UNIVERSITY OF NEBRASKA, LINCOLN, FRIDAY, NOVEMBER 16, 1917.

PRICE FIVE CENTS

JUNIORS TAKE FIRST CLASS BATTLE 19 TO 0

Juniors Humble Seniors 19 to 0 Direct and Intercepted Passes Bring Touchdowns

SENIOR TEAM LACKS PUNCH

Freshmen Meet Sophomores Tuesday Afternoon—Championship Decided Next Saturday

In the first game of the inter-class football series, played yesterday afternoon, Coach Paul Dobson's team of juniors triumphed over Coach Otoupalik's aggregation of seniors, by a score of 19 to 0.

The juniors' points came from three touchdowns and one goal from touchdown. Their first touchdown came in the first quarter. After the juniors came within striking distance of the seniors' goal by means of line smashing, Pickett made a long pass to Brown, who raced across the line. The try at goal failed. During the next two quarters, the two teams played back and forth across the field, neither side able to score. In the fourth quarter, Jackson nabbed a pass from Pickett, and crossed the seniors' goal for the second touchdown of the day. Hopkins kicked goal. A little later in the quarter, Glenn Hopkins intercepted a forward pass, and ran half the length of the field for the third touchdown.

Juniors Show Strength

For class teams the game was exceptionally well played. The juniors outplayed their opponents in all departments. In the last quarter, the seniors took a brace, and for a time, it looked as if they might score, but they failed to gain at critical moments. The aerial route was used throughout the game by both sides, but the juniors got away with their passes better. Pickett, Brown and Jackson with their forward passing, were the most consistent ground gainers for the juniors. Thomas, for the seniors, and Liebers for the juniors, handled their teams well at quarter. Andrews did good work for the senior line and Towle made several plunges for good gains.

Summary

The summary of yesterday's game follows:

Juniors	Position	Seniors
Reed	RE	Sutherland
Willetts	RT	Brenker
Hadley	RG	White
Harlan	C	Andrews
Thiesson	LG	Urbach
Reese	LT	Kirsch
Jackson	LE	Garrison
Liebers	QB	Thomas
Pickett	FB	Jones
Starboard	RH	Towle
Brown	LH	Sturm

Substitutions: Seniors, Beede for Garrison. Juniors: Finney for Hadley, Reynolds for Willits, Hopkins for Starboard, Stevens for Reed, Kline for Finney, Hadley for Kline, Burquist for Hopkins.

Officials: Referee, John Riddell; umpire, Owen Frank; head linesman, H. D. Muneke; timekeeper, Anderson.

Time, ten minute quarters. The freshmen and sophomores will play their game Tuesday afternoon at 2 o'clock. This is expected to be an unusually hard-fought game. Both sides have some good material out, and have been practicing hard. The sophomores are being coached by Lawrence Shaw, Farley Young and Harold McMahon, and the freshmen by Ted Riddell.

The juniors will meet the winners of the freshmen-sophomore game on November 24, to decide the final championship. The winning team will be awarded sweaters by its classmates.

STRICKLER TO LECTURE ON CHRISTIAN SCIENCE

Local Society Extends Invitation to University Public for Meeting Tomorrow Night

Mr. Virgil O. Strickler, C. S. B., of New York city will deliver the annual lecture of the University Christian Science society in Temple theatre, tomorrow evening at 8:15 o'clock. More than usual interest attaches to his lecture. Besides being a recognized authority on Christian Science, he is a former resident of this state and has

many friends here. His wife is a daughter of Dr. and Mrs. A. L. Hoover of 2718 Sumner street, Lincoln.

Mr. Strickler is an alumnus of the University of Virginia. He practiced law in Omaha for a number of years, and latter in New York city. There he became a student of Christian Science and with characteristic energy and directness gave up his law practice and soon attained prominence in that movement in the metropolis. Mr. Strickler is now in his seventh year as a member of the authorized lecture board of the international Christian Science organization.

Hereditary Characteristics of Rats

A case containing rats is being put up in Bessey hall for public exhibition to show the hereditary characteristics of animals.

Professor Castle of Harvard has carried on experimental work with animals to show the law of heredity. Mendel is supposed to have discovered this law of heredity about 1865 but it was lost and not rediscovered till 1900. Since then zoologists have been performing many experiments to prove it. The law states that characteristics of animals can be mixed up, taken apart and recombined in successive generations. Professor Castle in his work has shown that the characteristics of animals always reappear in the second generation. The knowledge of this law of heredity is very valuable for by following it we can separate or recombine characters and get new races.

Y. M. C. A. MEMBERSHIP PARTY TOMORROW NIGHT

Social Good Time and Get-together Meeting Planned for All Students

The first Y. M. C. A. membership party of the year will be held in the association rooms tomorrow night. This is to be one of a series of similar entertainments to be given by the association throughout the school period. One of the chief purposes of these meetings is to allow students some means of broadening their university associations and to acquaint them with the various men and activities in school as well as make them familiar with the Y. M. C. A., its ideals and the things it is attempting to do.

The Y. M. C. A. at present is offering one of the most active and interesting fields in the war and is one of the most attractive of university activities due to the amount of training and first-hand experience that its members receive.

Saturday night's party will be in the nature of a "get-together" meeting but plans are also being made to celebrate the Cornhusker victory over the Jayhawkers. All members are urged to be present and encourage their friends to attend with them.

MINNESOTA STUDENTS TO CHEER SNELLING SOLDIERS

A commission has been appointed at the University of Minnesota to organize the talent of the university into a definite body of entertainers to cheer up the home sick soldiers at Fort Snelling. All students of special talent are being urged to register for service. Dr. Anna Phelan of the public safety commission has charge of the work. All entertainments will be given both on the campus and at the fort.

