## UNIVERSITY GIRLS TO PLAY SOCCER FOOTBALL

### MISS GITTINGS ANNOUNCES NEW GAME FOR WOMEN

Matches to be Played on Nebraska Field—Crack Athletes Return to School

Soccer football for women is to be introduced at the University of Nebraska this fall, according to the statement given out by Miss Ina Gittings, director of physical education for women, yesterday afternoon. The game was tried at Smith, Wellesley and Vassar last year and met with such splendid success that nearly all of the eastern colleges for women are adding the game to their list of sports. The game will first be taught to the advanced class in gymnasium work and will be played out of doors on Nebraska field, Mondays, Wednesdays and Fridays, at 11 o'clock. Dr. R. G. Clapp has the order in now for two new soccer balls and practice will start as soon as they arrive. If the interest and enthusiasm that is now shown by the co-eds in anticipation of the game remains, after a few practice doses, a lively season will result and match contests between class teams will be staged on the athletic field.

### More Field Hockey

Field hockey, which had such a successful season last year, will also be played this fall, practice starting next Wednesday. Last year the game was

played on Nebraska field until early November, the season closing with a close match between the upper and the lower classmen, the upper classmen winning by a score of 2 to 1.

### Swimming Possible

Classes in advanced gymnastics for women will start next Monday. Freshmen and sophomore classes will not start for two or three weeks because of the large number of freshmen physical examinations to be given. There is a possibility of a swimming class for the co-eds again this year, but no definite announcement of it has been made as yet.

Several of Nebraska's co-ed athletes have returned to school this fall and with an abundance of good material among the freshmen girls, a stellar year for athletics for women at Nebraska is predicted. Helen Hewitt, '19, captain of last year's freshmen basketball team and winner of the gold medal in the girls' track meet this spring, reports a splendid summer developing muscle and is ready to smash a few more records. Other athletic notables ready for work are Camilla Koch, Margaret Anderson, Grace Nichols, Marjorie Green and Blanche Higgins. Dawn Flaverty of Culbertsville, Ky., a member of the girls' varsity basketball team at Kentucky State college last year, and all-round athlete, has entered the University of Nebraska and promises to add some spice to the games of the year.

## UNION LITERARY SOCIETY OPEN MEETING SATURDAY

The Union Literary society will hold its first meeting open to all students in the society hall of the Temple, Saturday night. An interesting program of music, readings and other features has been prepared. The society is ready for one of the best years of its long existence at the university, and new students who are interested in the university's literary and social life are cordially invited to the meeting tomorrow.

## FRESHMEN AND VARSITY SATURDAY

### FIRST FOOTBALL GAME OF YEAR ON NEBRASKA FIELD

Band Will be Out—No Admission Charged—Line-ups Have Been Announced

At 2:30 tomorrow afternoon the Nebraska football season will open on Nebraska field. The schedule this year is by far the heaviest one ever undertaken by a Nebraska team. Besides the schedules that have been handed out two games are to be played at the start. Mr. Rutherford's team will face Dr. Stewart's tomorrow, and the following Saturday Dr. Stewart's will face Mr. Rutherford's on the latter's home field.

Rutherford's team will outweigh the varsity by several pounds to the man, in both backfield and line.

Both these teams have been practicing hard and it promises to be a real scrap.

### Band Will Play

To give it the appearance of a real game the band will appear in public and in full dress for the first time this year and will give a concert before and during the game.

The admission for this game will be a green cap, for each freshman, and for all other classes a good spirit and voice.

The lineups at the start of the game will last only a few minutes as both coaches will use lots of substitutes. The lineups at the start will probably be:

Varsity	Freshmen
Otoupalik	Hoadley
Corey	Hubka
Wildner	W. Kositzky
Moser	Halberleben
Dale	E. Kositzky
Shaw	Janda
Riddell	Ralston
Caley or Cook	Porter
Doyle	Selzer
Rhodes	Schellenberg
Gardiner	Kellogg

## MISS GRANT NEW ART PROFESSOR

Illustrator for Many Publications—Evening Class in China Painting

Professor Blanche C. Grant is the new professor of drawing and painting, in the fine arts department. Miss Grant is a graduate of Vassar, a former student of Pennsylvania academy of fine arts; also of the Boston school of fine arts. She has been a proficient illustrator in many standard publications.

