Entered at the postoffice at Lincoln, Nebraska, as second class mail matter under the Act of Congress of March 3, 1879.

Will we beat Oregon? Maybe.

It is indeed strange and mysterious, if the \$200 fund of the class of 1916 has disappeared. It is a custom in the University for each senior class to leave some gift to the school, after their graduation. Two hundred dollars collected from members of a class for some special purpose, ought to be spent for that purpose.

About four hundred University women marched in the football parade Tuesday evening—an unprecedented event. The women in school are as enthusiastic and willing to support events in school as the men. Half of Memorial hall was filled with women, at the rally, the yells were given with as much spirit, and the team idolized perhaps a wee bit more by them than the men. When they got out in the street and walked four hundred strong in the parade, the on-lookers and the women themselves were filled with a wave of feeling that is impossible to emphasize in words. It was worth while.

The women at Nebraska have felt sometimes, that they have not always had a fair deal, that they have been neglected for some less important things. The reason for this neglect, which has been partially imaginary, has been because of the lack of "push" and enthusiasm. Many a good movement has been started and then dropped after a time, and forgotten.

The demonstration last night was wonderful. It is a sample of what the women can do if they will. They have started well. If they want things in the future, and go after them with the same enthusiasm they showed last night, they surely will have what they want.

There are about 1,000 students in the University who are eligible to vote at the coming election. There are ten days before the poll books close, and the voter can register at the city hall at any time of day before the time is up.

There are many important issues coming up this election day, and the vote of every intelligent, educated man in the country will be needed. And granting that the majority of University students come in that category, they should get busy.

Coach Stiehm was ominously silent regarding Nebraska's chances against Notre Dame on the coming Saturday.

News was received of the wedding of Florence De Lacy, '08, of Lincoln, to Ray Fuller, '10, of Ravenna.

BRIEF BITS OF NEWS

Maps with the population of each county of Nebraska and a table of the population by decades, have been printed by the legislative reference bureau for history and reference work. A copy may be had by request.

UPPERCLASS GIRLS WIN IN SOCCER

(Continued from Page One)

amuck and the game seemed to be nothing but a wild scramble with no definite lineup, but through the consistent coaching of Miss Gittings, the girls are learning the fine points of the game and are educating their toes to kick goals from the twenty-five yard line.

The full field as used for football, is used for soccer, and with the same line markings. Each team has eleven players, five forwards, three halfbacks, two fullbacks and a goal keeper. The lowerclassmen with Helen Hewitt holding down the position of center forward, have been putting on a good game, but so far have been unable to penetrate the "stonewall" formed by Beatrice Dierks, Marjorie Green, Helen Sawyer, Blanche Higgins, Betty Doyle, the upperclassmen forward line.

NAVY APPEALS TO STUDENTS

The petition that was sent by 89 students at the University of Texas to the government for a training ship presents a new phase to the movement for a prepared citizenry. To don rawhide boots, shoulder a pick and shovel, and be off to the trenches does not appeal to them as being the best way to emphasize their patriotism.—Exchange.

Harvard, Princeton, Bowdoin, Williams and the universities of Michigan and Minnesota have made military instruction a part of the curriculum, the course being elective, but in some, if not all of these institutions, completion of the course will count as a credit toward obtaining a diploma.—Exchange.

STIEHM STRUGGLES TO BUILD UP TEAM

pitcher, hockey player, professional baseball man and football coach, who is helping take charge of the football squad at present.

Guy S. Lowman, for five years head coach of the Kansas state agricultural college, is another valuable assistant of Director Stiehm and has brought the freshman football squad up to a high degree of efficiency.

Harvey Cohn, the man who helped make the American teams powers in the Olympic games at St. Louis, Athens and London, is in charge of track athletics. He is giving most of his attention this fall to the cross-country runners.

The completion of the new gymnasium in a few weeks will give greatly increased facilities for training and will provide room for the rapidly growing classes in physical education under James A. Kase. The importance of this general training is coming to be more and more recognized by college administrations everywhere.

Among the athletes entering Indiana university this year is Matson Collier, a freshman from the Kansas state agricultural college, who has a mark of :10 flat in the hundred-yard dash and :22 4-5 in the 220-yard dash.

FOOTBALL MEN ENROLL IN THE BRITISH ARMY

Two of the most prominent candidates for the Dartmouth football team, enrolling in the British army, have given the hopes of the Hoosier men a slight setback.

John Cannel, star for four years at Everett high school and conceded by football critics the star quarterback of New England, and G. Cogswell, captain at Worcester academy, a brilliant eastern player, are thought now to be enroute to England, according to the contents of a letter received by a member of the college team. Both men left for Hanover, and came as far as White River Junction where they left the squad and took the train for Montreal. However, Dartmouth is not alone in bewailing the loss of athletes by the war. The annual boat races between Oxford and Cambridge on the Thames river have not been held since 1914, the crews being depleted by the men enlisting in the British army.—Exchange.

Fifty thousand dollars has been raised to begin the construction of a new gymnasium at Wabash College. The building will include a large indoor track, and a ground floor equipped for basketball and gym classes. The fund for the building has been raised by a systematic campaign covering some months.—Exchange.

BATTLE OF BAGS

Marquette, following Wisconsin, has adopted the "Battle of the Bags" as a means of avoiding hazing. It is hoped that all "disputes" will be settled at this time and thus avoid a continuance of hazing.—Exchange.
