PRICE 5 CENTS.

CHARTER DAY PLAN

ATHLETIC CONTESTS AND DANCING ARE ON SCHEDULE

MIXER PARTY IN AFTERNOON

Large Reception Committee Has Been Named to Have Charge of Afternoon's Party—Will Be Held in Armory

Another Mixer will be held in the Armory on Charter Day. Unlike the time of the previous parties, it will be held in the afternoon. Besides a track meet there will be dancing and other amusements so that all may take part.

Following are the members of the Charter Day Mixer Reception Committee:

Verna Anderson
Ethel Arnold
Dorsey Baird
Lorena Bixby
Evelyn Black
Cecil Bordner
Dave Bowman
Louise Brownell
J. B. Burnett
Roy Cameron
Russell Clark
Edna Coffee
Sara Cole
Cordelia Condra
Isabel Coons
Albert Covert
Kenneth Craig
Cornelia Crittenden
Bertha Driftmeier
Dorothy Ellsworth
J. M. Elwell
Winnifred Estes
Glenn Everts
Marguerite Farley
Jeanette Finney
Eleanor Frampton
Irving Frost
Edna Froyd
Harry Gayer
Vincent George
Marjorie Green
Howard Hadley
Robertson Harley
Roy Harney
Charles Hauptman
Earl Hawkins
Harvey Hess
Walter Hixenbaugh
Ernest Hoppe
Warren Howard
Freida Isenburg
Irene Johnson
Marion Kastle
Marguerite Kauffman
Leslie Kizer
Dick Koupal
C. L. Krause
Gladys Lowenburg
Constance Lyford
Fanny Malzacher
Don Mapes
Gertrude McCandless
Phil McCullough
Eva Miller
Glenn Moseley
Clara Newmyer
James Notestein
Barlowe Nye
Brian O'Brian
George Odgers
Reed O'Hanlon
Mae Parkinson
Edna Pegler
Harriet Ramey
Edith Robbins
Gertrude Scribner
Oscar Sjogren
Ruth Smith
Caryl Spaulding

(Continued on page 2.)

Home Mulched vs. Northern Seed Potatoes

Bulletin No. 146, entitled "Home Mulched vs. Northern Seed Potatoes for Eastern Nebraska," has just been issued by the Nebraska Experiment Station. It shows that with proper care if a litter mulch is spread over the potato plot in eastern Nebraska the tubers so produced are the equal for seed purposes of northern seed potatoes.

This bulletin may be had free of cost by residents of Nebraska upon application to the Nebraska Agricultural Experiment Station, Lincoln. E. A. Burnett, Director.

TWENTY-ONE MEDALS FOR CHARTER DAY PRIZES

Medals Are on Exhibition in Front of Administration Building—University Seal on Each Medal

Twenty-one beautiful medals, seven gold, seven silver, seven bronze, and rae adding fuel to the Charter Day contests. They are very appropriate medals and anyone might well be proud to wear one. Each medal contains the University seal and the inscription "Charter Day" on it.

The medals have been placed on exhibition in front of the Administration building in order to convince the participants and the public that the talk about the medals is not mere fiction. It seems that one year medals were promised to the successful athletes but a rather slim treasury prevented the carrying out of the promise. This year, however, the managers are suffering from no such said ailment so those who are successful in the big Charter Day events will be rewarded for their efforts by bona fide medals. The management hope that the medals will bring out a large contingent of athletes. "The more the merrier" is the slogan.

Wesleyan Wins Two

Pella, Ia., Feb. 9.—Nebraska Wesleyan University has won the first two games of its Iowa tour, the first from Simpson College at Indianapolis last night, by a score of 19 to 17 in a close, tight game, and again tonight from the Pella Tigers by a score of 37 to 30. The gymnasium here was small and playing under A. A. U. rules, the Wesleyans were at a disadvantage.

CRITICAL CONDITION OF DEAN BESSEY

Botany Professor of International Reputation Failing Rapidly

Dr. Charles E. Bessey, professor at the University of Nebraska and head of the botany department, was reported to be 25 per cent weaker last evening. He is still getting weaker and his condition has become critical. His two sons, Ernest E. Bessey, professor of botany at the Michigan Agricultural School, and Carl Bessey of Chicago are at their father's bedside.

Doctor Bessey is one of the best known professors of botany in America. He has probably trained more scholars of botany that are now holding professorships and other very prominent places in the botany world than any other botany professor in this country. He has collected one of the greatest herbariums in the world and has written many books on botanical subjects.

CHEMISTRY TALKS

SECOND OF LECTURES GIVEN TO LARGE AUDIENCE

PROFESSOR MARTIN FISHER

The Subject of Address Was "Water Absorption by Individual Cells and Tissues"

Yesterday afternoon Prof. Martin H. Fischer of the University of Cincinnati gave the second one of his series of lectures on colloid chemistry in the service of biology and medicine. The title of this lecture was "Water Absorption by Individual Cells and Tissues" and "Edema." The doctor's fame had preceded him and a crowd of over one hundred and fifty students and professional men crowded into Chemistry Hall to hear him.

Doctor Fischer is a pleasing and rapid talker. He was brought to Lincoln under the auspices of the Lincoln Commercial Club and of the Lancaster County Medical Society. And what one student was heard to say of him, that "he looked like an automobile salesman and talks like a German text book," is true.

The doctor performed a number of experiments illustrating the theories common to colloidal chemistry. He

Be sure to hear the

at convocation this morning
SPECIAL MUSIC
The best talent in the state
COME

explained the nature and cause of Edema and its effects on special organs. Frogs were shown which had been killed by poison and the effects of various acids and alkalies on the body tissues.

