PROFESSOR HOFFMAN HAS COLD
Unable to Meet His Classes on Thursday—Reported to Be Improving

Professor Hoffman, head of the mechanical engineering department, was unable to meet his classes on Thursday. He was confined to his home on account of a severe cold.

"No Junior Promenade" say the Colorado College authorities, giving as their reasons the already numerous distractions of college life, the expense, and the undemocratic nature of the function.

CHEMICAL SUPPLIES
HAVE BEEN CUT OFF
Seriously Affects Store at Nebraska—Chance of Improving Industry in United States

The chemical supplies that the United States had been importing from Germany have been cut off to a great extent on account of the present war. The store at the University of Nebraska has not been seriously affected, however, as there was a large amount on hand and there has been a good supply obtained since the beginning of the war, so that the students in Chemistry I need not worry

that there will not be enough material to make their "unknowns."
There is a good chance for the United States to make the production of chemicals on a large scale a part of her industry. There is no need for the people here sending to Germany for material that can be made here. If there were men enough that understood the work, or were even willing to learn, the chemical industry could be carried on in this country with good results. Chancellor Avery recently spoke to the Chemistry Club on this topic and he pointed out how this might be carried on. There is a good chance for some capitalist to add to his fortune by trying this venture.

Don't fail to read Mayer Bros. ad in this paper.
