopher will appear on the campus about May the eighth, as announced by the managing editor. A big dance will be given the same night.
