UNIVERSITY OF NEBRASKA, LINCOLN, THURSDAY, APRIL 12, 1917.

PRICE FIVE CENTS

RUTHERFORD TO COACH WASHINGTON

ASSISTANT COACH ACCEPTS ATHLETIC DIRECTORSHIP THERE

Will Have Complete Charge at St. Louis Institution—His Athletic Career a Striking One

Dick Rutherford, assistant coach and former Cornhusker star, has accepted a position as athletic director at Washington University in St. Louis. Rutherford notified the authorities there of his acceptance Tuesday night after the athletic board failed to meet and take action on his application for a dismissal.

Rutherford will take up his work about September 1 and will be in complete control of all athletic work.

In addition to receiving a larger salary than he has during the past year, Rutherford will have the advantage of working with new and up-to-date equipment in all lines.

Nebraska's Great Star

With the going of Rutherford Nebraska loses the one great, out-standing athletic star in his history. There is no form of athletics at which Rutherford is not a master hand, and he left a very remarkable record behind him when he graduated last spring. Rutherford has never played in a football game that Nebraska lost; he was on three Missouri Valley championship basketball teams; and was twice western intercollegiate champion wrestler in the 158-pound class. He is far above the average as a gymnast, tennis and baseball player, and is one of the best handball players the University.

Phillips Brooks Symposium

A Symposium of the life of Phillips Brooks club to be held in Faculty hall this morning at 11:30. It will include the following: His life, J. A. Kline, '20; his ministry, Knute Carlson, of the political science department; sayings of Brooks, Ray Cowen, '19; representative American, Mr. Miller. All those interested are invited to attend.

FACE PROBLEM OF PLACING MEN

Baseball Coaches Must Choose the Proper Man and Place—Varsity Wins Scrub Game

The baseball situation is becoming more complex daily; complex from the standpoint of choosing the proper man for the right place. There are several candidates out for every position and all play a good brand of ball.

Six pitchers have put in an appearance so far. They are: Pickett, Riddell, Mackey, Bergquist, Crowner and Reynolds. None of these men have done much at curve ball pitching to date, devoting their time to control and speed.

Thiesen, Schumacher and Brown showed up for practice yesterday afternoon and got into the scrimmage for a little work. These three men have had more than the average experience and give promise of developing into valuable material.

The varsity lined up against a combination scrub and Lincoln high school team yesterday afternoon for a long scrimmage. The first team started strong and finished the same way, having things about as it pleased throughout.

NEBRASKA GYMNASTS TAKE HIGH RANK

Chicago's Winning of National Championship Places Nebraska, Third in Western, Among the Strongest

The University of Chicago gymnastic team which won first place at the western intercollegiate meet held at Iowa City three weeks ago, easily won the national intercollegiate gymnastic championship in competition with the leading eastern colleges last week.

The Nebraska gymnastic team which, because it took third in the western meet, ranks among the highest teams in the country.

FOUR RECRUITS FROM STUDENTS

Regular Army Office Announces Enlistments—U. S. Gray Leaves for Naval Training Station

Four new recruits in the infantry, cavalry, and signal corps branches of the regular army, have been announced by Sergeant C. Washer, officer in charge, as students in the University. They are: Titus R. Davis, '20, of Lincoln; Guy H. Moates, '19, of Plainview; Clyde M. Krebs of Grand Island, and Lester Robinson, ex-'18, of South Omaha.

Davis was the only student among those who reported at the regular army headquarters yesterday who was accepted. He enlisted as a cavalryman. Moates and Robinson left Tuesday afternoon for Fort Logan to go into training. Moates for service in the medical corps, and Robinson in the signal corps. Krebs enlisted in the infantry.

Complying with the order issued by the war department during vacation, the department of electrical engineering has dismantled the wireless station maintained at the city campus. This wireless station reached Prescott, Ariz., 950 miles distant, at one time.

One student, Ulysses S. Gray, '20, of Atalia, Ala., was called by the order for the members of the naval reserve to mobilize. He left Wednesday morning for Great Lakes, Ill., for three months' service in the naval training corps.

PROFESSOR GRANT TO LECTURE ON EXHIBIT IN GALLERY TONIGHT

Prof. Blanche C. Grant, associate professor of drawing and painting, will lecture on the present art exhibit Thursday evening in the art gallery. This is the annual exhibition of representative paintings of American artists.

The art department wishes to call attention to the fact that all students who wish to obtain season tickets to the exhibition may get them for half price, fifty cents.

