GEOGRAPHY COURSE

COURSE IN "INDIAN GEOGRAPHY AND INDUSTRY" OFFERED

STUDY OF THE NATIVE TRIBES

Course to Be Given Next Semester by Dr. H. R. Gilmore of the Nebraska State Historical Society

Next semester the Department of Geography will offer a new course which it sets forth as "Indian Geography and Industry." It is a study of the life and activities of the American race as developed previous to the advent of the white man. This study brings out the facts of the material and intellectual culture of the native tribes as influenced by the factors of topography, climate, woodlands and grasslands, and other features of physical environment.

The character and distribution of plant and animal life are important elements of influence on the forms and tendencies of human activities. A comparison is made of the primitive environment of human life on this continent and that on the continent of Europe as means of supplying the requirements of human life; equivalents and deficiencies are noted. For instance, the lack of any beast of burden except the dog is a deficiency of North America which was of the greatest importance as a limitation upon certain lines of progress. Necessarily the development of arts and industries depends much upon the nature of the environment. Specific instances cited in the course bring out this fact.

In the consideration of plants of economic value to the native tribes suggestions occur for acquisitions to our own agriculture and horticulture. Nebraska, no less than classic lands, possesses a body of legends and myths smacking of the soil.

Tribal place names, some of which we have adopted into our own nomenclature and others which might be adopted, have each their story of human interest to tell.

This course will be given by Dr. H. R. Gilmore of the State Historical Society. Dr. Gilmore is recognized as an authority in the study of the Indians' life of the Missouri Valley country. Students in the University of Nebraska are fortunate in having opportunity to take work with him.

MR. HODGDON WILL ADDRESS ROTARY CLUB

Together With Board of Regents and University Building Committee Guests of Rotary Club

Mr. Hodgdon, University Architect, together with the Chancellor and the Board of Regents and the three members of the University building committee, are to be guests of the Rotary Club at their Tuesday dinner at the Lincoln Hotel. Mr. Hodgdon will give an address to the club illustrated by lantern slide views of various University structures. The Rotary Club has issued a notice to all guests to the effect that there will be "some doings" at the Rotary Club dinner, Tuesday, January 19.

FRESHMEN TO GIVE

BIG CLASS MIXER

Something new and different is about to be sprung by the Freshman class. An all-Freshman mixer will be given by the Freshman class in the Armory on the night of February 6. The following committee has been appointed and will meet in "U" 102 today at 11:00 o'clock. (Signed) Eugene Moore, Victor Johnson, Edna Coffee, Maurea Hendee, Harold Landeryou, Don Montgomery, Harriet Ramey, Helen Sorenson.

DAIRY CLUB HAVE ORGANIZED SOCIETY

Twenty Live Students Majoring in Dairy Husbandry Meet at Professor Frandsen's

At the call of a student committee, some twenty live students majoring in dairy husbandry gathered at the home of Prof. J. H. Frandsen a few evenings ago. The assembled students discussed the advisability of forming a dairy club. As the unanimous opinion favored the formation of such a club, Mr. E. G. Maxwell was selected as temporary chairman; Mr. F. W. Gentleman was chosen to act as secretary. The usual formalities of organization were assigned to various committees.

The main purpose of the club will be to bring the men trained in the various lines of dairying together that they may be mutually benefited. The topics which the club will discuss are those which do not fit well into classroom routine, but which still are of general and vital interest to the dairyman and the public which consumes dairy products. With this apparent specialization as its main idea, the club will not forget that it is an integral part of the College of Agriculture and the University of Nebraska. With this in view, the club will set forth at its inception the idea that it will be a factor in making a greater and more wholesome Nebraska spirit.

The club wishes to thank Professor and Mrs. Frandsen for the hospitality they have extended to the new club.

ENGINEERS WILL HEAR MR. BUDGE

Mr. Guy G. Budge From Chicago Will Give Illustrated Lecture Before the Engineering Society

The Engineering Society of the University of Nebraska is pleased to announce that they have succeeded in obtaining Mr. Guy G. Budge of Chicago to give an illustrated lecture on the subject "Bituminous and Warrenite Pavement Construction" on Wednesday, January 20. The lecture will be illustrated by lantern slides and motion pictures, showing cross-sections of pavements, paving plants in operation, process of laying mixture for wearing surfaces, and views of complete streets and highways to demonstrate variety of traffic and climatic conditions successfully met by proper construction methods.

This is to be a popular lecture and the meeting is open to the public. Discussions on subjects relating to the lecture will be in order at the close of the lecture. This lecture will be both interesting and instructive and it is hoped that everybody interested in pavements will come.

The meeting will be held in the Mechanical Engineering Building on the University campus at 8:00 o'clock Wednesday evening.

NEW REGISTRATION

ASSIGNMENT AND REGISTRATION TICKETS SECURED TOMORROW

APPLY AT REGISTRAR'S OFFICE

Examination Schedules Will Be Out Today—Classes Follow First Semester's Generally

Assignment and registration tickets may be obtained tomorrow by applying at the Registrar's office. Those who come early will be able to get their choice of registration hours, which in some cases may mean their choice of class hours.

The examination schedules will be available today. Every student must secure a copy of this schedule in order that he may know at what hours his examinations come. The class schedules will be ready for distribution Thursday. The classes will be, in general, a continuation of this semester's work, although many of the elementary courses now being given will be repeated.

The following has been sent by the Registrar to every student:

1. Registration for the second semester of the current year holds from 9:00 a. m., Wednesday, January 27, to 5 p. m., Saturday, January 30, inclusive.

2. In order to register all students are required, in advance of the regular registration days, to secure a numbered ticket to meet the committee on assignment to classes and to register.

