Published tri-weekly, on Mondays, Wednesdays, and Fridays during the Summer Session, by the Student Publication Board.

The Palladian open air meeting on the campus Saturday night is a good precedent for similar meetings in the future. The University campus is one of the beautiful spots in Lincoln during the summer and the students should make it the center for their social recreation as well as for their intellectual endeavors.

**That Summer School Cornhusker Section**

The suggestion in the last issue of the Nebraskan for a summer school section of the Cornhusker has been favorably received. It is hoped that the Cornhusker management will take immediate steps to gather the material necessary for it. Especial attention should be paid to getting snap shots from the picnic next Wednesday. The time left for getting pictures of the various summer school organizations is so short as to demand immediate action.

**BRIEF BITS OF NEWS**

The Commercial Geography class, under Mrs. England, are planning a series of interesting trips to industrial places, some of which are Hardy's furniture and rug departments, Cushman Motor Works, farm implements and stock at State Farm, planing mills, packing house, etc. The first trip is to be made Monday afternoon.

Principal Clinton Sheets of Bridgeport, Nebraska, was a visitor at the Nebraska School of Business last week.

Girls, let's have some fresh flowers in the Y. W. rooms each day.

**YOU KNOW HIM**

We know a man quite ill at eeeeeee; Too soon he changed his bvdddd. In them, it seems, he nearly froooo; Now all he does is to blow his noooo. Declaring at most every sneeee He's coming down with some diseeeee.

His kind has often met your gaaaa A cold will lay him up for daaaa, Afraid of what they call catrrrr; Won't eat and, too, cuts out cigarr. And wonders while in bed he laaaaa Why we don't send him swell bokkkk. The fact is, all his friends are yyyy, And so we're waiting till he diliii.

—Philadelphia Star.

**The Faculty and the Summer Picnic**

About a score of students are giving a large share of their time and energy on various committees to make next Wednesday's picnic a success. And according to indications they will accomplish their purpose so far as the students are concerned. But what about the faculty? If the outing is to be as it purports, an all-university picnic, it should include faculty as well as students.

At the Ivy Day picnic in the spring the faculty members are usually conspicuous by their absence. Indeed, they usually go farther than that and hold a separate picnic of their own, the faculty men's picnic, instead of joining with the students. We hope the summer school faculty will show better school spirit.

Perhaps it is true that the average college professor is not interested in a three-legged race or a fat man's speed contest, but be that as it may, if he is a true teacher he is interested in his students—in their recreation as well as in their work. It would be of benefit to both professors and students if they learned to recognize each other in other places and under other circumstances than the classroom affords. The summer school picnic is an opportunity for such acquaintance to be made.

**THE COMPLAINT OF A STUDENT**

Notes! Notes! Notes!

The Profs insist on our making them, Our arms are lame from the taking them,

We wait for the day of forsaking them, But when shall it come to pass?

Our poor brains reel when a-cramming them,

Down memory's gullet we're ramming them,

Time comes when we'll be "exam"-ing them,

For we keep them for every class.

My prof is dynamic, impressive, and quick,

His teaching has wide-spread renown,—

If I only could listen, his sayings would stick,

But I'm busy writing them down.

He lectures in marvelous English, quite true,

Fine expression and gesture, I think, But to value them right is what people can do.

They're wasted in mere pen and ink.

I can search thru my notebooks with all my power,

The key phrase from my scribbling has slipped;

And when I accomplish twelve pages an hour,

I've trouble in reading my script.

You've interests keen in this topic or that?

I've studied on that, and I'll look.

I can't answer your question right off the bat,

But I've got it all down in a book.

My writing's a mighty poor teacher to me,

I get things much better when said;

If my notebook is where my facts ought to be,

Why, what earthly use is my head?

Notes! Notes! Notes!

The Profs insist on our making them, Our arms are lame from the taking them,

We wait for the day of forsaking them,

But when shall it come to pass?

Our poor brains reel when a-cramming them,

Down memory's gullet we're ramming them,

Time comes when we'll be "exam"-ing them,

Alas! \* \* \*

Still I make notes, and remember them not,

Twelve pages an hour or ten.

But, how can I remember the Whichness I What,

Or dissert on the Whyness of When,

If all that I hear,

Goes in at my ear,

And out at my fountain pen?

"That's a fine suit you have there. What is it?"

"A dynamo suit."

"How's that?"

"It's charged."