In addition to the regular course offered, there will be a course in history and appreciation of painting. The main movements of the nineteenth century and sufficient instruction in technique will be offered to make intelligent criticism in the modern art.

This class meets for the first lecture September 28 in U-109. In response to the demand, an evening class in china painting is offered to students who cannot take the regular course. The classes are to be on Monday evening.

## ALUMNI SUBSCRIPTIONS POURING INTO THE RAG WITH EACH MAIL

Alumni subscriptions for The Daily Nebraskan have been pouring into the office with every mail, indicating that the old grads are still maintaining their interest in their alma mater. Some of them have been frank enough to confess that they could not be happy without the daily account of what the university football team is doing under the new coaches, how the university is branching out scholastically and all the other news which they can only get through the "Rag."

## FIRST RALLY FOR FIRST YEAR MEN

### INNOCENTS GET FRESHMEN OFF TO GOOD START

Yells, Songs, Speeches by Big University Men, Feature the Gathering

Convocation in Memorial hall yesterday was the first get-together meeting of the freshmen boys. Full of enthusiastic speeches, mingled with yells and songs, led by S. H. Brown, the freshmen were initiated into the school spirit by the Innocents. The band drew the crowd and the speakers held them until lunch overcame their discipline and they fed. For some reason the class seemed to accumulate very little real spirit.

M. M. Garret acted as chairman and spoke a few minutes on the necessity of college spirit as the thing one ought to have. Chancellor Samuel Avery was then introduced and talked on "college spirit." He brought out the fact that unity of action, men working together made results possible and that by beginning to get together the freshmen were performing their part.

### Ray Smith Spoke

Raymond Smith next spoke on scholarship as the most essential thing in school life. He emphasized the necessity of a schedule and keeping to it. Guy Reed was the next speaker and talked on all phases of student activities. He mentioned athletics, debating, dramatics, newspapers, band and military. He urged each freshman to try some field and make good.

"Big Tim" Corey was then captured and compelled to speak. He told the freshmen to "clean up" on the sophomores in Olympics. The new coach, Dr. E. G. Stewart, then told the freshmen as they were freshmen together, he expected them to help him as much as possible and to become the best freshmen class that had ever entered the university.

Announcement of the fact that all freshmen caps were now on hand and ready for sale ended the program.

## URGES CO-EDS TO CHOOSE LIFE WORK

Mrs. England Speaks to Business Women's Club Members on Organization

Mrs. Minnie England spoke on "The Need of Business Organization for Women" at the first meeting of the Business women's club at U-101 yesterday afternoon.

The need of every university woman to select an occupation regardless of her plans for the future was vividly pointed out. Mrs. England believes that the normal life of every woman is to marry and that marriage should always be included in every girl's plans for the future. A woman can select some kind of work that fits in nicely with her home work and yet be able to perform all the home duties required of her.

These meetings are to be held the first and third Thursdays of each month and a speaker will always be provided to talk on some phase of the business woman's needs, it was announced yesterday.

## 106 PLEDGES FOR THE 20 UNIVERSITY FRATERNITIES

### PROF. P. M. BUCK GIVES OUT OFFICIAL LIST OF NAMES

Average of Eight to the Fraternity—Scholarship Rules Now in Force

University fraternities pledged 160 men to membership after the first semester rush week—and after the registrar and the executive dean had checked over the lists of names to determine the eligibility of the freshmen, according to the official list announced by Prof. P. M. Buck, chairman of the interfraternity council. The number is an average of eight men to the fraternity, Beta Theta Pi taking the most with fourteen men, and Sigma Phi Epsilon and Bushnell Guild pledging the last with only four apiece.

