

HISTORICAL SOCIETY

HAS BEEN HOLDING MEETINGS
LAST FEW DAYS IN LINCOLN

ATTENDANCE HAS BEEN FINE

Three Associations Vitally Connected
With Nebraska History Are
Meeting at the Same
Time This Year

The conventions of the Nebraska State Historical Society, the Nebraska Territorial Pioneers' Association, and the Nebraska Memorial Association, which have been in session the past few days, report some very excellent meetings. The attendance has been very good, the members coming from all parts of the state. There have been several interesting addresses given, and many of the old days in Nebraska have been lived over. The musical numbers, it is of interest to note, have all been given on, or accompanied by, an instrument which was brought to Nebraska by Judge Ferguson, the first chief justice of the territory, in 1855, which was recently donated to the Nebraska State Historical Society by Mrs. A. N. Ferguson of Omaha.

On Wednesday, Mr. John P. Sutton gave an interesting description of the Eighteenth Infantry, which was stationed in the western part of the state in 1860. Last evening the banquet was held at the Lincoln Hotel at 6:30 o'clock, Dr. Phillip Hall presiding as toastmaster. Toasts were given by Mr. J. L. Webster, Victor Rosewater, Mr. C. W. Bryan and Chancellor Avery, and one on the violin by Mr. August Hagenow.

IOTA SIGMA PI

ANNOUNCE PLEDGES

Iota Sigma Pi announce the pledging of the following girls:

- Eva Anderson.
- Emily Brian.
- Willa McReynolds.

CHEMISTRY CLUB HAS ITS REGULAR MEETING

Met Last Night in Chemistry Lecture Room—Election of Officers for the Coming Semester Held

On Wednesday night, January 13, the Chemistry Club met at 7:30 in the lecture room for its regular meeting. Very interesting talks were given on "Chemistry of Artificial Silks," by Miss N. Ward.

"Chemistry of Paints," by G. Everts.
"Chemistry of Dyes," by A. J. Wuertz.

The election of officers for the ensuing semester was held and the results were as follows:

- President, Raymond Kirk.
- Vice president, Glenn Everts.
- Secretary-treasurer, Florence Taylor.
- Executive committee, Messrs. Servis and Aronson.

Motion was made for the "Chem Club," to have a page in the Cornhusker, after which there being no other business to come before the club the meeting was adjourned.

DAIRY CLUB NOW ORGANIZED

Has About Twenty Enrolled From Students Majoring in the Dairying Department

On Tuesday evening a Dairy Club was organized with a membership of about twenty. Students majoring in the dairying department. President, E. G. Maxwell; secretary, Fred Gentleman. Organization will be completed at the next meeting which is to be February 2.

MISS POUND RETURNS FROM MINNEAPOLIS

Presented a Paper Before the Central Division of the Modern Language Association

Miss Louise Pound returned last week from Minneapolis, where she was invited to present a paper before the Central Division of the Modern Language Association. Her paper, which proved to be on a popular topic, aroused a good deal of discussion, and got itself headlined in the newspapers.

But for this program Miss Pound would have gone east for a meeting of the American Dialect Society, which she was asked to attend, of the American Folk-Lore Association and of the National Association of American Professors, now being formed. All these organizations met at about the same date in New York City.

"SEEING NEBRASKA" SHOWN NEXT WEEK

Given For Benefit of Agricultural Society—20,000 Feet of Films Will be Shown at Auditorium

At 7 o'clock on Monday, Tuesday and Wednesday evenings "Seeing Nebraska" will be shown at the Auditorium in 20,000 feet of moving pictures. These films are being shown to the Associated Agricultural Society but everyone is invited to see them. Seats for members of the legislature have been reserved on the floor of the Auditorium, others will be invited to take the balcony.

The films will be of especial interest to the student body. Monday evening a film will be run showing tuberculosis in cattle and hog cholera and a film taken around Seneca showing buttes and sandhills. The University reel will probably be shown Tuesday; Wednesday the whole story of the School of Agriculture will be shown in two reels. Other reels that will be run during the week will be those picturing the apple industry, the horse industry, poultry raising, water power, irrigation, power farming, the beet sugar industry (showing the beet at every stage from its planting to the time it is put on the market), wheat and corn, the state fair, 2,000 feet, showing Beachy's fight, better babies, and others.

These films are run by the State Conservation Commission for the purpose of allowing people to see and know Nebraska. The University is closely connected with this commission which is composed of Governor Morehead, Chancellor Avery, W. R. Mills, A. E. Sheldon and G. E. Condra. There is no question that these films are the best of their kind. Their popularity is shown by the fact that they are in such great demand. Tonight, for instance, 12,000 feet will be shown in Nebraska and 3,000 feet in Minnesota.

GIRLS' BASKETBALL

INTERCLASS GAMES WILL BE
PLAYED LATE IN FEBRUARY

GIRLS ARE PRACTICING DAILY

More Enthusiasm Being Shown Than Ever Before—Girls' Athletics Are Now Assured a Place at Nebraska

At last the date of the girls' interclass basketball tournament has been set and the evening of February 26 will witness the battle for class honors. Never before in the history of Nebraska has so much enthusiasm been in evidence. Dozens of the weaker sex are practicing daily and dieting in order to make the teams, and even the wise and reverend Seniors have deserted their dignity and two whole teams of the learned ones strive daily. This is especially noteworthy, for the girls of the two upper classes are not forced to take gymnasium, and this unusual enthusiasm for the pastimes of their younger days is a thing of their own volition.

