HUSKERS TAKE FIELD

(Continued from page one)

A Probable Lineup

A probable line-up of a team that should be able to give a good account of itself, from among the men who have been out to practice, can easily be picked. At the center of the line would be either Young or Shaw, both members of last year's freshman team. At the guards would be Munn, Young, Kriemelmeyer or Teeters. For tackle there is a fixture in the person of Captain Shaw; and for the other side of the line, there are DuTeau and Hubka. On the ends, Riddell and Rhodes are almost certain fixtures, although Henry will give either of them a fight for the place.

In the backfield there is excellent material for every position. For quarterback there are McMahon and Cook; the one a veteran and the other a youngster with lots of speed and nerve. The rest of the backfield can be picked from such men as Schellenberg, Kellogg, Dobson, Otoupalik, Dan and Henry. Such a team would have all the requisites of a first class eleven. There would be plenty of punters with Dobson, McMahon, Munn and Otoupalik to take turns, Munn and Captain Shaw could be depended upon for a good try at place kicking whenever it was needed and there are several men to receive and throw forward passes. Speed would be personified and weight would not be lacking in the line.

Just whether the team will line up this way when the season has gotten under way or not can not be told yet. Some of the men may have developed unknown ability during the summer and may appear qualified to play different position than they occupied last year. One thing is certain, unless something in the way of a cruel flax step in and stops the proceedings, Nebraska is to have a winner in spite of all the strong teams she is to play.

FORMER NEBRASKAN IS NOW MINNESOTA DEAN

Succeeds Another Alumnus in Agricultural College

Professor Roscoe W. W. Thatcher, '98, assistant director of the Minneapolis experiment station, chief of the division of agricultural biochemistry, and professor of plant chemistry, has been made dean of the college of agriculture of the University of Minnesota.

Dean Thatcher succeeds Albert F. Woods, '09, who is now president of the Maryland college of agriculture. Dean Thatcher was formerly president of the American society of Agronomy. He is a member of Phi Beta Kappa, Sigma Xi, Gamma Sigma Delta, Alpha Zeta, Alpha Chi Omega and Alpha Theta Chi.
