Architect Hodgdon Arrives from Chicago-Regents to Meet

After being delayed more than a week by the illness of his mother, Architect Charles Hodgdon of Chicago, has been able to come to Lincoln for conferences over the university's new buildings. Mr. Hodgdon arrived this morning. He will spend DR. STEWART FOR the day in talking over the plans for the social science building that will some day be built at Twelfth and R streets, and will probably meet with the board of regents tonight.

The progress on the city campus buildings - Bessey and Chemistry halls, will interest Mr. Hodgdon, who has not been in the city since these were started. The architect has been able to note the progress on the farm buildings, and he is well satisfied with the way things have been going at the agricultural college.

# THE SINGLE TAX

Believes It Will Increase School Spirit -Hopes for Its Adoption

"I am heartily in favor of the Single Tax." said Dr. E. J. Stewart, our new coach, last night. "I favor it. not because of the financial benefit to athletics alone, but because it increases school spirit through assured attendance."

Dr. Stewart is well qualified to speak on the subject. Practically all about twelve lines that will please the of the schools in the northwestern part of the United States have the system, he says. Association Secretaryship Subject of Discussion Saturday

The Nebraska college men's vocational conference on association secretaryship will be held Saturday March 11, in Faculty hall. The conference will begin at 10 a. m. The basis upon which the Y. M. C. But all Christian men should give it a square look before deciding their vocation." This is especially true of those branches, which, because they are on the surface less attractive or less remunerative than others, cause most men to taboo them. Below is the program:
