## AS OTHERS SEE US

Headlines from the Daily Kansan—January 17th.

"MIDGET JAYHAWKER BASKETBALL TOSSERS FALL BEFORE NEBRASKA FOOTBALL HEROES"

Headlines from the Kansas State Collegian—February 16.

"CORNHUSKERS PLAYED SUCH A GAME OF FOOTBALL THAT TOGETHER WITH A POOR OFFICIAL, THE AGGIES LOST TWO GAMES."

"The K. U. midget basketball five which journeyed to Lincoln got the short end of the score in the games on both Friday and Saturday nights. It turned out to be a matter of the husky Cornhuskers walking away with the grapes from the small Jayhawkers. With such men as Rutherford, Shields and Gardiner, who figured so strongly in print this fall after the grewsome McCook field game, in the lineup, Gibben and the other midgets could not get near the opponent's basket. In spite of these facts, the games were not characterized by roughness. The force of the Nebraskans showed itself in all departments of the game and not in unnecessary roughness."—University Daily Kansan.

We may rest content in the knowledge that our university has won the basketball championship of the Missouri Valley conference and yet any fair minded Nebraskan must realize the justice of an article such as the following from the Daily Kansan:

"The smallness and inconvenience of the Nebraska court made it hard for the Kansas men who were not used to playing in such quarters. In past years, Coach Hamilton's squads have had hard times beating the Cornhuskers in their own little court so that it was not unexpected that this year's group of novices should make a rather poor showing."

Another from the Manhattan paper: "The first half of the game \* \* \* was the most provoking half I ever played. We could dribble past them, bearing down on our basket, only to have a husky Cornhusker play the man with a shove which would land him in the laps of the rooters. The benches lined the court on either side so that it was impossible to get 'off-side' except at the ends."

Nebraska puts out better teams with poorer facilities than any other school in the west. Perhaps to some of us the Armory looks as big as all outdoors, and yet it would look like a handball court in the Ames gym. Some of our neighboring schools insist that Nebraska would not be able to win so readily on a larger floor, and yet the Cornhuskers played the best game of their season against Ames in their modern gym. However that may be, it is a fact that Nebraska is sadly in need of a new gymnasium.

After dinner dances at McCormick's Cafe. Open till 1 p. m. 129 South Twelfth street.

## SOUTH AFRICA NEXT SEMINAR TOPIC

John Adendorff, Johannesburg, to Lead Discussion

The World Outlook Seminar will hold its fourth meeting in the Y. M. C. A. room of the Temple, Tuesday, March 14, at 7:15 o'clock. John Adendorff, instructor in mechanical engineering, will speak on South Africa. Mr. Adendorff was born on that continent which so many people think of as "dark," in the town of Johannesburg, which now has a population of more than 200,000 black and white souls. He is justly proud that he is a Boer of principally German stock and also that he has spent all but six years of his life in his home country. The first four of these six years found him in Cornell studying engineering. The remaining two have been spent at this university.

In an interview with Mr. Adendorff it was plain to be seen that he was full of enthusiasm on the subjects pertaining to his native land. He mentioned many interesting phases in connection with political, social and especially the industrial life of South Africa. In many ways the institutions which exist there are without doubt superior to those of the United States. He intimated that he would probably have enough information of interest to the average American to give a semester's course on South Africa, but that he would try on next Tuesday evening to give those who attended the Seminar a glimpse of this remarkably developed country in one hour.

### RICHARDS ADDRESSES COMMERCIAL CLUB

F. J. Richards, president of the Lincoln Commercial club, talked to the members of the University Commercial club yesterday afternoon upon the subject of "Commercial Clubs." "An essential thing to maintain interest in a club or organization of any kind is to let all members have some active work to do in the organization," said Mr. Richards, in his address. "The national chamber of commerce is one of the most influential organizations affecting our national economic life. The last convention of the chamber of commerce at Washington was composed of about 700 individual commercial clubs."

There will be no meeting of the club next week on account of mid-semester examinations.

MAX G. TOWLE

A graduate of the Law college in the year 1914, announces that he is a candidate for the office of Justice of the Peace upon the Republican ticket at the April 18th primaries.

It is desired that all students of voting age having resided in the state six months, county forty days, and the precinct ten days, register at the City hall any day before April 8th and then get out and support Max for this office. —Adv.

"NO bite" is about as poor a recommendation for tobacco as "no rheumatics" is for a wooden leg. But tobacco that won't bite an' yet is chuck full of taste—that's a different story—that's VELVET.
