UNIVERSITY TWINS' CLUB TO SUPPORT FRENCH TWINS

Decide at Last Meeting to Support
Orphans for at Least
Two Years

The University Twins' club decided to support a pair of twins in France for one year and possibly for two years, at their last meeting at the home in Imah and Irmah Hoffman. The club prefers boy twins, it is said. About twenty were present at the meeting.

OUR LETTER FROM FRANCE

Fred C. Farr, M. E. '19

"Somewhere in France," Sept. 29, 17
"We have been in our present camp about three weeks now. I don't know how much longer we stay here. I hope we move as I want to cover as much of the country as I can. We have a pretty good place here and have access to a picture show which holds forth in an old barn. They have American films and Charlie Chaplin, Fatty Arbuckle and others are with us every week. They are surely welcome.

"I have not seen any civilians for about six weeks, so you see I don't step out in society very much, but as small bunches are now being allowed to visit a large place near for a day each week, I have hopes of seeing something of the lighter side of life. "Another bunch are having a little game of poker. It is the best way I know of learning the use of this French money. The bills look like soap wrappers.

"We have been having beautiful weather. The nights are beastly cold, but the days are fine. I surely hate to have the rainy season start as I understand the mud is usually about knee deep during the west season.

"Send me the Rag once in awhile. "Say howdy for me to the boys I know who are there this year, and give my best to the folks and neighbors."

Yours,
FRED C. FARR.

Dr. Geo. E. Condra of the geography and conservation department has received a long letter from Jack Lyons, former student and employer in that department, now in London. Lyons went through Fort Snelling and received a commission in the infantry, but was later transferred to the aviation section. He writes that he has taken thousands of feet of films of aviation work for the government.
