PRICE 5 CENTS.

BIG HOMECOMING MIXER SATURDAY

ONE OF LARGEST MOVEMENTS OF KIND EVER UNDERTAKEN

DIVERSIFIED ENTERTAINMENT

All Students to Extend Glad Hand to Alumni—Dancing in the Armory and Music Hall—Art Hall Informal Meeting Place

The Homecoming Mixer next Saturday night, after the Iowa game, will be one of the largest movements of its kind ever undertaken at Nebraska. The committee is working day and night to have everything in readiness. The entertainment will vary from band concerts and fireworks to dancing and moving picture shows. Decoration and refreshments will combine the idea of a fall festival with the scarlet and cream.

The Evening Program

7:00 p. m. Band Concert, Campus. Fireworks, Campus.
8:00 p. m. Dancing in the Armory. Dancing in the Temple. Reception by Faculty in Art Hall. Refreshments in Art Hall. Moving Pictures, Temple Theatre.

Students to Entertain Alumni

All students are expected to unite in extending the glad hand to the alumni who will return that day. Following the successful campaign of the Cornhusker football team this year a large representation from the previous classes is expected to return.

Diversified Entertainment

"One of the most serious handicaps the Mixer committee has had to contend with up to this time has been inadequate room. Having this in mind we have attempted to divide the entertainment so there will be plenty of room for all and at the same time be able to provide events to suit everyone." This was the statement of Dean Mary Graham last night. There will be dancing in the Ar-

Dr. Maxey Gives Addresses

Dr. Edwin W. Maxey spoke to the Y. M. C. A. class of the Christian church Saturday evening on the subject of "Preparedness." He also spoke at All Souls' church before the Social Service class, Sunday, on the "Monroe Doctrine."

MILITARY BALL, JANUARY 21

Affair to Be Run More Economically Than in Former Years—All University Invited

That the Military ball will be given January 21, was decided by the Cadet Officers' club after some opposition had arisen. The place has not yet been announced.

It was thought by some that since formal functions, with all the necessary "furbelows," cost at least \$5, beside the admission tickets, that it would be best to get along without this one event. The officers, however, were practically unanimous in favor of a formal Military ball.

The Military ball is given each year by the members of the Cadet Officers' club, who appear in uniform. Civilians may come to this party, but it is essentially a military affair.

mory and Music hall. Here the alumni will be introduced to the new modes of dancing the light fantastic. Moving pictures of the pageant which was given under the supervision of the University last spring and pictures of different state activities will be shown in the Temple theatre.

Art hall will be used as an informal meeting place. Here the alumni will be expected to meet their classmates and professors and talk over old times.

Gertrude Marshall, '19, spent the week-end at her home in Arlington.

ENGINEERS' INSPECTION TRIP

Thirty-Five Students Go to Kansas City—Prof. Bridgman in Charge—Saw Game Also

Under the guidance of Prof. J. W. Bridgman, thirty-five engineers completed last Saturday an inspection trip to Kansas City. Wednesday, Thursday and Friday of last week they spent visiting the various places that would be of interest to engineers. Wednesday morning the new union station was thoroughly inspected. It contains many features which are of interest to engineers, among which is 2700-foot tunnel between the power plant and the station. Heat, light and refrigeration are furnished through this tunnel.

Among the most interesting of all the places that were visited was the office of Waddall & Son, consulting engineers. Mr. Waddall, who is one of the great engineers of the United States, gave a very instructive talk. At one time he was an instructor in the Royal Institute of the Emperor of Japan. He has been engaged, for a number of years past, in all the prominent engineering feats of Kansas City.

Probably the parts of the trip which proved most instructive and interesting to the electrical engineers were the visits to the Metropolitan Street Railway company's substation and later to their power plant. The trip to the Fratt bridge and the Burlington bridge were of especial interest to the civil engineers. The Metropolitan Street Railway company's car shops, the Kansas City Bolt & Nut Co., the Ford Automobile Co., were also given special attention by the mechanical engineers.

The Kansas City, Mo., waterworks and the Kansas City, Kan., waterworks and power plant, the Twelfth street and the Intercity viaduct, which are models of engineering skill, were all given due attention. Friday noon the whole party was entertained at luncheon at the University club by Dr. J. A. L. Waddall and others.

Dean O. V. P. Stout, together with the entire engineering department, wish to express their appreciation of the royal hospitality that was extended them on their trip. From Kansas City the party journeyed to Lawrence to see the contest between the Jayhawkers and Cornhuskers.

Church Workers Elect

The Federation of Church Workers of Nebraska met a few days ago and elected Rev. C. J. Pope president and Dr. D. R. Leland secretary. The retiring officers were Rev. E. A. Worthley and Miss Fannie Drake. This organization is composed of the University pastors and the secretaries of the Y. M. C. A. and Y. W. C. A. Weekly meetings are held for the discussion of problems relating to the students.

