

EXTRA TOMORROWAGRICULTURISTS TO HAVE PART
OF DAILY NEBRASKAN**GOOD PROGRAM "AG" WEEK**Rest of Week Will be "Peppy"—Barn-
Warming Planned For Saturday
Night at Farm—Dance
Friday NightAgricultural week is here, and as yet
the Ags have not been much more in
evidence than is their usual custom;
however they are all working on their
program for the last part of the week
and a live time seems in store for all.Tomorrow the Agriculturists will
have charge of a part of the Daily
Nebraskan. R. J. Possen will be edi-
tor, while F. W. Gentleman and Chas.
Gunnels will have charge of the busi-
ness end. Tomorrow they will also
have charge of convocation. A spe-
cial program has also been arranged.For Friday night the Ags have ar-
ranged for a dance at Rosewilde Hall.
It has been the custom at this annual
affair to admit none but Ag students.
The custom has been departed from
this year however, so that those who
desire to attend this hop may do so
at the rate of \$1.25 per couple. At
least partly responsible for the above,
is the fact that the All-University-
Mixer is to be held in the Armory on
the same night, and the Ag students
wish to avoid anything that will even
approach exclusiveness in character.
It is hoped and expected that the main
difference between these two functions
will be that of price alone.The farmers have arranged for a
magnificent "barn-warming" on Satur-
day night. It will be held on the
State Farm campus in Horticultural
Hall. It will be free and everyone is
invited. The Ags will all be dressed
in typical farm regalia, and others are
asked to do the same if convenient.
An enjoyable time is assured all those
who attend.**DR. MAXEY MAKES
VALUABLE DISCOVERY**Declares That Party of Feedbarn Did
Not Deliver Feed to Party of
Freshmen"Nothing is trivial," "mighty oaks,
etc., etc." the forgetfulness of a cer-
tain feed man in this town has caused
discovery of wondrous economic im-
portance, has filled several otherwise
vacant columns in the Daily Nebraskan,
wakened the slumbering muses
in many a scribbler's heart; has oc-
casioned many a hearty laugh; given
the cynics an opportunity to moralize
on the rot that is getting into the
papers nowadays; last but not least,
it has engaged the services of that
most admirable sleuth, Dr. Maxey.Conceding nothing, he singlehandedly
dug to the bottom of the case.
From the clues which he has in his
possession Dr. Maxey has come to
the conclusion that the party of the
feedbarn did not deliver the feed to
the party of the Freshman rhetoric
because party of the feedbarn was ar-
rested. Dr. Maxey bases his inference
on the fact that he saw "party of the
first part" out on (the) bale.**DECEMBER ALUMNUS
WILL BE OUT SOON**Guy Reed Silent Concerning Special
Features—Will be Distributer
This WeekThis month's Alumnus has now gone
to press and is expected to be ready
for distribution by the end of the
week. Guy Reed's deep silence con-
cerning its special features are lead-
ing the wise ones to believe that there
are some surprises awaiting its read-
ers.**JOURNALISTS TO MEET
TONIGHT FOR CONFAB**W. O. Jones of State Journal to Speak
—All Men Interested
InvitedA meeting of all men interested in
journalism will be held tonight at the
Phi Kappa Psi house, 1544 O street.
