

The Daily Nebraskan

VOL. XV. NO. 21.

UNIVERSITY OF NEBRASKA, LINCOLN, WEDNESDAY, OCTOBER 13, 1915.

PRICE 5 CENTS.

NEW OFFICERS APPOINTED TODAY

GENERAL ORDERS NO. 2 GIVES LIST OF PROMOTIONS

P. M. WICKSTRUM LIQUET—COL.

Two New Captains Appointed—Some First Year Corporals in the List Promotions to Take Effect at Once

General Orders, No. 2, of the Military department, give the following list of promotions and assignments: To be Lieutenant Colonel—

P. M. Wickstrum.

To be Captains—

A. L. Burnham, to Co. B.

M. H. Schlesinger, first lieutenant Co. G. to Co. C.

To be First Lieutenants—

W. K. Snyder, to Co. K.

G. E. Miller, to Co. F.

B. Nye, to Co. G.

I. D. Beynon, to Co. M.

To be Regimental Sergeant—

Major R. Bractley.

To be Battalion Sergeant—

Major G. E. Cotler.

To be Regimental Color Sergeant—

J. B. Stoddard.

To be Corporals in Adjutant's Dept—

E. M. Weaver.

J. B. Worley.

To be Corporals in Quartermaster's Dept—

F. C. Clark.

To be First Sergeant—

J. D. D. Marcellus, to Co. C.

C. M. Frey, Co. A., to Co. F.

To be Sergeants—

H. E. Gentry, to Co. E.

Kieth Grove, to Co. I.

E. F. Borchert, to Co. B.

Karl J. Berglum, to Co. E.

To be Corporals, Co. A—

E. E. Onger.

V. C. Graham.

A. Scheibel.

To be Corporals, Co. B—

C. A. Scheibel.

S. H. Brown.

To be Corporals, Co. C—

G. W. DeLord.

I. I. Doty.

To be Corporal, Co. D—

H. M. Hall.

To be Corporals, Co. E—

W. D. Bryans.

W. C. Johnson.

To be Corporals, Co. F—

W. A. Johnson.

Chas. E. Peterson.

H. Schlarter.

To be Corporal, Co. G—

J. W. Seacrest.

To be Corporal, Co. H—

J. B. Eyerly.

New Welding Machine

A new oxy-acetylene welding machine has been installed in the forge-room of the M. E. building. The machine is used for welding and cutting steel. In principle it is the same as the oxy-hydrogen blowpipe, but gives a much hotter flame. Oxygen and acetylene are led from separate tanks to the burner and unite, giving a flame of double the heat of molten iron. The machine cuts a half-inch bar of steel almost as fast as it can be moved across its surface. Welding is done without heating the iron except where the metals overlap.

Mr. Grennan, who has charge of the forge-room, explained that the machine is used only for laboratory purposes here, but is becoming generally used throughout the state.

COPS FOR FOOTBALL GAMES

A Rooters' Section to Be Reserved—Red or White Caps to Cost 20 Cents Apiece

* BIG ROOTERS' SECTION *
* for *
* Notre Dame Game *
* Get Reserved Seats Early *
* Block "N." Section E *
* on the 50-yard Line *
* Get Caps with Reserved Seat *
* Tickets *

Only those wearing red or white caps will be admitted to this section. These can be bought when the seats are reserved, at 20 cents each. The same "N" block will be used for the Iowa game also, and those having caps for the Notre Dame game can reserve the same seats for the Iowa game by presenting the stubs. Red and white megaphones can be gotten at the game.

Tennis Finals Postponed

The Tennis tournament finals, which were to have been played yesterday, were postponed because of rain. Playing will be resumed again this afternoon if the weather permits.

If the games cannot be played this afternoon, they will be finished the first afternoon that the courts are in condition for play.

PATRONS FOR SECOND MIXER

University Professors Support the Event—Reception Committee Announced

The following patrons and patronesses are announced for the all-University Mixer this Friday:

Lieut. and Mrs. Parker.
Dean and Mrs. O. V. P. Stout.
Prof. and Mrs. Walter L. Pope.
Dr. and Mrs. George E. Condra.
Prof. and Mrs. George A. Stephens.
Prof. and Mrs. Howard Caldwell.
Prof. and Mrs. G. O. Virtue.
Prof. and Mrs. Raymond Pool.