3. These tickets are impartially distributed at the Registrar's office without reference to college or class, beginning Wednesday, January 20, and are so given out as not to conflict with examinations.

4. Before calling for assignment and registration ticket each student is asked to consult the examination schedule for two one-hour periods in succession, in the first of which he may be free, without conflict, to meet the committee on assignment to classes and to register.

5. Each ticket entitles the holder to prompt attention during the hour and day of registration week named thereon. Thus the number to be accommodated during a given period is limited.

6. Our aim is to avoid congestion at the opening of the semester. Each student is therefore requested to secure his ticket early. In order to meet promptly the hours named for assignment to classes for registration each student should consult his assigned adviser previously in his department office—if possible the week before registration. Registration blanks are sent directly to the respective advisers. "Adult Special" students in any college consult the dean of the college.

7. The student's registration slip of the first semester showing courses and (Continued on page 2.)

CLUB MEETING POSTPONED

Scandinavian Club Postponed From Last Saturday Till the Last Saturday in the Month

The meeting of the Scandinavian Club, which was to have been held last Saturday evening, has been postponed to the last Saturday of the month. At this time there will be an election of officers. Professor Alexis will give an illustrated lecture on his travels through Sweden and Norway.

GERMAN DRAMATIC CLUB HAVE BANQUET

Forty-Five Members Met at Lincoln Hotel Saturday Night for the Annual Banquet

Forty-five members of the German Dramatic Club met in the Garden room of the Lincoln Hotel last Saturday night for their annual banquet. The table was decorated with smilax and red carnations, and the toast list was printed on unique cards. Edward Huwaldt, '13, who has been teaching in Grand Island, was toastmaster, coming to Lincoln especially for the play and the banquet. The following toasts were responded to:

"Lights," Ernest Dale.
"Properties," Elizabeth Wittmann.
"Make-up," Ottomar Strieter.
"Cues," Magdelline Craft.
"Supes," Theodore Frank.
"Stars," Winnifred Seeger.
"Curtain Calls," Herr Wedeking.

Professor Grumann and Professor Fossler gave impromptu speeches when called on.

Senior Prom

Ninety-five tickets, inclusive of all complimentary, have been validated for the Senior Prom to be held in the Lincoln Hotel, February 6, 1915. No more tickets will be validated for this dance. The complimentary list will be printed in a later issue of the Nebraskan.

T. A. WILLIAMS,
Agent Student Activities.

INTERESTING PICTURES TO BE SHOWN TONIGHT

There Will Be No Charge for Admission—Pictures to Deal With Many Subjects

Today the city of Lincoln is the meeting place of a great number of agricultural organizations, which have come together, as they do once a year, to discuss plans for agricultural advancement in Nebraska.

Of special interest to us in this connection is the series of films which will be shown by Doctor Condra in the City Auditorium tonight at 7:30 o'clock. The first film is to be upon irrigation; the second and third films were taken at the State Fair last fall, and will include Beachey's flight and many other things of interest. Film number four will show the modern methods of handling wheat and corn from the time of planting to the harvest. The process of canning corn is also shown. The fifth film shows poultry of all kinds, and practically everything in connection with the handling and marketing of them.

There will be no charge for admission, but students of the University are asked to take seats in the balcony as the first floor is reserved for members of the legislature.

MEETING OF BOARD

1915 FOOTBALL SCHEDULE IS APPROVED

WASHBURN GAME NOT SURE

Ichabod Authorities Have Not Yet Accepted Nebraska's Offer for a Game on October 16—Other Matters Discussed

By H. I. Kyle.

The University Athletic Board met yesterday and affirmed the football schedule for 1915 as arranged by Coach Stiehm and Manager Reed. The schedule is now complete except the game for October 16. That date was offered to Washburn some time ago, but no word regarding the offer has, as yet, been received from the Ichabod authorities. Coach Stiehm wired to Topeka yesterday to learn the cause of Washburn's silence, but had received no answer at a late hour last night.

The schedule as it now stands is as follows:

Oct. 2—Drake at Lincoln.
Oct. 9—Kansas Aggies at Lincoln.
Oct. 16—Washburn at Lincoln. (?)
Oct. 23—Notre Dame at Lincoln.
Oct. 30—Ames at Ames.
Nov. 6—Wesleyan at Lincoln.
Nov. 13—Kansas at Lawrence.
Nov. 20—Iowa at Lincoln.

The 1915 basketball and track schedules, as published in a recent issue of the Nebraskan, were also affirmed by the Athletic Board, and Mr. "Augie" Smith was appointed coach for the freshman basketball squad. The Western Gymnastic Association meet, which will be held at Lincoln late in February, was also discussed, and means of entertaining the visiting athletes considered.

Iowa State and Ames will compete in military drill in the near future. A company of 100 picked men from Ames will compete with the same number of Iowa cadets. Considerable enthusiasm has been worked up at both institutions over the prospect.

The cadet band of the University of Minnesota may go to the Panama Exposition. Committees are working on a plan whereby each cadet will pay down \$25 toward his expenses; the rest will be made up by contributions from alumni and business men. A definite campaign will soon be decided on.

SOCIAL SERVICE CLUB WILL SERVE TEA

Followed by the Regular Vesper Services—Will Be an Informal Gathering

The social service committee will serve tea in the Y. W. C. A. rooms today from 4 to p. m. All University girls are urged to come, particularly so if interested in Eight Weeks Clubs. The girls on the committee are anxious to talk over the plans for the summer.

Following this informal gathering the regular vesper service will be held. Miss Edith Lathrop of the State Department of Education will speak of the social needs of the girls in the country and the small towns.