LLOYD SHARP DIED OF PNEUMONIA TUESDAY

Death Comes After Brief Illness at His Home in De Witt—Was Sophomore Engineer

Lloyd L. Sharp, a sophomore in the college of engineering, died of pneumonia at his home in De Witt Tuesday evening, according to word received by University friends yesterday.

Sharp was taken ill during spring recess, and had been sick but a short time when he died. The funeral will be held Friday at De Witt.

IMAGINATION VITAL IN SUCCESSFUL LIFE

DR. EDWARD MIMS PAYS TRIBUTE TO POWER OF MIND VISION

Delivers Address Before Joint Meeting of Phi Beta Kappa and Sigma Xi

Imagination, as Seen By Dr. Edwin Mims

Not memory—but it rolls away the mists and makes the old, loved, familiar faces look down upon us.

Not logical analysis—but continually illuminating the soul by intuition and insight.

Not will—but what else so helps us to move toward definite achievement?

Not faith—but it makes creeds become realities.

Not perception or conception—but it adds vividness to all that we see.

"No man can be a leader who does not appeal to the imagination of men; nor can a movement be made to prevail unless it is rooted in this imagination."

Dr. Edwin Mims, professor of English at Vanderbilt, speaking at the Temple theatre Wednesday evening, set forth an appeal for appreciation of the vital power that he said imagination yields "in cultivating religious, business, social and national life." It was to members of Sigma Xi and Phi Beta Kappa at their annual lecture meeting that Dr. Mims delivered his message.

Imagination Works With Reality That we can read books but cannot make them live without imagination and that books are the dearest of dead things to most people was the belief set forth by the speaker.

ANTI-DRILL MEN DISSOLVE LEAGUE

EXECUTIVE COMMITTEE ADOPTS OFFICIAL RESOLUTION

Hold Heated Discussion over Just What Form Resolution is to Take

The University league to abolish compulsory drill, formed last winter to work for the abolishment of the compulsory system of military science in the University, was yesterday dissolved by the official action of the executive committee, which adopted resolution announcing that, in view of the present situation the league declares itself disbanded.

A heated discussion lasting over an hour followed the assembling of the committee at the call of Anton Jensen, '18, president. Although the entire committee favored dissolution under existing circumstances, the contents of the resolution which would identify the position of the league formed the bone of strong contention. The question of internationalism early entered into the argument and divided the committee into two factions. The resolution merely covering the fact that the league declares itself dissolved, passed by a vote of 4 to 2.

Against Militaristic Tendencies Although disagreeing widely as to just what should be interpreted as the league's attitude toward the present preparations for military service, all of the members, according to President Jensen, agreed that there should be no measure passed to handle the present emergency which would give America in ensuing peaceful years a systematized militaristic policy such as the one which America has now entered the war to help to crush.

Following is the resolution: "Be it resolved by its executive committee that in view of the present situation, the University league to abolish compulsory drill declares itself dissolved."

CO-ED WOULD BE RADIO OPERATOR

Helen Minier, '20, of Oakland, applies at Naval Training Office

One University co-ed has asked to be given a chance to enter active service for her country. Helen Minier, '20, of Oakland, yesterday filled out an application blank at the naval training association offices for the position of radio operator. Her application will be acted upon immediately. Miss Minier says she is anxious to go to the training station at Great Lake, Ill., to prepare herself for service.

Other University co-eds will serve their country through the woman's naval reserve by replacing men called to the front, and by making bandages and supplies.

DR. STIEGLITZ BEFORE SIGMA XI SATURDAY

Head of Chemistry Department at Chicago University Will Give Address

Dr. Julius Stieglitz, head of the department of chemistry of the University of Chicago, has been se-

ANNUAL CADET INSPECTION TODAY

Colonel Penn of the Regular Army Will Review Cadets on the Athletic Field This Afternoon

Rifles and bayonets are being cleaned, uniforms pressed, shoes shined and clean collars being obtained by the cadet regiment of the University for the annual inspection by Col. Julius A. Penn of the regular army.

Cadets "fall in" at 2 p. m. today and are excused from further classes for the day.

Colonel Burnham reviewed the regiment Wednesday in preparation for the review and inspection today. The band will be out in uniform. The student body and public in general is invited.

Dr. Stieglitz is a noted authority on chemistry and is now president of the American Chemical society as well as president of the national chapter of Sigma Xi.

