UNIVERSITY OF NEBRASKA, LINCOLN, THURSDAY, MAY 7, 1914.

PRICE 5 CENTS

HOLIDAY ENJOYED

IVY DAY PROVES TO BE BANNER ONE OF ALL ITS SISTERS.

INNOCENTS & BLACK MASQUE

Miss Gladys Bunt Crowned Queen of May—May Pole Dance—All-University Picnic Will Be Annual Event—Band Concert.

Without a doubt yesterday's Ivy Day program was the most successful ever attempted. Every event from the May pole dance to the band concert was executed with a skill and precision which resembled clock work. The all-University picnic in the afternoon and evening was one to be long remembered. As the first all-University function of this character, it certainly commenced things right. All those who attended were loud in praise and hereafter it will be looked forward to with great anticipation by the student body.

Shortly after ten o'clock the crowd gathered west of the Library and the senior class poem was read by Miss Aurel Murtey. The poem was short, concise, to the point, strong in expression and took well with the audience. Lee Baysee, orator of the day, followed with the Ivy Day oration.

With pomp and ceremony Ross Haskell, president of the senior class, and Herbert Ress, president of the junior class, planted the Ivy near the Law Building.

And then came the crowning event of the day. Miss Gladys Bunt, in royal attire, swept majestically up the isle to the throne. She was crowned "Queen of the May." This was followed by the May-pole dance. Many interested and pleased students witnessed the function. The University Band furnished the music. After the dance the crowd broke up—to assemble later under the welcome shade of the groves of Epworth Lake Park.

The afternoon pastimes and entertainment at Epworth Lake Park were devoted mostly to sports, boating.

TOUR SO. AMERICA

UNIVERSITIES OF COUNTRY WILL SEND REPRESENTATIVES.

PROFESSOR FROM NEBRASKA

Tour Will Take Entire Summer and Important Cities Will Be Visited—Nebraska Representative Will Take Pictures for Slides.

Prof. C. E. Persinger, of the American History department of the State University, has been invited to make a tour of South America during the coming summer as a guest of the Pan-American Division of the American Association of International Conciliation.

Professor Persinger has been interested in Latin-American history and affairs for several years; having given a course in the American History department of the University for the last five years upon Latin-American history, institutions and present conditions. The second semester of last year he spent on leave of absence in the west-coast Republic of Peru, bringing back with him a valuable collection of lantern-slide material illustrating conditions in that country.

The association which extends him the invitation is acting on the theory that the very best basis for conciliation between two countries is a mutual understanding of each other's conditions and ambitions or ideals, and that the best method of beginning such an understanding is to bring the educational interests of the two countries into a friendly acquaintance. As a first step in this direction, the association is planning to take twelve or fifteen North American university men upon a tour of South American countries and educational institutions during the coming summer. This will be followed a subsequent year by a tour of South American university men through the United States and its educational institutions. Eventually it hopes to make each university of either country a center of interest and

YALE PROFESSOR AT CONVOCATION TODAY

Is Making a Tour of Educational Centers—Subject of Social and Religious Nature.

Dr. Charles R. Brown, dean of Yale Divinity School, is to be the convocation speaker at 11 o'clock today. Dr. Brown is a distinguished writer on social and religious themes. He is moderator of the National Council of the Congregational churches for this year and is counted one of the great preachers of America. He has filled some of the most prominent pulpits in England and in all parts of the United States, being especially in demand as a speaker before student bodies. He is at present making a tour of some of the larger educational centers of this country.

THE FEDERAL LEAGUE

Making Big Thing of Venture—Games Draw Large Crowds and Much Interest Is Shown.

The calamity howlers who predicted a trip to the cellar for the Federal League sure ate the wrong food for brains. The season is nearly a month old and the Federals are drawing big crowds and putting up a splendid article of the national pastime. It is predicted that they intend to raid the minors during the summer of promising material. This much is sure, organized baseball is on the run.

FAST FRAT GAME

Sigma Phi Epsilon Defeated the Phi Delta Theta by Close Score on Morning of Ivy Day.

In a fight to the finish the Sig Eps defeated the Phi Deltas to the tune of six to four on the athletic field diamond yesterday morning. The Deltas opened strong with four runs in the first inning, but were held to that score for the balance of the game when the Sig Eps put "Jim" Keefe in the box.

OBERHOFFER FAMOUS FOR HIS PIANISSIMO

Conductor of the Mozart Symphony Orchestra—Others Wonder in Regard to Ability.

Some conductors are noted for the grandeur of their climaxes, some for the lofty thought expressed in their interpretations. Emil Oberhoffer, conductor of the Minneapolis Symphony Orchestra, is famous for his pianissimo. He has reduced to a distinct art the magic of the vanishing tone. The tenderness, witchery and palpitant beauty of his pianissimo tone is a marvel to critics and one of the chief fascinations of his orchestral work.

"How does he get it?" asked an eastern conductor hearing Oberhoffer in a Mozart symphony. Later the same conductor heard Mr. Oberhoffer

TRACK TEAM LEAVES FOR DES MOINES ON FRIDAY

Ames Strong in Many Events—Nebraska Strong Along Practically the Same Line.

The track team leaves for Des Moines Friday, where they are to measure up with Ames Saturday afternoon. This promises to be a real contest. In the events that Nebraska is strong in, Ames is strong. Where Ames is mediocre, Nebraska is not strong. Dopsters who are following events predict that the meet will be decided only after the relays have been run.

SOME MAN

Schrader of Iowa University Made Remarkable Score in Events—The Track Against Him.

Schrader of the Iowa University track team distinguished himself last Saturday in the Minnesota-Iowa dual track meet. Schrader won five firsts. In the pole vault he cleared 10 feet, negotiated the high hurdles in 17.4, made 5 feet 6 inches in the high jump, 20 feet 4 1/2 inches in the broad jump, and finished the low hurdles in 26.3. This poor performance is blamed to the weather man. What Cornhuskers wonder is, where Schrader would have stopped if conditions had been O. K.

BAYE, IVY DAY ORATOR, GIVES CONVINCING ORATION

Subject of Address Is "Service"—Extracts From Speech—Usefulness of Education.

The Ivy Day oration was delivered near the east entrance of the new Law Building by Mr. George L. Baye. Mr. Baye, whose home is at Alliance, Nebraska, is a senior in the six-year law course, and is a member of the Acacia fraternity. He is a convincing and polished speaker, and has repeatedly received distinction in this line of work. In 1913 he was one of the winners in the University oratorical contest.

The subject of the address was "Service," with special reference to the duties and responsibilities of those who have received the benefits of higher education in institutions supported by the state. It was a scholarly and finished production. Following are some extracts from the oration:

"The motive from which education springs is belief in the goodness of life, and the consequent desire for a life richer, freer and higher. It is the point of union of man's various and
