BE SURE YOU'RE RIGHT THEN TAKE UP WORK

So E. E. Peake, Old Student and Successful Salesman, Advises in Regard to His Profession

In speaking before nearly 300 people, many of whom were students of commerce from the University, at the Lincoln Commercial club Monday evening, E. E. Peake of Kansas City, real estate man, secretary-treasurer of the Kansas City Motor Car dealers' association, and booster for good roads, declared that no young man should set out to be a salesman unless he is sure he has found in himself the ability necessary to success in this work.

Mr. Peake was invited to Lincoln by the Lincoln Salesmanship club, of which M. H. Williams of the Cushman Motor company, is president. His subject Monday evening was, "Accidental and Premeditated Salesmanship."

The speaker declared that man is the only animal who tries persistently to do work for which he is not fitted. He declared that a bear does not try to fly; that a dog knows how wide a ditch he can jump, but that man puts his nose to the grindstone in business in which he is a misfit, and stays there, unhappy and dissatisfied, through life.

Mr. Peake attended the University for two years, leaving in 1897 to take a position selling threshing machinery in Lincoln. He moved Kansas City eighteen years ago. Last year he made 180 speeches in good roads campaigns in Missouri and neighboring states.

FACULTY MEN HELP WAR ORPHANS

CHILDREN OF FRENCH SOLDIERS TO RECEIVE EDUCATION

Campaign Carried on by "American Society for the Relief of French War Orphans"

Little children of France, whose fathers have fallen fighting in the wars, are receiving aid from several members of the University faculty in their battles to obtain an education. An attempt is made in the United States to help the mothers of these children keep them in school for at least one and, if possible, two years, at the end of which time, it is hoped that the European war will be ended.

Under the plan arranged by the national society known as, "The Fatherless Children of France," a branch of "The American Society for the Relief of French War Orphans," it is proposed to give ten cents a day for the care of each of hundreds of these orphans. This means \$36.50 a year; \$73 for two years. Several persons may join together in keeping up the contribution to care for one child. The child is not entirely reared in this way, but the small amount given by the French government and the amount the mother may earn go in to help each child.

Max Westermann, assistant secretary of the board of regents, has agreed to act as local treasurer for the Lincoln work. Leaders in the movement here hope to extend help to at least forty children.

Some Who Will Give
 Among University men who, either in the name of their children, or themselves, will contribute under this plan, are: Prof. P. M. Buck, Prof. H. B. Alexander, Director J. E. LeRossignol, Prof. Guernsey Jones, Prof. J. D. Hoffmann, Prof. W. C. Brenke, Prof. F. M. Fling, Dr. R. G. Clapp, Prof. Hutton Webster, Mr. Westermann, Rev. Dean R. Leland, University pastor, and E. L. Taylor.

Professor Jones chose as his "wards," Anna Sinquin, four years old, and Jean Sinquin, eleven years old, brother and sister, who live near Paris. He hopes to visit these children after the war.

Prof. and Mrs. H. B. Alexander will give ten cents a day for Francois Levesque, Nantes, France, an eight-year-old boy, in behalf of their son, Hubert. Edward and Caroline Buck, children of Prof. and Mrs. P. M. Buck, are to be benefactors to Juliette Babonneau, Pomeray par Vallet. Juliette is nearly three years old.

The musical Convocation tomorrow morning at the Temple theatre, at which Mrs. Lillian Helms Polley will sing, will be a treat for the music lovers of the University. Mrs. Polley,

The program for tomorrow includes selection from the work of Tschalkowsky, Grieg, MacDowell and Thomas.

The program follows:
 Legend, Tschalkowrky.
 The Little Fisher's Song, Arensky.

VENUS 10c PENCIL

No matter what course you're taking you need this famous pencil!

BECAUSE of the superlative quality of material and workmanship, VENUS is admittedly the finest pencil it is possible to make.

If you like a thick soft lead that marks so that you can read the writing half way across

the room, choose the soft degrees 6B—5B—4B.

For short-hand notes or easy writing 3B—2B—B (medium soft) are popular.

For sketching, general writing purposes, etc., HB—F—H—2H (medium) will prove desirable.

For drafting, a medium hard pencil gives the best results and you'll like 3H—4H—5H—6H.

For very thin, narrow lines for extremely accurate graphical charts, maps, details, etc., 7H—8H—9H are available.

Look for the distinctive water mark finish on each of the 17 black degrees and hard and medium copying.

Your professors will confirm these statements as to the merits of VENUS pencils.
