

The Daily Nebraskan

VOL. XV. NO. 152.

UNIVERSITY OF NEBRASKA, LINCOLN, THURSDAY, MAY 18, 1916.

PRICE 5 CENTS.

MINNESOTA COMES FOR LAST DUAL TRACK MEET

WILL MEET NEBRASKA IN LINCOLN ON
SATURDAY AFTERNOON

Cornhuskers Anticipating Victory Over An-
cient Rival—Fast Time and New
Records Expected

The Cornhusker track team will meet the Minnesota Gophers in a dual meet Saturday, May 20, at 2:30 o'clock on Nebraska field. Nebraska has a good chance to win, according to Coach Guy E. Reed, although the score will be very close.

The meet will rival the famous Minnesota-Nebraska one of 1910, back in the days of Louis Anderson and Guy Reed, for keenness of competition and closeness of the score. In that meet the century went at 10 seconds flat, the 220 in 22 1-5 seconds, the quarter in 50 2-5 seconds, while every other event was a thriller from start to finish. Although Minnesota is as strong as Kansas or Ames, yet the Cornhusker youngsters have improved so rapidly that they expect to get the long end of the score.

Two new events will be seen Saturday. The javelin throw, which has never been staged this far west in a dual meet. G. Hauser and Sprafka of Minnesota are the two best javelin throwers in the western conference. Brian O'Brian, the Nebraska man, is one of the most promising javelin throwers in the United States. The hammer is the other new event. This has been dropped from Missouri Valley meets during the last two years, but will be an event Saturday.

The sprints will be close. Ballentine and Johnson of Minnesota are both good men. Scott and Irwin, however, are the classiest pair of sprinters Nebraska has ever had. They have won first and second in the hundred in every meet held this year. In the quarter, Bierman is good, but Owen is better than Guy Reed himself was in the first year of varsity work. It will be no surprise if Owen breaks the 50 2-5 second record before he leaves school.

Watson of Minnesota, the premier long distance man of the western conference, will be seen in the mile and two-mile. The shot will go over 41 feet, as both the Minnesota man and Ed Shaw can make that heave.

The entry list:
100-yard dash—Nebraska, Scott, Irwin, Wiley; Minnesota, Ballentine, Johnson.
220-yard dash—Nebraska, Owen, Scott, Irwin; Minnesota, Ballentine, Johnson.
440-yard dash—Nebraska, Bates, Townsend, Purney; Minnesota, Bierman, Cross.
880-yard dash—Nebraska, Grau, Overman; Minnesota, Fisher, Montgomery, S. Hauser.
One mile—Nebraska, Overman, Spohn, Garrison; Minnesota, Watson, Edson.
Two miles—Nebraska, Ricker, Spohn, Garrison; Minnesota, Watson, Hapacz.
120-yard hurdles—Nebraska, O'Brian, Bolton; Minnesota, Martin, Williams.
220-yard hurdles—Nebraska, Wiley, Shaw; Minnesota, Martin, Williams.
Shot put—Nebraska, Shaw, Corey; Minnesota, G. Hauser, Sprafka.
Discus—Nebraska, Corey, O'Brian; Minnesota, G. Hauser, Sprafka.
Hammer—Nebraska, Corey, Sheldon, Lynn; Minnesota, Sprafka, Wyman.
Javelin—Nebraska, O'Brian, Shaw, Purney; Minnesota, Sprafka.
Broad jump—Nebraska, Wiley, O'Brian; Minnesota, Moersch, Bierman.
High jump—Nebraska, Wiley, O'Brian; Minnesota, Moersch, Martin.
Mile relay—Nebraska, Scott, Bates, Townsend, Owen, Overman; Minnesota, Ballentine, G. Bierman, Cross, B. Bierman.

Maurice Northwall, '18-ex., who has been attending the Chicago art institute, is a guest this week at the Phi Delta Theta house.

Helen Edgecomb, '18, will spend Saturday and Sunday at her home in Geneva.

Evelyn Black, '12-ex., returns to her home in Lincoln next week from Stanton, Iowa, where she has been teaching during the past year.

WILL VOTE MAY 26 ON STUDENT COUNCIL PLAN

CHANCELLOR SETS DATE ON REQUEST
OF ORGANIZATIONS.

Constitutional Convention Will Probably Be
Selected at Same Time.

An election will be held May 26 for the purpose of deciding whether or not the students desire the adoption of the Student Council, according to the decision of Chancellor Avery Wednesday morning. The decision was the result of a popular demand made evident to the chancellor through resolutions and petitions from various organizations about school.

All persons who are eligible to vote at class elections will be eligible to vote on this proposition. The other details of the ballot are yet to be arranged.

All that can be done at this time is to vote on the desirability of the plan. As a representative body has not made out a constitution, it will be necessary to call a convention for that purpose. It is probable, however, that the delegates to the convention can be selected on that date.

The full particulars of the election will be published in Monday's Nebraskan.

L. Boyd Rist, graduate from the college of agriculture, this year's class, has been appointed assistant county agent and will spend the months of May and June in Gage county assisting O. H. Liebers, the county agricultural agent.

GIRL'S ATHLETICS HAVE A SUCCESSFUL SEASON

INDOOR AND OUTDOOR SPORTS FOR
EVERY TIME OF YEAR

Class Contests Stimulate Enthusiasm—Ath-
letic Association Awards Letters
to the Stars

One of the most successful years in the history of girls' athletics at Nebraska closed with the girls' annual track meet, held on Nebraska field, May 4. With field hockey and tennis in the fall; basketball and skating in the winter; volleyball, baseball and track athletics in the spring; swimming all the year round at the Y. M. C. A. pool, university girls, under the direction of Miss Ina Gittings, director of the women's gymnasium, and Miss Marie Clark, assistant, have received accurate training in all forms of girls' sports.