Will Owen Jones, a Nebraska graduate
and editor of the Nebraska State
Journal, will speak on "The Writing
of News." The need of a school or
course in journalism at Nebraska,
such as is offered in many other state
universities, will also be discussed.Men on the staffs of the University
publications will find this meeting a
good occasion to "hash over" the
tribulations that bother the writer,
at 7:30.**REGENT HALLER
DISCUSSES SPAIN**Says That Development is Backward
—Modern Art Deals With Bull
Fights and ExecutionsIn an unvarnished version, Regent
Haller of Omaha gave his impressions
of Spain in a talk to the students at
the University Farm this morning at
the convocation in Agricultural Hall.Agricultural development and meth-
ods of travel are backward, he said,
and many of the people are ignorant
and proud as well as being filthy be-
yond description.He called Phillip II "bug house"
and pronounced the Escorial, a combi-
nation monastery and palace which
he built, to be more like an eighth
blunder than an eighth wonder of the
world.Modern art in Spain, he said, was
all gone. The common subjects are
executions, bull fights, and other grue-
some subjects that reflect the cruelty
of the Spanish heart. The older pic-
tures at Madrid, however, are said
to be beautiful.For an American to withstand the
Spanish cooking, the regent declared
that one must have an asbestos stom-
ach and alimentary canal.Three-fourths of the central portion
of Spain was likened to the bad lands
of Nebraska and South Dakota.Although his impressions were gen-
erally unfavorable, Regent Haller said
that he saw many interesting things
in the country well worth while. Re-
peatedly in his talk he told the stu-
dents that if they wished to see Spain
they should visit Mexico during a
quiet period, if possible to find such,
and that they would gain a fair im-
pression of the land of Don Quixote.Lives of Seniors all remind us
We should strive to do our best,
And departing, leave behind us
Notebooks that will help the rest.**SECOND BIG MIXER**EVERYTHING IN READINESS FOR
SECOND EVENT OF SEASON**GOOD PROGRAM NOW READY**Committee Have Arranged Several
"Stunts" Which Will Please—
Come Prepared For a Good
TimeOf course no one has forgotten that
the second all-university mixer will be
held on Friday night, December 11, in
the Armory "as usual." All the stu-
dents as well as all the faculty are ex-
pected to be present and no one doubts
that they will all be there.There will be amusements of every
sort, several numbers by the band and
an original little farce will be staged
as a part of the stunt program. In-
deed they have promised to give us
a peep into the little Red School House
of the Faculty in the days of long ago.Perhaps this will give us some idea
of those wonderful things that "father
did fifty years ago."There is excellent authority that the
committee has for some time been in
direct communication with the belliger-
ent leaders of the world who have
promised to send reports which will,
perhaps, be read. Out professors of
history! Here is your one chance for
direct facts, evidence boiled down and
full of truth!It has been noised abroad also that
those who attend this mixer will have
the opportunity of seeing a Russian
honeymoon but it cannot be learned
just who constitute the bridal couple.There will be no formal introduction
that evening as it is not a formal
affair. A good novel means has, how-
ever, been adopted which will entirely
do away with the necessity of intro-
duction.Have you noticed that it is the most
popular thing to come singly or in
groups of threes and fours? To come
by twos take half the fun away.
Come however you like, but be sure
to come some way.If you lose a little steam, use the
safety valve and not the whistle. It's
better of blow off than to blow.—Daily
Texan.**SPACE IN DAILY
NEBRASKAN FREE**All Notices Regarding General Uni-
versity Events Are Willingly
PublishedA student while speaking to one of
the Nebraskan reporters the other day
asked whether or not the notices that
appeared each day announcing the
various activities were paid notices.
The reporter was quick to respond
that any notice advertising some
school event was gladly published free
in order to aid in developing the at-
tendance to the various meetings,
socials and activities.The management is pleased to sup-
port this reporter in regard to this
matter. When at any time there is
an event which is of general impor-
tance to some society, organization, or
to the University student body in gen-
eral the Nebraskan will be ready and
willing to help "boost" the event.**DR. CONDRA WILL
ADDRESS CONGRESS**Will Address State Conservation Con-
gress in Omaha Tomorrow—
Will Also Show PicturesDr. Condra who has been touring the
northwestern part of the state, arrived
yesterday in Omaha where he will
show his state conservation films and
address the State Conservation Con-
gress with lectures that go with the
films. It is expected that he will re-
turn today. Dr. Bengston will go to
Creighton Saturday where he will ad-
dress a teachers' association.**UNION IS TO HAVE
CHRISTMAS PARTY**Miss Howell on the Program—Grab
Bag to be Big Feature—Every-
body OutThe Union Society will hold their
annual Christmas party Saturday even-
ing at 8:15 in the Union rooms on the
third floor of the Temple. The So-
ciety is pleased to announce that Miss
Alice Howell will give a Christmas
program at that time. All University
students are invited to take advantage
of this opportunity of hearing her.
