MEANING OF WAR (Continued from page 1)

help bring this about the universities should mould the character of the students so that when they get into political life they can exert their influence in favor of the things for which Christianity stands.

World peace has not been realized, not because Christianity has failed to offer a solution for the problem of war but because of the failure of nations to embrace the principles of Christianity when dealing with each other. In conclusion the speaker strongly urged University men to incorporate their religion into their everyday life. By doing so he said the trend of public opinion would gradually turn more to the principles of truth and justice, and this in turn would lead toward the abolishment of war.
