ENGINEERING WORK FOR CITY MECHANICS
 (Continued from Page One)

anged for mechanics and shop men, treating of the use and application of drawing instruments, projection of solids in orthographic projection, isometric projection, making drawings of machine parts, and elemental machine design. Those taking the work will provide suitable instruments.

Shop Mathematics
 A lecture course on Monday evenings by Professor Warren Ichler, dealing with elementary mathematics and its application to shop problems. Subjects: (1) Fractions, decimals, compound fractions, converting fractions to decimals, etc., (2) proportion—applications in shop, (3) square root and cube root—applications in shop, (4-6) mensuration—applications in shop, (7-10) algebra, addition and subtraction, multiplication and division, simple and simultaneous equations. Those having had elementary mathematics will be given more advanced work. Maximum number of students, twenty-five.

Production and Heat Treatment of Iron and Steel

A series of practical talks on Monday evenings by Professor Thomas H. Smith, on the production of iron and steel. These will be followed by lectures on the various processes by which irons and steels are made and prepared for commercial purposes. Illustrated with lantern slides. Subjects: (1) Commercial irons and steels compared, (2) mining and transporting the ore, (3-4) blast furnace processes, (5) bessemer and open hearth steels, (6) wrought iron and crucible steel, (7-8) cast iron and malleable castings, (9-10) heat treatment of steels.

For registration and further information concerning this work one must see A. A. Reed, acting director, 203 Administration building.

The historic carriage used by Benjamin Franklin in olden times, which has been on exhibition in the state historical museum in Madison since 1893, has been formally given to the Harvard museum by Mrs. Frank Brown.—Ex.

VENUS

VENUS 10¢ PENCIL

17 Perfect Degrees from 6B Softest to 9H Hardest and hard and medium copying

Like a soft-leaded easy marking pencil? Take the higher numbered B's such as 3B, 4B, 5B. For the extreme limit of softness 6B is without an equal and is used by many as being the ideal of all pencils.

Medium degree is HB. H's are the harder grades, 2H or 3H being medium hard, and 6H, etc., being used for thin, clear, fine lines of detailings. Your professors will confirm these statements as to the merits of **VENUS** pencils.

Note the distinctive **VENUS** water mark finish when you buy.

is beautifully smooth and even in texture. It rubs out pencil marks perfectly. Gray, and does not cause discoloration. 12 sizes from 100 to a box to 4 to a box. Box price \$2.00. Venus Erasers are the best erasers. Ask for them by name. For Sale by Your Supply Store.

6,000 NEBRASKANS COMING AG WEEK

BETTER FARMING AND HOME MAKING THE SUBJECTS

Dairy Building Dedication a Feature of Organized Agriculture, January 15 to 20

While "councils of war" continue to be the order of the day in fighting Europe, Nebraska farmers and their wives will gather at Lincoln at the University farm, January 15 to 20, for a mammoth "council of peace" in the interests of better farming and home making.

The occasion for this great gathering is the annual week of Organized Agriculture, as the simultaneous meetings of twenty-eight agricultural and home economics associations of the state at Lincoln during the winter is termed. Each year, progressive country men and their wives have made this trip to Lincoln to talk over their common problems, and each year has seen an increasing attendance. It is estimated that last year more than 6,000 Nebraskans attended the combined sessions; and evidences point to an even greater attendance this year.

The list of associations to take part in this co-operative affair this year follows: Board of agriculture; corn improvers; state, county and district fair managers; conservation and public welfare commission; state dairymen; agricultural development commission; extension federation; farmers' congress; farmers' co-operative and educational union; florists; good roads; grange; hall of agricultural achievement; home economics; horticulturists; ice cream manufacturers; live stock improvers; Aberdeen-Angus breeders; dairy cattle breeders; horse breeders; Hereford breeders; Red-Poll breeders; Shorthorn breeders; live stock sanitary board; poultry breeders; pure grain and seed growers; rural school patrons; sheep breeders and wool growers; stock feeders; swine breeders; threshermen; veterinarians.

Dairy Building Dedication
 One of the big features of the week will be the dedication of the new \$200,000 dairy building, Wednesday, January 17. Members of the board of regents, officials of the University, and prominent dairymen will take part in the ceremony.

A corn show, conducted by the Nebraska Corn Improvers' association each year, will offer \$300 in cash prizes besides farm machinery, trophies, and other special premiums. A manure spreader is offered as a grand championship prize for the best ten ears of corn in the show. The corn exhibit will occupy space in the auditorium, as will the apple, flower, and potato show held under the auspices of the State Horticultural society. Exhibits for both of these shows are expected to be the largest in years.

Hon. Herbert Quick of Washington, D. C., widely-known writer on agricultural subjects and chairman of the federal farm loan board, will hold the center of the stage on Farm Loan Day, as Friday, January 19, has been named. He will give one talk in explanation of the new federal farm loan act, and another to county agents, extension workers, and others interested in assisting farmers to organize national farm loan associations.

BRIEF BITS OF NEWS

Mary M. McDowell is to have charge of the primary work at Superior, Neb. She will have charge of over a hundred pupils in two rooms.

Lora Dale is to teach in the grades at Columbus the second semester.

Grace M. Hall has been offered a position in the Junior high school of Norfolk.

50 COMMERCIAL CLUB MEMBERS FEAST

(Continued from Page One)

studies as commerce could not be taught effectively.
 Sam R. McKelvie, editor of The Nebraska Farmer, and republican nominee for governor in the primaries of the last campaign, emphasized the importance of the work done in the University by the Commercial club,

Student Activities Office

And Let Blunk Tell You How To Do It

and advised the members to prepare for work in city commercial clubs after graduation. The Commercial club of today is fast growing into a community center, Mr. McKelvie declared, and the expansion of the scope of these organizations to include the rural districts was the beginning of a new era.

The last speaker was A. W. Jeffries, an attorney of Omaha, who traced the relationship of the University commercial club to those out in the state. He complimented the club on the progress it had already made in "making itself heard of" outside the University, and recommended the continuance of this policy.

The student council at Wisconsin is considering the sending of the university ambulance into the war zones of Europe and having it manned by Badger students. Already there are four Wisconsin men on their way to the French service and will arrive at Versailles by the end of January.—Ex.

The Harvard Union reports a loss of \$8,224.87 for the fiscal year just passed. This is \$2,000 greater than the loss of last year. The largest gains were made in the restaurant, which is run on a basis of double profits.—Ex.

Michigan students took a day off before Christmas vacation started, and took baskets to nearly 60 dependent families in and about Ann Arbor. Reports say that the time spent was well rewarded in satisfaction.—Ex.

TURN YOUR SHIRT-TAILS INTO DRAWERS

OLUS

IN OLUS the outside shirt and underdrawers are one garment.

This means that the shirt can't work out of the trousers, that there are no shirt tails to bunch in seat, that the drawers "stay put," to say nothing of the comfort and economy of saving a garment. OLUS is coat cut, opens all the way down—closed crotch, closed back. See illustration.

For golf, tennis and field wear, we recommend the special attached collar OLUS with regular or short sleeves. Extra sizes for very tall or stout men. All shirt fabrics, in smart designs, including silks—\$1.50 to \$10.00.

OLUS one-piece PAJAMAS for lounging, resting and comfortable sleep. Made on the same principle as OLUS suits—cut out, closed back, closed crotch. No strings to tighten or come loose. \$1.50 to \$5.50.

Ask your dealer for OLUS. Booklet on request.
