Entered at the postoffice at Lincoln, Nebraska, as second class mail matter under the Act of Congress of March 3, 1879.

Many people have the idea that a university education is an expensive luxury in which only the well-to-do may indulge. Parents have discouraged any desire for four years at college in their children because the family funds were low. But judging from the report that sixty men students have found permanent positions through the Y. M. C. A. employment bureau, it looks as if father's monthly check isn't such a necessity after all.

This "over the back fence gossip" is when they "picket" everyone.

MAKING THE NEBRASKAN STAFF

The Daily Nebraskan is just as much an institution of the university as the football team, and, just as every man who has football ability hastens to go out for football, so should everyone who has ability in writing or journalism try to make The Daily Nebraskan a better paper by his efforts on the staff.

It is true that reportorial work takes a great deal of time, and that the reporters are very poorly paid, but on the other hand, the work on a college newspaper is full of life and fascination. To know what others are doing and thinking, to make friends, and to be able to understand the viewpoint of other people—that is the reason why newspaper people love their work even though it is only amateur work on a college publication.

Everyone who is interested in that kind of work, either from the educational or professional standpoint, and wants to work on The Daily Nebraskan, will be given a chance to show his ability for the asking. There is only one proviso—if at any time the reporter is not doing his work with intelligence and a show of responsibility, he can no longer remain on the staff, regardless of his sociability or his "pull."

FRESHMEN CONVOCATION

Thursday will give the newcomers a good push on the up grade of their university career.

A college education is a priceless possession if it is a useful education, but, if we cannot be made of everything learned, then, a college education is no education at all.

The four years at a university should be spent with some aim in view, and the sooner a man "finds" himself, the sooner can he work toward that aim. With the explanation of campus activities and the resultant university spirit, this year's freshmen will surely make the rest of us "sit up and take notice."

AMERICAN MAGAZINE ON PAUL HARRISON

Dr. Paul W. Harrison, '05, is a medical missionary in Arabia. The October American magazine says "he is doing a noble, useful work," and tells in detail of his interesting and self-sacrificing life.

"The Arabian Mission pays him seven hundred dollars a year and much of that he spend for medicine and instruments for the Arabs."

SPORT SPARKS

This year's freshmen are losing a lot of good experience since Rutherford is only a coach instead of on the varsity. Just ask the 1915 freshmen.

There is a young fellow named Shaw, Who is the best that you ever saw; When his opponents he hits, He knocks them to bits, And makes them look really quite raw.

That little Dutchman, Hoadley, can scare the freshmen better than any of the rest of the varsity. It is probably because of his fierce looking chin.

Why sporting editors leave home—Halbersleben, Kositzky, Otonpalik—looks like a team of orientals.

Guy Reed says that his "brush" is going to be used to apply the white-wash to the various opponents of Nebraska this year.

I know a man of fame and glory, Who is the hero of song and story. His name is known Where e'er winds have blown, For he is none other than "Big Tim" Corey.
