

The Daily Nebraskan

VOL. XIV. NO. 21.

UNIVERSITY OF NEBRASKA, LINCOLN, WEDNESDAY, OCTOBER 14, 1914.

PRICE 5 CENTS.

MAXEY ON BIG WAR

TOLD OF INCREASE OF COMMERCE OF THE UNITED STATES.

UNITED STATES TO BENEFIT

No Great Danger as Result of War For Fifty Years—South American Trade Growing Rapidly.

Convocation yesterday was as usual a decided success. After the opening song of America, Dr. Maxey spoke on the "Effects of the European War on the United States." He said that in the last one hundred years the commerce of the United States with the rest of the world has increased about 2,000 per cent, consequently the war can not help but effect the United States commercially.

He said the United States would enforce the 24-hour port law and that any citizens thereof who returned to Europe and joined the foreign army forfeited his citizenship. He also stated that in his opinion armed neutrality was likely to be respected over unarmed neutrality. As a result of this war our exports to Europe will command higher prices and in that way it benefits the United States. He said the war was also a great aid in opening up the ports of South America to the United States though it was through foreign banks that this was made more possible.

"This war," said Dr. Maxey, "relieves us of any possible danger of any war of consequence in the next fifty years. It will give an opportunity for such a development as will decrease the danger permanently."

GERMAN DRAMATIC CLUB HOLD THEIR TRYOUTS

Will be Held Next Wednesday—Will Present a Play This Year as Usual.

The German Dramatic Club will hold tryouts for membership on Wednesday evening, October 21, in the Temple Theatre at 7 p. m. Those wishing to try out should register with Miss Heppner in U. 110, any afternoon. She has a list of scenes suitable for presentation and will give other information desired.

The German Dramatic Club was organized in June, 1912, for the purpose of developing fluency in German conversation and promoting the study of the German drama. Under the able direction of its coach, Miss Amanda Heppner, the club has become one of the strongest organizations in the University. Each year it presents one of the best German plays. Among the plays previously given are: "Miller and Mueller," "Alt-Heidelberg," "Koenickerstrasse," "Minna von Barnhelm," "Die Journalisten," and "Flachsmann als Erzieher."

Edson, Treasurer.

The board of control of the Engineering Society met Tuesday at 11 o'clock and elected Oscar E. Edson treasurer of the society. Engineering Week and Engineers' Night were discussed. Plans for University Night were also taken up.

Rev. Worthley at Vespers.

Rev. Worthley spoke at Y. W. C. A. vespers, Tuesday at 5:00 o'clock, on "The College Girls' Relation to the Church." He said that the church was inevitable; that it was invincible, and that it was indispensable. As the church is such an institution, the college girl's relation is very far-reaching.

First—She must realize her relation to the great cause of Jesus behind it. Second—She must realize her relation to it as an institution and make it the dominant factor in her life.

Third—That she must realize that it is a continuing relation; that no matter where the girl is, she should move her church with her; that is, she should take her membership with her.

Chem. Club Meeting.

The first meeting of the Students' Chemical Club will be held tonight at 7:30 o'clock in the Chemical lecture room. The following program will be given:

Address—Chancellor Avery.

Address—Doctor Dales.

All students and others interested in chemistry are cordially invited to attend and to become familiar with the club and its work. Be prompt in order that the meeting may begin on time.

NEUTRALITY PLEDGE BROKEN AT NEBRASKA

Germans and Belgians Have Round—Dr. Bessey Refuses to Make Detailed Statement.

President Wilson's proclamation urging the neutrality of citizens of the United States may be in vain, for the Germans and the Belgians have already been mixing with each other here in Nebraska. At least E. H. Morgan of Nebraska City says so, and offers as proof a beet grown on his farm near that city. The beet is obviously of German extraction, being a thoroughbred Mangelwurtzel. However, in the course of its growth it gradually assumed the form of a Belgian hare. Mr. Morgan says the resemblance was complete, but that he cut off the head from the body before he noticed the freak growth. Recalling Dr. Bessey's interest in such nature fakers, he brought the beet to Lincoln and presented it to the Botany department. Dr. Pool took charge of it, and has placed it in a preservative solution in his office where it may be seen at any time.

When asked to make a statement in regard to the beet Dr. Bessey said that in view of the neutrality request he felt constrained to keep silent.

JUNIOR CLASS HAD A SNAPPY MEETING

Met Yesterday Morning—Covert, Coe and Ellis Draw Offices—Short and Efficient.

The Junior class meeting which was held yesterday morning was fairly well attended. Some enthusiasm was manifested on the part of those present. There were three persons nominated for office and these three were elected through the efforts of the Junior laws.

Those drawing the prizes are Miss Effie Covert, vice president; Miss Lulu Mae Coe, secretary, and Harry H. Ellis, treasurer.

THE GLEE CLUB CAST

TWENTY-ONE ON THE LATEST OFFICIAL LIST.

MARSH TO PLAY THE PIANO

First Rehearsal Was Held Last Night—A Number of New Men Have Been Added to the List.

The following is an official announcement from the Glee Club committee composed of Professors Wm. F. Dann, Guernsey Jones and Mrs. Carrie B. Raymond:

"The Glee Club Committee begs leave to announce that the following candidates for membership in the University Glee Club have been accepted. The alternates will be used to fill vacancies, which are almost certain to occur, and to reinforce any part which seems after a few rehearsals to need strengthening. They will thereupon become full members of the Club.

"All members of the Club who wish University credit for this work should register immediately. The first rehearsal will be Tuesday evening, October 13, promptly at 7 o'clock. Promptness is essential, not only to the progress of the Club, but to the satisfaction and self respect of its individual members. It is intended that the attainments of the Glee Club will be such as will reflect honor upon every member of it."