PRaises NEBRASKA TYPE OF PHARMACOLOGIST

Prof. A. D. Hirschfelder, Pharmacy Department Head, Writes for Assistant Instructor From Nebraska

Dean R. A. Lyman received a letter from Prof. Arthur D. Hirschfelder, head of the department of pharmacy in the University of Minnesota asking for a man to fill the position of assistant instructor in pharmacology there. He spoke very highly of the type of men coming from Nebraska especially, and mentioned in connection M. B. Chittick, '17, an assistant at Minnesota.

The following is quoted from Professor Hirschfelder's letter: "I am hoping to develop the chemical side of pharmacy and I believe the Nebraska type is the best type of man available in the west."

ALPHA SIGS ARE BOWLING CHAMPS

WIN INTERFRATERNITY TITLE FOR THIRD SUCCESSIVE TIME

Defeat Delta Upsilon, Runners Up, On Y. M. C. A. Alleys Last Night—Take All Three Games

Alpha Sigma Phi, for two years interfraternity bowling champion, again clinched the championship by defeating Delta Upsilon, its closest competitor, on the Y. M. C. A. alleys last night. All three games of the match went to the Alpha Sigs. The D. U.'s, who started out in the lead in this year's tournament, failed to live up to their reputation and were more than 200 pins behind on the final count.

Crandall of the Alpha Sigs was high man, with a score of 205, which was the only big mark of the evening. A better average maintained by all the men on the team won the match.

Slow Game for Championship Compared with some of the earlier work of both teams, the showing made in the championship battle was disappointing.

Following is the score in detail:

Delta Upsilon			
L. Weaver	175	163	154
Nims	159	120	176
Wenk	142	170	159
Owen	155	171	121
E. Weaver	146	155	188
Totals	777	779	198

Alpha Sigma Phi			
Angell	179	167	142
Crandall	205	177	155
Langdon	190	139	199
Gayer	177	170	127
Dobson	180	180	182
Totals	961	833	805

CONVOCATION

The University of Nebraska Girls' club will have charge of Convocation this morning in the Armory at 11 o'clock. Members of the club will nominate officers and board members for next year. The present board has already made some nominations, and the club will add two members of the club from each class to the list. A musical program will also be given.

Louise Coe, '17, of Nebraska City, president of the club, will preside. Gertrude Munger, '19, Helen Possner, '18, and Dorothy Rhodes, '18, are among those on the musical program.

CARE OF FOOD FIRST WAR STEP

CHANCELLOR AVERY SAYS THIS IS STATE'S PRESENT DUTY

Farmers and Food as Important as Fighting Men—Students Can Practice Economy

Moderation in the use of food, careful conservation of the supply on hand, and intensive cultivation of Nebraska's acres to produce a bigger crop yield, will be the first thing this state will do to help the cause of the United States in the war, according to Chancellor Avery, who returned yesterday afternoon from a conference of agricultural experts of the middle west, called at St. Louis by Secretary of Agriculture Houston.

The thing that the college student can do to help along this program, as important to success as the enlistment of a large army or the winning of many battles, is to stay on the farm, if he is a farmer, is to preach and practice economy, and encourage insofar as he can, more and better tilling of the earth. The college man who has spent his summers in the past selling books or clerking in the dry goods store, can show his patriotism this summer by working on the farms, and helping garner the crops that will make up the food supply of the coming year.

Food Problem the Big One The men who met at St. Louis recognized very clearly, the chancellor said, that the food problem was the big one the country had to face. Last year the United States consumed and exported more than it produced, meaning that it not only use up the 1916 crop, but it made heavy inroads into the surplus. The nation this year faces a heavier demand upon its food resources, with the possibility of fewer farm laborers.

The failure of most of the winter wheat crop, and the heavy losses to stock during the winter, add to the critical aspect of the situation none to good. So the men returned from the St. Louis meeting bearing the message of more farming, bet-

ANOTHER SALE OF CORNHUSKERS

Management Will Sell Books at Old Price, \$3, on Monday and Tuesday

Because many students delayed their orders for the 1917 year book until after the close of the campaign and were denied the advantage of the \$3 price, the cornhusker management has announced that on Monday and Tuesday of next week students may buy the book at the old price by paying half of it down.

Following the close of the campaign just before recess, the management was so besieged with requests for the book at the old price that it was deemed advisable to make this concession to every one. It has been definitely announced, however, that no books will be sold for less than \$3.50 after Tuesday of next week.

The first sales campaign was fairly satisfactory, running about even with that of a year ago, but it is necessary to sell several hundred more annuals this year to pay out because of the increased cost of materials and printing.

FIRST CHANCE