The following compose the reception committee:

Edna Froyd.
Vida Reckmeyer.
Ruth Beecher.
Blanche Busk.
Camille Leyda.
Dora Christianson.
Vivian Holland.
Helen Miller.
Mabel Thompson.
Irene De Maranville.
Dorothy Carna.
Marion Kastie.
Marjory Green.
Fanny Malzacher.
Ruth Bridenbaugh.
Mildred Peery.
Dave Bowman.
John Miller.
Ray Doyle.
Spray Gardner.
A. W. Ackerman.
L. E. Norris.
J. H. Pierce.
J. E. Lanz.
O. E. Hall.
B. S. Spieth.
W. K. Snyder.
W. E. Hager.
W. F. Urbach.

STUDENTS SEE ENGINEER'S WORK

VISITS ARE CONDUCTED INTO VARIOUS LABORATORIES

DEAN STOUT GIVES ADDRESS

Head-Work and Resourcefulness of a Successful Engineer Emphasized—Testing Machines Inspected

That the engineer must be as proficient with his brains as with his hands, if not more so, was the point emphasized by the different professors of the Engineering department at convocation yesterday—the second of the "Know the University" series of convocations—held in the different buildings.

Dean O. V. P. Stout first addressed the students in Mechanical Engineering hall, voicing the complaint of the Engineers that they are "not known as they think they ought to be." People hold the erroneous idea that the Engineering profession is one which requires a great deal of muscle and a comparatively small amount of brain. If the Engineering students are doing their work right, their heads are busier than their hands. The Engineering student is ahead of the art student in some respects, when he gets out in the world of material things.

The professors of the various departments then took charge of the students and explained the nature of the work in these departments. Prof. C. L. Dean explained the work in the power laboratories. He emphasized the necessity of head-work and resourcefulness. Prof. O. J. Ferguson described the nature of the work in the electrical laboratories. Here the ability to think and observe correctly was considered the prime fundamental. In such a laboratory there is no room for a student who comes only with his hands and a small amount of brain power.

Prof. G. R. Chatburn and Prof. C. E. Mickey conducted the students through the material testing laboratories. The students saw the various machines for testing the strength of different materials, such as masonry, iron and steel.

Shears Gone; Reward Offered

Some evil-doer, some miscreant, some petty individual with a brain like a paper wad, has ventured into the office of this flourishing little daily within the last twenty-four hours and when that individual left a valuable asset to this office left also; namely, a pair fine shears. Yea, they were good shears, and one of the few things about this establishment that were always in the best of working order. Our managing editor isn't going to make the usual announcement that the thief is known and therefore had best return the lost goods to avoid further trouble. No sir; he says that he is sure he doesn't even know anyone with a character so vile. However, the staff of this paper is inclined to be considerate if only those paper cutters are returned. Incidentally, we wish to mention that a slight reward, to show appreciation, will be given for the arrest and conviction of the light-fingered personage.

WOMEN'S SWIMMING CLASS

Sixty Must Register to Insure the Class—Tickets at Miss Gittings' Office

The women's athletic authorities at the University have made arrangements for a swimming class for University women. Sixty girls will have to register for the work to insure the class, which will be held at the city Y. M. C. A. pool, from 10 to 1 o'clock on Tuesdays. Tickets for the first semester will cost two dollars, and must be purchased before October 21, at Miss Gittings' office.

Phi Delta Phi Pledges

The legal fraternity of Phi Delta Phi announces the pledging of the following:

George Irwin, '16.
Russel Israel, '16.
Irwin Morris, '16.
Taylor Withrow, '16.
James Britton, '17.
Loren Caley, '17.
Henry Campbell, '17.
Joseph Flaherty, '17.
Roy Harney, '17.
Cecil Laverty, '17.
Ralph Lahr, '17.
Walter Reacke, '17.
Otto Zumwinkle, '17.
August Krebs, '18.
Raleigh LeBas, '18.
Harley Nelson, '18.
Thomas Reese, '18.
Harold Schwab, '18.
James Kinsinger, '18.

