VENUS 10¢ PENCIL
No matter what course you're taking you need this famous pencil!
BECAUSE of the superlative quality of material and workmanship, VENUS is admittedly the finest pencil it is possible to make.
If you like a thick soft lead that marks so that you can read the writing half way across the room, choose the soft degrees 6B-5B-4B.
For short-hand notes or easy writing 3B-2B-B (medium soft) are popular.
For sketching, general writing purposes, etc., HB-F-H-2H (medium) will prove desirable.
For drafting, a medium hard pencil gives the best results and you'll like 3H-4H-5H-6H.
For very thin, narrow lines for extremely accurate graphical charts, maps, details, etc., 7H-8H-9H are available.
Look for the distinctive water mark finish on each of the 17 black degrees and hard and medium copying.
Your professors will confirm these statements as to the merits of VENUS pencils.

Nor have we allowed the unusual market conditions to prevent us from maintaining absolutely the well-known Herpolsheimer standard of qualities and values.