The field hockey season lasted through September, October and part of November. Practices were held every day at 11 o'clock on Nebraska field. The fact that field hockey was a new game brought out only a small number of players and it was impossible to have an interclass tournament. However, the upperclassmen and lowerclassmen organized

NOTE PROGRESS IN ERECTING BUILDINGS

CITY CAMPUS STRUCTURES ARE TAKING
SHAPE RAPIDLY

Two Farm Buildings Finished—War Causes
Delay in Plans—Steel Prices Are
Exorbitant

The end of the spring season work on the new university buildings finds satisfactory progress on the chemistry and Bessey buildings on the city campus, and completion of the power plant and horse barn on the farm campus, with the new dairy husbandry building almost finished. Exorbitant prices on structural steel, caused by the European war, have meant a delay in letting the contract for the agricultural building at the state farm, and have caused the construction department to hesitate in its plans for the social science and teachers' college buildings on the city campus.

Last week, the informal laying of the corner stone of the Bessey building was held, participated in by members of the botany department. The formal dedication, with exercises in honor of Dean Bessey, will be held later in the year. There was a note of sadness in the exercises last week, as it had been the dearest wish of Dean Bessey's friends that the Bessey building exercises could be held with him present. His work placed the University of Nebraska botany department first in the United States. His death was the more untimely that the realization of his dream of a splendid properly equipped building for the study of his beloved science was at hand when he died last year.

The Bessey building is the furthest advanced of the city campus buildings. The foundation of white stone has been set, and the steel girders and supports for part of the second floor have been placed. The building occupies all the ground between Twelfth and Thirteenth streets, and will face north on U street.

Just southwest of the Bessey building, at Twelfth and T streets, facing east, the chemistry building is being erected. The concrete piles have been poured and the basement walls set in. This building is now ready for the structural steel. Full forces of laborers are busy on both city campus buildings.

At the farm the roof is being placed on the dairy husbandry building. It will be ready for use in the fall, and possibly during a part of the summer session. Neither the chemistry nor the Bessey buildings will be ready before a year from next fall. The university was fortunate, however, in letting the contract for these structures before the advance in steel came.

MOVIE FILM FOR
JOURNALISM CLASS

Chicago Tribune Sends Reels—Everyone In-
vited—In M. E. 206

How the office of one of the greatest newspapers in the world looks in swift action, the Nebraska journalism students and the general public will have a chance to see at 5 o'clock this afternoon in Room 206, Mechanical Engineering laboratories, when Prof. M. M. Fogg will show the Chicago Tribune's film, "Racing the Deadline on the Chicago Tribune." While these movies were secured especially for the students of journalism, the exhibition will be open to the public.

The University of Illinois recently exhibited this film. From Nebraska it goes to the University of Ohio.

"A rattling picture of how a reporter landed a scoop," is the description of the film on the big blue poster sent by the Tribune. "Shows the making of the world's greatest newspaper from the paper mill to the break-fast table."

"Real-life characters (not an actor) in the cast, which includes publishers, editors, reporters, cartoonists, etc."

The Program of the Omaha Trip

The program for the university students' trip to Omaha Friday is given below. It is the official program, and the schedules as given here will be rigidly followed. E. V. Parrish, manager of the Omaha Commercial club, who is charge of the reception of the students, declares. The students can help very materially by keeping to this schedule during their stay in Omaha:

7:40 a. m. Special trains leave for Omaha from the Burlington station.
9:00 a. m. Arrival in Omaha.
9:00-9:15 a. m. Move to municipal auditorium, escorted by Omaha high school cadet regiment.
9:15-12:00 m. Excursions to different points of interest.
12:00-1:30 p. m. Hour free to students.
1:30 p. m. Meet at auditorium. Visit University of Nebraska Medical School.
5:30 p. m. "Made in Omaha" buffet luncheon at the municipal auditorium, for all the visitors from the university, courtesy of the Omaha manufacturers and jobbers.
6:30-8:30 p. m. Entertainment de luxe, Omaha alumni, direction of Robert Manley.

SPECIAL TOURS IN OMAHA

Below is given the tour of each department or class, as arranged for with the Omaha reception committee by the faculty members in charge, on the request of his students:

Pharmacy College
Richardson Drug company.
E. E. Bruce Drug company.
Creighton College of Pharmacy.
Sherman-McConnell Drug company.
South Omaha Glycerine and Soap factories.

Farm Management Students
Grain Exchange.
Wholesale Fruit District.
Uncle Sam Breakfast Food factory.

Fine Arts Class
Linger Art Gallery.
Omaha Public Library.
Scottish Rites Temple.
Private Residences.

Home Economics Department
Linger Art Gallery.
Iten Biscuit company.
M. E. Smith company.
Skinner Macaroni company.
O'Brien Candy company.

Geography and Conservation
South Omaha Stock Yards.
South Omaha Packing Houses.

Journalism Students
Linger Art Gallery.
South Omaha Stock Yards.
Baker Engraving company.
Omaha Newspapers.

Instructional Agronomy
Grain Exchange.
Cereal factory.
Skinner Macaroni factory.
Peters Alfalfa company.

Chemistry Class
South Omaha Glycerine and Soap factories.
Smelter.
Waterworks.

Horticulture
Landscape Gardens.
Happy Hollow Addition.
Village of Dundee.
Omaha Park Systems.

School of Commerce
Omaha Banks.
Department Stores.
M. E. Smith and Company.
