Washington—Just before Xmas holidays a small boy of the Gamin class walked into the University meat market and went up to the counter. He barely reached the top of the counter, and his dirty patched clothes fitted the surroundings of the butcher shop. Thrusting a dirty, pudgy fist towards the butcher, he asked for a nice fat turkey to take home to his mother for a Christmas present. The fist opened and disclosed a badly worn half dollar. As he slowly realized from the butcher's words that that sum of money would not buy a turkey, two tears welled slowly out of his eyes. He turned and went out. The joy of giving was not to be his.—Ex.

**VENUS 10¢ PENCIL**  
 No matter what course you're taking you need this famous pencil!  
 BECAUSE of the superlative quality of material and workmanship, VENUS is admittedly the finest pencil it is possible to make.  
 If you like a thick soft lead that marks so that you can read the writing half way across the room, choose the soft degrees 6B-5B-4B.  
 For short-hand notes or easy writing 3B-2B-B (medium soft) are popular.  
 For sketching, general writing purposes, etc., HB-F-H-2H (medium) will prove desirable.  
 For drafting, a medium hard pencil gives the best results and you'll like 3H-4H-5H-6H.  
 For very thin, narrow lines for extremely accurate graphical charts, maps, details, etc., 7H-8H-9H are available.  
 Look for the distinctive water mark finish on each of the 17 black degrees and hard and medium copying.  
 Your professors will confirm these statements as to the merits of VENUS pencils.  
 For sale at the college book store.

Washington—Josef Hoffman is coming to Washington University the latter part of February. This has been announced by the Music Department. Before he would come, fifty of the most prominent business men of the city had to act as guarantors.—Ex.

Harvard—Editorials recently run in the Harvard Crimson criticize the "High Minded College Graduates" of our great American universities for neglecting the reproduction of their kind and causing a condition among children of intelligent parents which the writer of the editorial calls "Intellectual Race Suicide."—Ex.

Pennsylvania—If present plans being considered by the Stadium Committee carry through, the University of Pennsylvania will have a Stadium that will seat 100,000 people. This will be larger by 31,000 than the Stadium or Bowl at New Haven. Of course, this is expected to cost an enormous amount of money, but it is thought that the interest in athletics that is every day becoming more acute will justify the expenditure.—Ex.

Washington—The reasons assigned to Dobie's release from the coaching staff of Washington has been made known. It is said that he was suspended because he upheld the members of the team when they struck on a ruling of the Student Discipline Committee suspending one of their number from playing. We wonder who Dobie will have to handle his mail, for it will be thick with offers from colleges to the man who has never known a defeat. Dobie was with Washington nine years.—Ex.

Louisiana—Just as an example of military training in schools, I take the following article from the Louisiana state paper: "The non-commissioned officers have been allowed the privilege of going to town and staying the length of time allowed them, the same as the commissioned officers. Of course the privates (who compose the student body) have no such privileges, and the officers have to sign up when they leave." (Give us the student self-government, or give us death.)—Ex.

Maine—When the call went out for delegates to the Socialistic Convention to be held at New York, Maine men looked around to see who they could find to represent the Varsity, and not a single Socialist could they find.—Ex.