Besides the three basketball games, folk dances and duet dances will be introduced as a novelty. Taken all in all, this is going to be the banner day for girls' athletics—a day on which the school as a whole may witness the result of the many mysterious hours spent in the girls' gymnasium. The girls themselves have all the "pep" in the world and intend to put up an exhibition much worth your while, so let's all get together, get up a little of the old ginger, and come out and root for our own class.

ENGLISH CLUB MEETS WITH MISS MITCHELL

First Student Program of the Year Will Be Given Before Club on Saturday Evening

The English Club will meet Saturday night, January 16, at the home of Miss Helene Mitchell, 1606 L street. The program will be furnished by Ernest Graves, W. F. Noble and F. L. Babcock. This is the first student program of the year, and it is urged that as many as possible come to the meeting.

MISS WITTMANN EDITS WORK

Has Study Entitled "Clipped Words" in Last Number of Dialect Notes Published at Harvard

Miss Elizabeth Wittmann, A. M. 1914, has a study entitled "Clipped Words: A Study of Back Formations and Cur-tailments in Present-Day English," in the last number of Dialect Notes, the publication edited at Harvard, of the American Dialect Society.

"AWGWAN" WILL BE DELIVERED TOMORROW

Entitled "The Late Issue" and Seems to Apply—Issue up to Other Former Ones

The "Late Issue" of the Awgwan is out and will be delivered tomorrow. Since the issue is a late issue most of the jokes pertain to late things. The jokes themselves are more or less late for which the staff is to be congratulated. The cover design depicts the vague ramblings of one of the midnight son's return home early in the morning. Another especially clever cartoon is the one entitled "Where's the Guy Who Said 'Better Late Than Never.'" On the whole the Late Issue is fully up to the high standard of workmanship maintained by the Awgwan staff.

KOMENSKY CLUB HAS HELPED BOHEMIANS

Have Raised Sixty Dollars For the Relief of the Suffering Bohemians

The Komensky Club have thus far raised \$60 for the relief of the Bohemians. Half of this amount was sent sometime ago with other funds raised by the Confederation of Komensky Clubs. The club here at Nebraska raised the money by selling "statuettes" of Komensky. Komensky, or in Latin, Cominius, was a great educator. He originated the idea that pictures are a great aid in teaching.

August Molzer has promised the Club his services for a concert about the middle of February. The proceeds of this, with the money already on hand, will be sent to John L. Bouchal, a graduate of Nebraska, '12, now U. S. vice consul at Prague, Bohemia. The need there is very great indeed. At Prague alone, 3,600 soldiers have been made cripples, and nearly every public building has been turned into a hospital. The Club announces its annual dance for February 5.

GIRLS' CLUB COUNCIL HOLD GOOD MEETING

Girls Decide Upon Having Some More Definite Line of Study—Will Work on the Problems at Nebraska

Girls' Club council met Tuesday at 7:15 in the Y. W. C. A. rooms, and from now on this will be the regular time and place for the meetings—the second Tuesday of the month.

Edna Froyd reported on methods in use in other schools. The girls decided that they would do more efficient work if they had some definite line of study. At the next meeting of the council, then, a study will be made of the "problems" here at Nebraska which concern girls.

AMES TEAM IN TOWN

WILL TANGLE WITH THE CORNHUSKERS TONIGHT

NEXT GAME SATURDAY NIGHT

The Nebraska Squad Has Put in a Week of Strenuous Practice and Expects to Regain Some of Its Lost Glory

By H. I. Kyle.
The Ames Aggie basketball team arrived in Lincoln this morning, accompanied by Coach Hubbard. While here they will play two games with the rejuvenated Cornhuskers, who are confident they will open the home season with a pair of wins. The big trouble with the Nebraskans on their recent trip was an inability to shoot baskets, wherefor all the stress of the past week's practice has been on that department of the game, with the result that a great improvement has been noted.

The first meeting of the rival teams will be tonight at eight o'clock, and the second game will be called tomorrow at the same hour. Special bleachers are being erected in the Armory to accommodate the crowd that is expected to take advantage of this first opportunity to see the Cornhuskers in action. Miss Graham has arranged for a special section for the Girls' Club, and we are promised a "scream" in the line of falsetto rooting. During the intermissions the University Band will entertain the fans.

The Aggies took a couple of lickings at the hands of the Kansas Jayhawkers on Friday and Saturday of last week, but the second game went into extra innings before it was decided. The former five is in great condition and a victory over them will mean that the Cornhuskers have staged a successful come-back.

The Nebraska line-up for tonight will probably be Rutherford and Shields, forwards; Myers, center; Captain Hawkins and Hugg, guards.

FRESHMAN LAW CLASS WILL GIVE DANCE

Hop Now Being Planned Instead of Masquerade—Committee Named to Look After Details

The masquerade which was to have been given by the Freshman law class has been changed to a hop, to be given at the Lincoln Hotel about February 15. The committee is as follows: Chairman, Bryson, Flaherty, Rankin, Riddell, and Lahr, with Jack Emley as master of ceremonies. This dance will be given not because of some precedent laid down in ages past, but because of a desire in the class to dance. The dance will be open to all students, but will be limited to one hundred couples.

The Freshman laws deserve a great deal of credit for the spirit they have shown this year. A few days ago they held a smoker at the Lincoln and had a good representation from the class, and a committee has been appointed to hold another in the near future. The committee is as follows: Oberfelder, Young, Fleetwood, Warring, and Penny.