Cast. Golthilf Claussen, Lorentz Colbert, Harry Doling, Addison Downing, Wallace Ellis, Leslie Haggart, Virgil J. Jackson, A. Earl LeBas, Raleigh D. Loder, John Miller, Arthur P. Moser, Ellsworth Oden, C. L. A. Power, Marschelle H. Reasoner, N. Robert Rice, Lawrence W. Warner, Philip A. Wiltse, Reginald Yost, Herman Young, Roy M. Marsh, Stanley B., pianist Lehmer, Theodore, violinist.

SEPTEMBER "PULSE" BEATS EXCELLENTLY

First Issue Very Interesting—Contains Fine Photograph of College of Medicine.

The September issue of the "Pulse," the student publication of the College of Medicine at Omaha, has arrived at the Nebraskan office. Owing to a change in the manner of selecting the editorial staff that selection was delayed until this fall and this first issue is the effort of a few students who though unorganized succeeded in putting out a neat issue full of interesting material. It has been decided to make the "Pulse" a monthly publication this year and the management promises an increase in size and a better paper. On the front page of this first issue appears an excellent photo of the College of Medicine which is located at 42d street and Dewey avenue.

Students go to Church.

Seventy per cent of the students and faculty of The Ohio State University attend church. This is the result indicated by a canvass of the student body which was begun last fall by the various churches in the neighborhood of the University. The purpose of the survey which has just been completed, was not to determine the denominational affiliations of the students, but rather to discover the percentage of church attendance of the University students.

Practically every student in the University was interviewed and the results show that nearly 41 per cent attend church regularly; 29 per cent occasionally; while 30 per cent of the faculty and student body do not attend church. "One of the remarkable facts emphasized by the survey is that the University church attendance of 70 per cent, is far greater than that of the professional world," said a member of the committee which directed the survey.

Fifteen Hundred Take Rhet. 1 at Ill.

The registration in the Rhetoric 1 department reaches approximately the 1,500 mark, which incidentally is the greatest rhetoric registration of any University in the world.—Daily Illinois.

GIRL'S CLUB START SUFFRAGE CAMPAIGN

Will Hold Big Meeting Soon—Many Plans Laid For Capturing the Men Votes.

The Girl's Club is planning to hold a big equal suffrage rally in The Temple Saturday afternoon, and every girl in the university has been urged to take part in this important affair. The university girls are seemingly greatly interested in the active campaign for Votes for Women now near the deciding goal, election day, November 3. Many of them have called to ask Miss Alice Howell, president of the College Equal Suffrage League of the university, what they could do to help the cause along.

Miss Howell decided that a big mass meeting of girls was the first step, after which the girls would take measures to win the votes of the university boys for the cause.

A suffrage speaker of national importance has been promised for this rally. In addition to this, two plays will be given, one by university girls and the other by members of the faculty. Plans for capturing the votes of the student voters are under way and will be sprung at this meeting.

SOPHOMORE CLASS MEETING THURSDAY

Will Meet in Memorial Hall—Minor Officers to be Elected and Olympics Discussed.

All members of the Sophomore class will meet in the chapel of Memorial Hall, Thursday morning at 11:30 for the election of minor officers and to discuss the Olympics which will be held Saturday, October 24. President Harney says it is especially important that all members be out to this meeting as plans are to be made and the organization perfected which will result in the complete annihilation of the Freshman forces in the class scrap.

POTTER DROP-KICKER

RETURN OF 1912 STAR MEANS MUCH TO NEBRASKA.

PERFORMS FROM 50 YD. LINE

Exhibition Game Between Varsity and Freshman Teams Scheduled for This Afternoon—Thriller Is Promised.

By H. I. Kyle.

It now seems quite probable that a new phase of the noble gridiron game, or rather a phase heretofore neglected at Nebraska, is to be developed. After watching South Dakota fail in her several attempts to score with a drop-kick, because of the weakness of her defense on the line, many of the rooters expressed a belief that Nebraska, had she had a good drop-kicker, could have scored many times in both of her games this season. The difficulty, of course, has been that no one on the squad has showed any ability in the art of booting the pigskin on the rebound. With the return of Herb Potter to the fold, this difficulty has been largely obviated.

Since his return Potter has devoted an hour each day to the practice of drop-kicking, with the result that he can now score from the forty or forty-five yard line almost at will, while he has been seen to kick several successful drops from the fifty yard line. As yet he has not attempted a kick from the eighty-yard line, but there are those among his admirers who contend that when he gets in condition he will think nothing of even that.

(Continued on page 3)

THE HOME ECONOMICS DEPARTMENT GROWS

Now Have a "Practice Cottage"—Meals Are Served in Home-Style Way.

Nowadays, home economics means more than domestic science alone. It means the putting into practice the theories learned, for now they have a "practice cottage." This cottage was formerly the superintendent's cottage, but now it has become a place where a few girls at a time may keep house in an ideal fashion. Of course, boys are glad to know this. They know they will have better cooking and cozier homes in which to spend their days.

Then, too, home economics includes food inspection and the analysis of food properties. Miss Corbin has charge of this department. A fine cafeteria has been installed in the dining room, and all girls not living in the dormitory may take advantage of this. The dormitory girls have their own separate corner to eat in, and so everyone is taken care of.

Correspondence School Hazing.

The farmer's son came home looking as if he had been through a tornado. His father inquired the cause. The son replied:

"It's that darn correspondence school again. I got a letter from the sophomores telling me to haze myself"—Everybody's.
