VENUS

VENUS 10¢ PENCIL

17 Perfect Degrees from 6B Softest to 9H Hardest and hard and medium copying

Like a soft-leaded easy marking pencil? Take the higher numbered B's such as 3B, 4B, 5B. For the extreme limit of softness 6B is without an equal and is used by many as being the ideal of all pencils.

Medium degree is HB. H's are the harder grades, 2H or 3H being medium hard, and 6H, etc., being used for thin, clear, fine lines of detailings. Your professors will confirm these statements as to the merits of **VENUS** pencils. Note the distinctive **VENUS** water mark finish when you buy.

VENUS ERASER

is beautifully smooth and even in texture. It rubs out pencil marks perfectly. Gray, and does not cause discoloration. 12 sizes from 100 to a box to 4 to a box. Box price \$2.00. Venus Erasers are the best erasers.

Ask for them by name.

degeneracy was also benefited by the standard set by Shakespeare. He said that Shakespeare was played more in Germany than in any other country except England, because in Germany the stock company, producing a play and not a star, still persisted.

Dr. L. A. Sherman of the department of English literature then spoke on "Shakespeare in America," recounting the work of the men who first introduced the study of Shakespeare into this country and also followed the fortunes of Shakespeare successes on the stage.

Dr. Winifred Hyde of the department of psychology sang three Shakespearean ballads which were enthusiastically applauded by the audience. "It Was a Lover and His Lass," from "As You Like It"; "Who is Sylvia," from "Two Gentlemen from Verona," and "Hark, Hark, the Lark," were the numbers.

BRIEF BITS OF NEWS

Prof. Alice Howell went to Norfolk yesterday on a reading trip.

John Elliott, '17, who has been ill with typhoid fever at his home in University Place, is very much better and is expected to be out in a week or two.

Mrs. E. T. Robinson, of Waterloo, Ia., died in Omaha, last Saturday. Mrs. Robinson was Tress McCoid, ex-'16, of Logan, Ia., and a member of Kappa Alpha Theta.

Notice has been served by the military department that there will be no government uniforms given out by the war department of the United States until probably late next summer.

About eighty-five people attended the art exhibit in the gallery Sunday afternoon. Associate Professor Blanche C. Grant gave an informal talk and Miss Eva Mills assisted her in explaining the pictures.

The model for the art class in charcoal drawing this week is a girl in a Japanese costume with ornaments in her hair and carrying a large parasol. A number of the class are working on posters to be used in an exhibition later on.

Mr. Clare B. Cornell has loaned to the art department some photographs which were taken in Mexico on ancient Indian carvings and monuments. These photographs represent the sort of thing from which were taken the motifs for the exhibit of designing from the Teachers' college of Columbia university.

Arthur L. Weatherly, pastor of All Souls church, has invited the Komenky Klub to meet at his home on the evening of December 8. The Klub has accepted the invitation and the meeting will be informal. Reverend and Mrs. Weatherly aim to have each organization in school meet with them at least once a year.

As one of the first steps taken by the military department to meet the government requirements for a Reserve Officers Training Corps, the number of companies in the University regiment has been reduced from eleven to eight. By means of this reduction in the number of companies, the strength of each company has been increased to about fifty men.

DR. HOWARD FOR A DRY NATION
(Continued from Page One)

virile, forward-looking letter from Professor Howard of Nebraska must be given without abridgement. It deserves to be recognized as a classic in the literature of prohibition. Dr. Howard's letter renders special pleading unnecessary. Since it was written immense strides have been taken. Prof. Irving Fisher of Yale has come clear over to Howard's position."

NEWLANDS BILL ON LAND GRANT COLLEGES DISCUSSED BY ENGINEERS

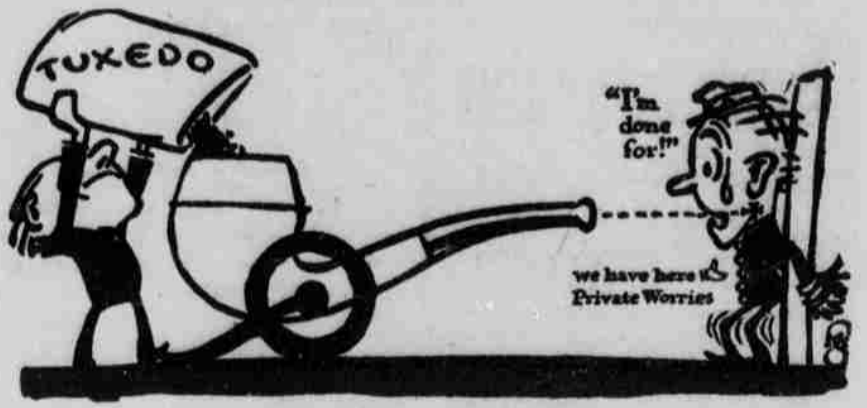

The Newlands bill providing for the maintenance of experimental stations in engineering work in the land grant colleges was the principal subject of discussion in the meeting of the En-

gineering Association of Land Grant Colleges, from which Dean Stout just returned.

The fight against the bill arises from the fact that several states have a separate state university and land grant college, as Iowa, Kansas and many others. Under the provisions of

the bill the state universities of such states will not be benefited and they want a clause extending the provisions to fit their case.

As to Nebraska, the outcome is a matter of indifference, the land grant college and state university being the same institution.
