CIGARETTES

With all due respect to the men who make a practice of smoking cigarettes at University dances there is good ground to question whether such actions are becoming to a gentleman. We do not care to enter into a discussion of the right or wrong of cigarette smoking, but we believe that the strongest defender of cigarettes will agree that there are times and occasions when it is out of place to smoke them. We submit that University dances is one place that they are out of place. They tend to create the atmosphere of the cheap dance hall. Without casting any reflection on those places, certainly few University gentlemen care to have their lady friend spend an evening in such an atmosphere. The man who out of regard for his company refrains from doing a thing that may be somewhat questionable isn't a "sissy." What think you?

Texas Daily Loses Money

Austin, Tex.—Owing to the business depression, which affected the securing of advertising, the students assembly of the University of Texas, which has charge of the publication of the Daily Texan, has found it necessary to reduce the size of the paper from six to five columns. It was found after an investigation of the business affairs of the Texan that it would be impossible to continue the paper of six columns unless a heavy debt was incurred.

SCIENCE BUILDING TO BE ERECTED SOON

Plans For New Buildings Now With Draftsmen—Ag Building to be Started This Coming Spring

The new buildings which are to be constructed within the next few years, have already been figured on and the plans are now in the hands of the draftsmen. Probably the first of these buildings to be constructed will be the chemistry and biological science buildings. A large recitation building is very badly needed and will be among the first to be erected. In speaking to Dean Engberg, he stated that he would like to see a gymnasium among the new buildings because of the great need we have for a new gym. Some of these buildings may be started this summer but it will be at least two years before the completion of them can be expected. An agriculture engineering building is to be started this spring, at the farm.

LEFT in U. 207, Tuesday at 5 o'clock, leather-backed note-book containing physics and French notes. Return to Ruth O'Brien, Chemistry building, room 6, or phone L-5376. 86-86-57

MEET DRAKE TONIGHT

(Continued from page one.)

the reputation of putting up the hardest fight against the Huskers of any team on the schedule, in basketball as well as in football.

The Wesleyan Coyotes, who have a return engagement with the Cornhuskers February 27th, are quietly going about the task of planning their revenge. Between now and the Nebraska game Wesleyan has two hard contests, one of them next Friday night with Grinnell College at Grinnell. Whatever the outcome of the two intervening struggles, Wesleyan is determined to defeat the Huskers and thus even up the series. The game will be played here in Lincoln, and will decide the intercollegiate championship of the state. Should Wesleyan win, it is probable that a third game will be played.

BILLBOARD LOCATION CAUSES DISCUSSION

Students Have Lengthy Argument Concerning the Motive That Was Back of Deed

Why was the University bill board placed in front of Administration Hall? This high and mighty question was topic of a highly instructive discussion by a body of the more philosophical students of this school last evening. The general opinion seems to be that the board was placed there so that the University bill poster might not have to go so far in order to post the notices. Some however, did not accuse that august person of being so inexcusably lazy but thought that since, as every one knows, the construction of the board is not in any way artistic, and since a bill board is an unavoidable evil, the esthetic nature of the board of regents prompted them to have it placed in a place as inconspicuous as possible. Still others thought that it was placed there as a sort of safety first appliance for if any one should slip on the ice on the north side of the walk the board would keep them from sliding clear across the campus and thus save many "bargain-sale" suits and perhaps even lives. One lonely wretch was convinced that it ought to exchange places with the weather bureau bulletin board since a greater number of people desire to know what is going to happen next than to notice how many days of the week the thermometer quits registering. This crazy notion was of course laughed out of countenance and the meeting adjourned to the Baltimore.

DRAMATIC CLUB PLAY "MONSIEUR BEUCAIR"

Second Annual Play to be Given Soon By Able Cast Under Direction of Miss Alice Howell

In the near future the Dramatic Club will offer a treat to the public in the form of its second bi-annual play. "Monsieur Beaucair" has been selected as the play to be given. As might be judged from the name, the play is laid in France and depicts court life. It is a dramatization of one of Booth Tarkington's most popular novels.

The cast has been selected and is practicing hard under the direction of Miss Alice Howell, club president and director. The Dramatic Club plays are always exceptional productions and although it is a bit early to give complete particulars, everyone should be thinking about the play and plan to attend.

Minnesota University Adopts Honor System

Final examinations for the first semester at the University of Minnesota were conducted under the newly instituted honor system. Professors did not remain in the classrooms for the purpose of watching students. The honor system was formally adopted this month by the academic councils for men and women.