The ever welcome Christmas institu-
tion "the grab bag," will have its
place in the evening's entertainment
and all are urged to bring some article
whose value does not exceed five cents.**REGENTS TO MAKE
TRIP OF INSPECTION**To Visit the Various Schools in the
Western Part of the Country—
Chancellor GoesChancellor Avery, Prof. Barbour,
and all members of the Board of Re-
gents, except Copeland and Anderson,
left yesterday morning for a tour of
inspection of the buildings and
grounds of the Washington, Chicago,
Wisconsin and Minnesota universities.The trip is made in accordance with
the plan of the Board of Regents to
inspect the different plans of group-
ing buildings and the style of archi-
tecture used at other scholastic before
beginning to build here. One day will
be spent at each institution in study-
ing the grouping of the buildings on
the campus, this being one of the
most serious problems to be faced in
extending the University here. On the
data gathered on this trip the party
will base their recommendation as to
what plan of grouping buildings should
be used at Nebraska. Some attention
will also be paid to the styles of archi-
tecture at the different schools, al-
though this is only of minor im-
portance.Today the Regents will be at St.
Louis; from there they go to Chicago,
and after spending tomorrow at that
place they will go on to Madison, and
from there to Minneapolis. They ex-
pect to return to Lincoln sometime
Sunday afternoon.**RAG DANCE**Couple Reporters Have the Dancing
CrazeA couple of the reporters on the
Daily Nebraskan started dancing in
the office last evening and the man-
aging editor called them down. The
response was, "Isn't this the RAG
office?" The managing editor re-
mained silent.**BASKET BALL LIST**THE TEAM WILL MAKE THREE
TRIPS THIS YEAR**JAYHAWKERS ON SCHEDULE**Last Game of the Season Will be
With the Wesleyan Coyotes Who
Handed the Huskers a Couple
of Defeats Last YearAccording to the Nebraska basket
ball schedule as completed and ap-
proved by the athletic board the Corn-
huskers will take three trips, the first
being through Iowa and Minnesota.
The first game of the season will be
played on January 6th against the
Company G quintet of Fort Dodge,
Iowa, at either Omaha or Fort Dodge.
The following day the team will meet
Hamline College at Hamline, Iowa,
from which place they will go to Min-
neapolis where they will give the
Gophers a couple of chances to get
revenge for their defeats of last year.
The Minnesota games will be played
January 8th and 9th. On January 15th
and 16th Nebraska meets the Ames
Aggies on the home floor. On the 20th
a cyclone will sweep over Kansas
from the north, causing much loss and
suffering to the farmers around Man-
hattan on the 20th and 21st and then
veering slightly to the east will take
a couple of whirls in the Jayhawk nest.
Official prognosticators have set the
date of these disturbances as January
22nd and 23rd. A battle royal will
occur on February 6th when the Corn-
huskers tangle with the rapid Wes-
leyan pack (the word "rapid" is used
advisedly; "speedy" and "fast" are be-
coming too hackneyed for our pure
and elevated style and besides we like
to set Doc Sherman a good example).
This mixup will occur in the Coyote's
den three or four miles east of Lin-
coln.February 10th and 11th will see the
boys at Des Moines scrapping with the
(Continued on page 2)**HOFFMAN ADDRESSES
LINCOLN ROTARY CLUB**Speaks on Subject "Ventilation in Its
Relation to Health—Special At-
tention to Work in ChicagoAt the weekly meeting of the Lin-
coln Rotary Club Tuesday noon, Pro-
fessor J. D. Hoffman of the Mechanical
Engineering department gave an illus-
trated address on the topic "Ventila-
tion in Its Relation to Health." After
discussing in a general way the effect
of impure air on the health of the in-
dividual, special reference was made
to the work being done in Chicago in
connection with the ventilating of
moving picture theatres. Professor
Hoffman expects to be in Chicago De-
cember 17, 18 and 19 on committee
work relating to the National Commit-
tee of the A. S. H. & V. E. on compul-
sory ventilation of buildings, of which
he is chairman.**Journalistic Meeting**All men interested invited to Sigma
Delta Chi meeting at Phi Kappa Psi
house, 1544 Q street, at 7:30 tonight.
W. O. Jones, of State Journal, on
"The Writing of News."