Doctor Fischer will speak this afternoon at four-thirty along the following lines:

- On the Nature and Cause of Nephritis
1. Classification of the Nephritides.
 2. Albuminuria.
 3. The Morphological Changes in the Kidney.
 4. The Nature of Cloudy Swelling.
 5. On the Origin of Casts.
 6. The Nature of Diapedesis.
 7. On Edema, Uremia, etc., as the Alleged Consequences of Kidney Disease.
 8. The Disturbances in Secretion in Nephritis.

This will be the fourth and next to the last lecture which Doctor Martin will give in Lincoln. His lectures have all been very well attended. The last lecture will be given tomorrow at eight o'clock. Everyone is cordially invited to attend these lectures.

Miss Pound Honored

Miss Louise Pound of the University of Nebraska has been elected president of Eta Province of Kappa Kappa Gamma, but has not decided whether she will accept the office. Eta Province comprises the Universities of Colorado, Missouri, Nebraska, Kansas, and Iowa.

Uni Band Recital at Five O'Clock

This afternoon at 5 o'clock the University band will give a recital in the Temple theatre. Through a mistake the time was announced in a recent issue of The Daily Nebraskan as 8 o'clock so everyone please take note of the correction. These recitals will be of weekly occurrence after this and are open to the public and free.

Following is the program for this afternoon:

Adele Briquet
High Jinks Friml
Blue Danube Strauss
Polish Dance, No. 1 Scharwenka

KOSMET ORCHESTRA MAKES APPEARANCE

Orchestra Is Entirely Composed of University Men—Show Begins to Look Like Finished Product

Last night the Kosmet Klub orchestra made its first appearance at the regular rehearsal. This orchestra is composed entirely of University men and will undoubtedly become a permanent feature of this truly representative University show. It is surprising that there is so much talent in the student body that is only brought to light when some organization such as the Kosmet Klub provides the impetus.

The rehearsal last night was exceedingly encouraging and the show is beginning to look like a finished production. The rumor that the show was to be taken out of Lincoln is as yet uncertain, the club waiting to see how well the students will support their own production. This is proving an added stimulus to the cast and all that will be needed to make "The Easy Mark" a great success is a large and enthusiastic audience. The date is February 19th, and the seats go on sale February 15th.

Freshman Law Hop

Ninety tickets have been validated for the Freshman Law Hop, to be held in Rosewild Hall, February 13, 1915. No more tickets will be validated for this hop. This number does not include the complimentary tickets, a list of which will appear in a later issue of the Daily Nebraskan.

T. A. WILLIAMS,
Agent Student Activities.

GIRLS BASKET BALL TOURNAMENT SOON

Outcome of Class Games is Issue of Vital Importance to Players—Each Confident of Victory

"Who is going to win the class basketball tournament," is getting to be a real live issue among the girls. The Freshmen have all that first best energy of youth which they expect to carry them on to success. The Sophomores look confidently over the thirty strong contestants for their team and decide it will be "easy money" for them. The Juniors reflect on their two successive championships and expect another while the Seniors with four years experience claim the victory is already won. Much excitement and lengthy debate proves that the date of the tournament is not far off. At present no hair pullings or hatpin fights have been reported but the smoke of battle is in the air while all four classes wait expectantly for the victory.

UNI EXTENSION WEEK

SPRING VACATION IS THE TIME CHOSEN

INNOCENTS ARE BEHIND PLAN

Idea Is to Send Out Various University Organizations to Give Entertainment

Last night, at a meeting of the Innocents, it was decided to have a University Extension Week. Last year several meetings were held by students interested in this line of work, but nothing definitely could be decided upon. The matter was left in the hands of Phi Alpha Tau. This organization drafted a petition which was to have been presented to the Board of Regents for their approval, but for some reason was never presented. There is a University ruling to the effect that students shall not leave the University during the school year upon missions of this kind, and this petition was intended to avoid the ruling.

Chancellor Avery and Dean Engberg met with the Innocents and decided that the above ruling did not apply to the time during the spring vacation and that it would be entirely proper for the students to go out in the state during that time. It is planned to send the Glee Club, Band, Debating Team, Dramatic Club, Kosmet Klub play, and a gymnasium team out on a week's trip. They will visit many of the larger towns of the state.

Their different lines of entertainment will present to the people of the state the class of work which is being done at their University and incidentally keep their interest centered upon Nebraska instead of on some other institution.

The coach of Minnesota's debating team, while at Nebraska for their annual defeat last year, explained to the members of Phi Alpha Tau the workings of the system at the University of Minnesota. He explained that the people of his state looked forward to the spring when the students would start on their trip. A special car was chartered and carried the students from town to town as their schedule called for. He said that much of the interest of Minnesota's alumni was caused by these annual trips.

Phi Alpha Tau, while it has turned the work over to the Innocent organization, nevertheless will work in conjunction with this society. It is planned to have each group of students go to a different town and in this manner much of the state will be visited. The plan presents an ideal trip for those students fortunate enough to be able to make the different stunts, and the movement will certainly do a world of good for the University.

The Daily Nebraskan invites the students to voice their sentiments as to University Extension. Any articles addressed to "The Forum" will be published.

A senior at the University of Texas appeared on the campus last Wednesday without the symbolical cane which the class has decreed he shall wear. Upon being discovered he escaped with his life, but not until he had been basted over the back some sundry times by the administrators of senior justice.