This is the last formal rushing season, as it has been held at Nebraska university, the new scholarship rules being in force now, and hereafter only those fraternities will be allowed to pledge freshmen whose scholarship average is above the general average for all fraternities. The fraternities above the average may pledge freshmen at any time during the college year.

### Hard Season

The rushing season just ended was in many respects a hard season, as a misunderstanding among the fraternities led some to make dates early in

Ruth Beecher, '19, of Hastings, attended Radcliffe college at Harvard university this summer. While in New York City she visited some of the newspaper plants, one of which was the New York World. She is a charter member of Theta Sigma Phi, the honorary journalism sorority which established a chapter here last May.

## ALUMNUS HEADS MINING SCHOOL

### HOWARD C. PARMALEE, '97, AT COLORADO SCHOOL OF MINES

Chosen Unanimously from List of Seven—Member of Scientific Societies

Howard C. Parmalee, B. S., '97, A. M., '89, has been elected president of the Colorado school of mines at Golden, Col. Mr. Parmalee, who is widely known as a chemist, has been active in scientific research in Denver and throughout the country for the last seventeen years.

The Rocky Mountain News of Denver, says of him:

"He was chosen unanimously from among seven names considered by the board of trustees. He is president of the Colorado scientific society and for several years has been editor of the Mining Reporter. He is editor also of the 'Western Chemist and Metallurgical and western editor of the 'Metallurgical and Chemical Engineering Magazine,' published in New York."

Mr. Parmalee is a member of the Sigma Xi, honorary engineers fraternity at Nebraska; Tau Beta Pi, honorary engineering fraternity, Colorado school of mines; Alpha Chi Sigma, chemistry fraternity, University of Colorado, and the American institute of mining engineers.

Mr. Parmalee assumed his duties as president, August 15.

Homer L. Hewitt, '14, law, '17, colonel of last year's cadet regiment, spent the summer in the west as platform manager for the Standard Lyceum bureau. He delivered a total of one hundred and sixty introduction speeches. He is again in charge of argumentation and debate in the Lincoln high school.

registration week, only to find later that this was not permissible.

Campus gossip has it that there was a lot of "dirty" rushing going on, some of the fraternities forgetting ethics a bit in their desire for new men. However this may be, past experience has demonstrated that rush week bitterness soon wears off. Some of the fraternities were obviously anxious to get men because of the new rules—which will eliminate certain societies from the race next year.

### List of Pledges

The list of pledges, as given out by Professor Buck, follows:

Acacia—Harold B. Whitfield, Allen Holmes, Lincoln; Jay Sterling Kelley, Frank Kohn, Beaver City; Edward Neal Pettygrove, Oxford; J. Alden Casteel, Graf; Claude Franklin Dally, Exeter.

Alpha Tau Omega—Clifford Lundgren, Wausa; Merwin Heald, Wahoo; Harold Gerhart, David Harvey, Newman Grove; Warren Bennison, Lincoln; Michael Dally, Omaha; Turner Ross, Homer.

Alpha Theta Chi—Walter McGoogan, Lincoln; Charles Parsons, Harold Hudspeth, Omaha; Paul Peterson, Neligh; Charles Rawlings, Leonard Dismore, Wymore; Harold Sandusky, Sterling; DeLoss Moulton, Swanton.

Alpha Sigma Phi—Floyd M. Stone, Eyr Sloniger, Earl G. Colton, Lincoln; William H. Angel, Ulysses; Irving J.

(Continued on page 2)

## TELL FRESHMEN GIRLS ALL ABOUT IT

### BLACK MASQUES IN CHARGE OF SPECIAL CONVOCATION

Members of Faculty and Prominent Senior Girls Speak to Beginners

The lower floor of the Temple was filled yesterday at freshmen girls' convocation, when different campus activities were explained to the newcomers. The Black Masques, the senior girls' organization, were in charge of the meeting and Olive Lehmer, president of the Black Masques, presided.