DR. WINFIELD HALL SPOKE TO CADETS

LECTURE GIVEN AT TEMPLE ON "SIXTH LIFE OF MAN"

INTRODUCED BY LIEUTPARKER

Physician Receives Enthusiastic Applause for His Remarks—Presents His Subject Slowly and Forcibly

Dr. Winfield Scott Hall, of Northwestern university, and the foremost physiologist of this country delivered a lecture on "The Sixth Life of Man" before the men of the University in the Temple theatre yesterday afternoon at 5 o'clock.

When Commandant S. M. Parker introduced the distinguished physician, he was applauded heartily by the cadets and students that filled the theatre to its utmost capacity. With his first word Dr. Hall arrested the attention of the whole house and held it for an hour. Slowly, clearly and forcibly he presented his subject and impressed the audience with the gravity of his topic. He drew a picture of the perfect manhood that was the

height of human existence. Tactfully he explained those delicate matters which are so all important to every man's happiness, but which convention so far has shrouded in silence.

Sorenson Writes Article

G. A. Sorenson, '13, Law, '15, secretary of the Nebraska Popular Government league, contributed an article to the State Journal last Sunday on "The Capital Removal Bogy." The argument was in answer to Albert Watkins' article the Sunday before on "Why a Constitutional Convention?"

SEC'Y EWING TO SPEAK HERE

Former Secretary of University Y. M. C. A.—Has Been Engaged in Work in Prison Camps

R. L. Ewing, formerly secretary of the University Y. M. C. A., who has been engaged in Y. M. C. A. work in the prison camp of Europe, will speak at Convocation this morning.

Mr. Ewing spoke at the St. Paul's Methodist church Sunday night on the subject, "Prisoners of War, an International Asset," saying in part:

"Everyone should study the present war because it affects him and his generation and is taking place in the seat of the highest civilization. The most scientific and highly civilized nations of the world are employed in murdering one another. There are over 25,000,000 men engaged in the struggle, and nearly 3,000,000 prisoners.

"In ancient times the unfortunates captured in war were put to death; later on they were used in the gladiatorial fights to amuse the spectators. Then they came to be used as slaves in the galleys. But now they are treated in a more humane manner. This treatment is due to the influence of Christianity upon the nations of the world."

DEBATERS WILL BE SELECTED TOMORROW

TRYOUTS WILL BE HELD TO PICK TEAM FOR KANSAS

FACULTY TO ACT AS JUDGES

Question of Debate Is That the United States Should Immediately and Substantially Increase Armament—Speakers Named

The University's eight representatives on the two debating teams that will meet the University of Kansas, Friday evening, December 10, here and at Lawrence, to discuss the proposal to increase the armament of the United States immediately and substantially, will be selected at a preliminary debate Wednesday evening in Memorial hall, beginning at 7:15 o'clock. The debate will be open to the University public.

Members of the faculty will act as judges. The order of speaking will be announced tomorrow morning.

The following students will compete for the honors, arguing for or against the proposition, "that the United States should immediately and substantially increase its armament (armament being taken to mean both forces and equipment.)"

Affirmative

C. E. Epperson, '15, Law '16, Clay Center.

C. M. Frey, '17, Sterling.
G. E. Grimes, '18, Omaha.
M. T. Keegan, '18, Alliance.
J. L. Polk, Law '16, Louisville.
H. F. Schwab, '16, McCook.
A. C. Stevenson, '17, Oakland.
S. C. Zimmerman, Law '16, Lincoln.

Negative

Ira Beynon, '17, Beatrice.
E. E. Carr, '17, Beaver City.
Guy C. Chambers, Law '16, Sidney.
F. H. Hixenbaugh, '17, Omaha.
E. D. Kiddoo, '17, South Omaha.
C. E. Schofield, '17, Oakland.
R. A. Smith, '14, Law '16, Lincoln.
R. B. Waring, Law '17, Geneva.

To Open Another Case

The great prohibition wave that has been sweeping over the country and recently gained a foothold in Nebraska, has evidently not reached the Law college. As the gong sounded Monday, Dean Hastings was heard to say to the Juniors: "We won't have time to open another case this morning, gentlemen."

SENATOR TO ADDRESS CADETS

Mr. Hitchcock Will Speak on National Defense to Both University and Farm Regiments

Senator Hitchcock will speak on "National Defense" at a mass meeting of all the cadets of both the University farm and city regiments at 5 o'clock Thursday. Final arrangements for the University welcome to the senator have not been completed. In fact the problem is to find a room where there will be sufficient accommodations for all the students that will wish to hear the speaker. Efforts are being made to secure the city auditorium. If arrangements can be made to use this building, it is probable that the lecture will be made public and the townspeople invited.

BECOMING DOMESTICATED