Mr. H. G. Tanner, fellow in chemistry, Ottawa university, Ottawa, Kan., is taking graduate work here and assisting in the laboratories.

THE SYMPHONY CONVOCATION

Series Begins Tomorrow—Preparation Being Made for the May Festival

The first symphony program at convocation, tomorrow, begins a series of entertainments more varied than those of last year. Overtures and symphonic poems will be played as well as symphonies by Mrs. Carrie B. Raymond and the stringed quartet.

Tomorrow's program is:
Overture to Der Freischutz....Weber
Overture to Marriage of Figaro...

.....Mozart
Egmont Overture.....Beethoven

The members of the quartet are:
Edward J. Walt.....First Violin
Mrs. August Molzer....Second Violin
Mr. William T. Quick.....Viola
Miss Lillian Eiche.....Cello

A week from tomorrow Beethoven's 8th Symphony will be given. Dr. W. F. Dann will play the first movements of this symphony, Saturday at 5 o'clock in Art hall, for those who wish to become better acquainted with it before it is given at convocation.

This whole series of convocations is intended as a preparation for the third May festival with the Damrosch orchestra in the spring.

President Angle, of the Sophomore class, has appointed the following men on the Olympic committee:

Lloyd Tully, chairman.
Chester Thompson.
George Melby.
Worth Minnick.
E. Floyd Reed.
Dave T. Ford.
Addison Doling.
James G. Young.
Ernest Lunn.

ONE WHALE OF A TEAM, SAYS COACH

NOTRE DAME IS HEAVY, AGGRESSIVE AND EXPERIENCED

SEVEN VETERANS IN LINE-UP

Some of Them Members of Famous 1913 Eleven—Freshmen Rehearsing Hoosier Plays—Varsity Holds Pepful Practice

Coach Hoeffel has two observations to make relative to his recent sight-seeing trip to the Hoosier county. First, he assures us that the good old English way of saying "Notre Dame" is correct, and incidentally he also remarks that the South Bend school has "one whale of a team."

A glance at the average weight of the Catholic footballers would lead one to believe that the assistant coach makes this observation literally. Four of their men weigh 200 pounds of better, with probably not as many as four weighing under 180. And there are other attributes which place the Notre Dame team in the whale column. Seven of them were in last year's lineup, and two or three can look back on the days when the Catholic school taught the East how to play football.

Coach Warns Rooters.

The looked-for declaration from headquarters has come. Coach Stiehm has sounded the klaxon in warning of the danger which may result from the over-confident attitude of Husker rooters. He fears that the team itself may imbibe too freely of this optimistic view with disastrous results, and declares that fans should wait until Nebraska has achieved a victory over a team of equal strength before they become so sanguine.

Freshies as Notre Dame

Freshman Coach Rately and Assistant Coach Hoeffel, who have both seen the Catholics in action, are drilling the Freshmen in Notre Dame formations, to be used against the varsity in scrimmage. The coaches were impressed with the versatility of the Hoosier attack, even as meagre as were the chances afforded in an early season game to see any choice formations. From the tactics being adopted by the Freshmen, it seems that the Catholics are using a shift similar to the famous Minnesota shift, which used to send shivers to Husker hearts. A series of line bucks, forward flips and end around plays are worked from this formation.

Varsity in Pepful Scrimmage

The first and second teams waged a spirited scrimmage at Capital Beach yesterday afternoon, which pleased the mentor immensely. The defensive work of Doyle, the open-field running of Caley, and the off-end dashes of Reese featured.

Y. W. C. A. Vesper Service

The Y. W. C. A. vesper service held yesterday was a very successful meeting. The girls gathered around the fireplace, where wood and kinnikinnick were popping, sputtering, and at last burning. Mrs. Evangeline Long Pope sang "The Pine." Jeannette Finney on the "Meetings of Estes Park;" Gertrude De Sautelle on "Recreation;" Harriet Ramey on "The Place," and Doris Slater on "The Girls," gave a vivid picture of the conference at Estes park.