Dean Mary Graham welcomed the freshmen and urged them to participate in all college activities. Louise Coe told the girls about the Girls' club, and Marguerite Kauffman told of the different publication which have women on their staffs.

### Chancellor Avery Spoke

Chancellor Avery spoke on college athletics in general and urged his audience to lose no time in entering into every form of activity. Mary Haller explained the work and organization of the Y. W. C. A., and Dr. Winifred Hyde told of the opportunities in music.

Dr. Louise Pound spoke on women's athletics at Nebraska, making a plea for a women's athletic field, because at present, women may use the athletic field only at inconvenient hours, when the men are not using it, thus crippling women's activities in that line.

### Y. M. C. A. CABINET

#### MEETINGS SUNDAY

Y. M. C. A. cabinet meetings will be held Sunday morning from 9 to 10 o'clock this year. It was found that this was the best hour for securing a majority of the men, studies, outside work and other matters interfering with hours during the day. The cabinet each week will put its heads together on problems affecting the Christian life of the university and the Y. M. C. A.

## GREEKS MEET TO DISCUSS PROBLEMS

### 300 FRATERNITY MEN IN LAW 101 FOR ANNUAL FALKFEST

Chancellor Avery Speaks—Active Men Urge Freshmen to Prove Their Worth

Three hundred Greeks representing sixteen fraternities met last evening in Law 101 to discuss fraternity problems and to get the freshmen started on the right path. Prof. P. M. Buck called the meeting to order and three cheers were given the new pledges. The lists of pledges have been approved with the exception of ten names which had not been officially reported to the registrar's office. This will be rectified as soon as possible.

Professor Buck called on Albert Bryson, '17, who congratulated the freshmen and begged of them to make themselves worthy of the honor which had been conferred upon them, by making their best effort towards scholarship and by getting into school activities.

### The Chancellor

Chancellor Avery then came before the fraternity body as a member of the institution. He asked the fraternities not to take fraternity spirit too seriously, and for them to have respect for non-fraternity men's feelings. He said that good scholarship would win the good will of the people and that with good scholarship there would be no danger of legislation. He told the fraternities to work together for the interest of the university rather than themselves and that it took the spirit of co-operation to accomplish these things.

Professor Buck then stated the sophomore pledging rule. All the fraternities averages are taken and averaged together. All fraternities whose average is equal to or above the general average may pledge and initiate at any time, providing the initiation is announced.

All fraternities whose average falls below the general average may pledge only sophomores. Professor Buck begged of the fraternities to start the

(Continued on page 2)

## SECOND RELIGIOUS MEETING AT TEMPLE

A mass meeting for all university men interested in the problem of industrial service will be held in the Temple theater Sunday afternoon, under the auspices of the Y. M. C. A. Reverend H. H. Harmon will lead.

## BAKER TO STUDENTS ON PROHIBITION

### OUTLINED NATURE OF WORK FOR THE DRY CAUSE

Local Society Elects Leonard Klein of Blue Hill, President of I. P. A.

Everett Baker, Hamline, '15, delivered a lecture before the Nebraska branch of the intercollegiate prohibition association at the Temple last evening.

Mr. Baker was active in the campaign, which made Duluth dry, and has been lecturing for some time in his position as traveling secretary of the association.

The lecture made no appeal to the morals, but was confined to scientific data concerning the effect of alcohol, and data was given showing the labor troubles, child labor problems and taxes in connection with the liquor traffic.

### An Old Proverb

"An old proverb," said Mr. Baker, "best illustrates my opinion of the liquor question: 'First the men takes a drink, then the drink takes a drink, and then the drink takes a man.'"

New officers were elected for the Nebraska branch of the association, as follows:

President, Leonard Klein; vice-president, Walter Raecke; secretary, H. P. Troendly; and treasurer, Ernest Lundeen. The purpose is to organize the vote of the university and see that all men have a good opportunity to take their stand on the prohibition question.

The Ohio branch has pledged itself to send 150 men to Lexington, Ky., for the big convention to be held there in December, and the officers of the club here say they will try to have an equal number from Nebraska.
