Entered at the postoffice at Lincoln, Nebraska, as second-class mail matter, under the act of Congress of March 3, 1879.

MONDAY, OCTOBER 18, 1915.

Well, that's the third scalp.

GIVING

We are told to learn to give while we are young. As a reminder we may suggest that there are various ways of giving. Money is not all there is in the world. If the shoe fits, wear it.

Football games and picnics were scheduled—and then it rained.

NAMES FOR BUILDINGS

Many names have been suggested for the various new buildings to be placed upon the extended University campus. Some have suggested the names of living professors, others those of deceased members of the faculty—in passing it might be stated that Chancellor Avery's article on "Bessey Hall," appearing in this issue, thoroughly answers that question in the second paragraph.

Excessive speed is going faster than any sensible fellow wants to ride.

THE "MIXER"

Rain or shine, it seems that the "Mixers" can be nothing but a real success. Even the drinking fountains in Memorial Hall were in excellent working condition last Friday night, but the electric fans are still to be placed. Must the student body send special representatives to the authorities in order to arrange for a better air circulation in Memorial Hall during the "Mixers?"

"Punch" is just plain, every-day "Horse-sense" with a "kick" in it.

Kelley couldn't locate his man, so he went through the line himself.

PLANS OF BESSEY

HALL DESCRIBED

(Continued from page 1.)

be utilized for lockers, toilet rooms, store rooms, constant temperature rooms and other features of a modern laboratory of natural science. The entire space of the building will be divided almost equally between the departments of Botany and Zoology. Commodious offices and a number of special rooms for the use and comfort of the occupants will be provided. The building will be 235 feet long and 75 feet wide in its widest part. The center of the building facing south will open upon the space reserved for greenhouses. The building itself is to be of brick, hard burnt, of a reddish brown color, selected with a certain roughness and bloom on the surface. The mortar

joints will be wide and raked. The trimming will be of Bedford stone. This material will also form the facing of the building as high as the base of the windows on the first floor.

The building itself is to be of the steel wall-bearing type and will be thoroughly fireproof. In this type of structure the masonry of the walls carries part of the weight of the frame while the frame itself supports the floors, partitions and roof.

In harmony with all the new buildings of the University the building will be of classic architecture. It will depend for its beauty on graceful lines and symmetry rather than on expensive ornamentation. In harmony with Dr. Bessey's character we shall try to make the building just as permanent as the building skill of the times through the use of brick, steel and concrete will permit. It ought to stand for 500 years at least. Further, in keeping with Dr. Bessey's character it will be attractive without ostentation, built for permanence and usefulness rather than show.

Uses of the Building

Aside from the sentiment connected with its erection it will be a building much needed by the University. Botany and Zoology have never had adequate quarters here. This will house them in a way worthy of a great University. While these departments will have considerably more space than they have at present, we are not building large enough to care

for their growth for many years to come. When the number of students of Botany becomes so large for the new quarters, we can build a separate building for Zoology, leaving the entire space of the Bessey building to Botany.

Completion of the Building

The building will cost approximately \$200,000 when completed and finished. The University considers itself fortunate in the fact that the lowest bid was made by a firm which has not only the reputation of doing excellent work but of doing its work promptly. This firm agrees to complete the general construction in 120 working days. Assuming, then, that there is not too much cold and stormy weather during the spring and summer following, there should be no difficulty in having the building ready for use at the beginning of the next school year. The ground is now ready so that the excavation may begin at any time.

A Memorial Tablet

For a few hundred dollars a beautiful memorial tablet could be placed in the principal hall of the new building. Some of the former students of Dr. Bessey have attained wealth. Would not some one of them like to volunteer to place a memorial worthy of his beloved teacher where the thousands of students that will throng this building in the years to come may look upon his features cast in enduring bronze by some skilled workman after the clay model of some great artist? The Regents of the University will be pleased to accept and place in a suitable place such a tribute.

PERSONAL

Earnest Dale, '14, is doing graduate work in the Department of Horticulture at Manhattan, Kan.

T. L. Frank, '15, of Ponca, is in the employ of the Bell Telephone company in Clinton, Iowa.

Sunday was mother's day at the Phi Gamma Delta house.

Katherine Mellor, '18, spent Saturday and Sunday at her home in Malvern, Iowa.

Betty Crawford, '18, and Lenora Young, '17, spent the weekend in Omaha.

Marie Pettit, '18, spent Sunday in Fremont.

Music—Louis P. Hagensick, F2042.

LOST—Pendant with diamond setting, and engraved bevel edged gold cuff link, on S St., between 15th and 16th Sts. Return to Registrar. Reward. 23-25

LOST—A bunch of keys. Return to Nebraskan office.

FOR SALE—Finest corner for frat house in University district. Inquire 1420 R street. 121-23-28

Scott's Orchestra. Call, B-1482.

A Thrilling Moving Picture Serial "The Diamond from the Sky," one of the most interesting, exciting and entertaining moving picture serials, will begin at the Alpine picture theatre, 1330 O street, October 20 and 21 and continue every Wednesday and Thursday thereafter for twenty weeks. Every student should see this \$800,000 photoplay. Admission only 5 cents. A cash prize of \$10,000 will be paid to the person who submits the most acceptable suggestion for a sequel to "The Diamond from the Sky." Begin at the first chapter, October 20 and 21, enjoy the entire series, submit your suggestion and win the prize. The Alpine picture theatre, 1330 O street. Only 5 cents. 11-24.
