### VENUS

**10¢ PENCIL**  
No matter what course you're taking you need this famous pencil!

BECAUSE of the superlative quality of material and workmanship, VENUS is admittedly the finest pencil it is possible to make.

If you like a thick soft lead that marks so that you can read the writing half way across the room, choose the soft degrees 6B-5B-4B.

For short-hand notes or easy writing 3B-2B-B (medium soft) are popular.

For sketching, general writing purposes, etc., HB-F-H-2H (medium) will prove desirable.

For drafting, a medium hard pencil gives the best results and you'll like 3H-4H-5H-5H.

For very thin, narrow lines for extremely accurate graphical charts, maps, details, etc., 7H-8H-9H are available.

Look for the distinctive water mark finish on each of the 17 black degrees and hard and medium copying.

Your professors will confirm these statements as to the merits of VENUS pencils.

For sale at the college book store.

### CHINA PURCHASING MORE DIFFICULT SAYS HOME ECONOMICS DEPT.

Purchasing of china is now a more difficult matter than ever before owing to a fluctuation of prices, according to the home economics department. China has advanced as much as 23-13 per cent in the last year.

However, though the choosing of china is much more difficult than ever before, it is still possible to secure durable and attractive china at moderate prices, especially when purchases are made at stores which had large stocks on hand a year ago.

Three considerations enter into the purchase price of china—quality, pattern and design. It pays to buy china of good quality as it is much more durable, owing to its elasticity. Pattern may often be secured in many grades, as for example the Minton pattern which is copied in plates which range in price from 10 cents to \$1.25 each. As to design, many persons often pay a premium for queer-shaped dishes with convolutions which are beautiful and which make washing more difficult.

Yale—A total of seven university credits is now allowed by the Yale faculty for military work done in the college brigade. This rule was recently passed by the faculty because of the growing importance of the military situation throughout the civilized world.—Ex.