Pharmacy Board Holds Annual Examinations

The state board of pharmacy held its quarterly examination in the laboratories in the basement of Nebraska hall Wednesday and Thursday of this week. Only fourteen men from over the state took the examination to practice pharmacy. Under normal conditions there would have been fifty or sixty. There are so few because a large per cent of the pharmacists of this country are in military service. More positions for women are open along this line than ever before. Dr. R. A. Lyman, dean of the Nebraska College of Pharmacy, says that the pharmacists in the future will be greatly handicapped unless the women offer their services and that there should be more University girls in this department.

Mr. H. G. Brady, '12, now a sergeant in 144th Aerial Squadron, Kelly Aero field, South Antonio, Texas, was a guest of the University Thursday. Mr. Brady has just entered the aero school and at the end of six weeks will receive his commission.

STUDENTS LEAVE TONIGHT ON CORNHUSKER SPECIAL

Over Two Hundred Loyal Supporters to Boost for Team at Lawrence

Over 200 Cornhusker students will leave tonight for the scene of the Kansas-Nebraska battle which will take place on McCook field at Lawrence tomorrow.

Sleeping accommodations have been provided and other facilities for the convenience of the travelers have been arranged for. The special will leave from the Union Pacific depot at 10 o'clock tonight and will arrive in Lawrence early tomorrow morning.

The band will have a car reserved on this special, and a number of University officials will accompany as chaperones. Besides the delegation leaving on the special there will be a large number of persons taking different routes that will witness the game tomorrow afternoon. Kansas City reports the reservation of a section of seats by Cornhusker alumni.

Eleven students succeeded in winning free trips to the game from the Colleg Book store and two women were given tickets as prizes in the recent Awgwan campaign. The presence of so many loyal Cornhusker students and alumni will be a great factor in the determination of Saturday's issue. The rivalry between the two schools has been greatly increased by the victory which the Jayhawkers gained over last year's eleven and college spirit will undoubtedly run high during the course of tomorrow's contest.

Possibly the greatest element of support to the team will be the band. It has been argued before and after the Michigan game that the team and the band had to fight together and that victory could not be guaranteed without the band. Accordingly the University authorities have seen fit to allow Professor Cornell's musicians to accompany the squad and lend the peculiar psychological support that Stewart claims is necessary in such games as the one to be played tomorrow.

Silver Serpents to Give Party for Junior Girls

Silver Serpent, junior girls' society, extends an invitation to all junior girls to attend a party Saturday afternoon, from 2:30 until 5 o'clock, at the Alpha Xi Delta house, 1527 M street. The committee hopes that all the girls

Y. M. C. A. WAR WORK

The hold that the army Y. M. C. A. is taking on the men of the camps is shown by the sentiment contained in a number of telegrams received from officers of Omaha units in Camp Dodge, Des Moines.

Amos Thomas, former Omaha attorney, now major of cavalry at Camp Dodge, says in his telegram:

"During the hours the men have to themselves the Y. M. C. A. buildings uniformly appear to be crowded. There always seems to be some sort of wholesome entertainments going on within. The buildings are the common meeting points of the men and serve as places for them to write home, meet their friends and families, etc. The army Y. M. C. A. is playing an important part in keeping up the spirit of the men."

Captain H. "Mac" Baldrige, Battery F, has this to say:

"If you could only see the large Y. M. C. A. buildings placed every quarter of a mile here at camp filled with men every night, reading would realize as I do the unmeasurable amount of good that this organization is doing in the army."

"The point is more strongly brought home when I see the only other place of recreation for the men in the city of Des Moines... Pool halls, dance halls and other sources of temptation that always follow the army are in a strong contrast to the wholesome atmosphere of the army Y. M. C. A. In my mind it fills the greatest need of our great problem today."

of the third-year class will be present, as this will be an opportunity for the juniors to become better acquainted and to enjoy an afternoon together as a class. Dancing, a short program, games and refreshments have been arranged for the entertainment. Ten cents admission will be charged.

Drug Plants at Michigan

Dr. Henry Kraemer, who is head of one of the departments of the college of pharmacy at the University of Michigan, has written Dr. R. A. Lyman, dean of the college of pharmacy of this University, that they have acquired three acres of land upon which they are going to establish a drug-plant garden. Dr. Kraemer has written for seeds to use in planting the garden at Michigan. He will be supplied with different varieties from our own garden.

Robert Waring, '19, who left for the officers' training camp at Snelling at the first call for university men last spring writes to Dean Hastings that he finds army life quite agreeable and that there are no longer any remains of "pacifism" in his system.

Waring is now stationed at Camp Cody, N. M., and makes a favorable report on the conditions there. He indicates that the work is interesting and improving daily. There is much other information of interest contained in the letter but the censor has placed his stamp of "personal and not for publication" upon it.

IRON SPHYNX PARTY AND SOPH HOP CANCELLED

Executive Dean Uses Drastic Measures With Soph Men for Pre-Olympic Conduct

The Iron Sphinx party and the sophomore hop will not be given this year according to the order of the executive dean, C. C. Engberg, made public yesterday. The dean notified the chairman of the party, Ray Bodwell and the president of the Iron Sphinx that these two functions of the sophomore class would be cancelled from the social calendar this year.

The reason for such measures being taken is the conduct of the second-year men before the annual class scrap last Saturday. Friday night was spent by the sophomores in reducing the number of freshmen that might enter the Olympics the following day. During the course of the elimination processes a number of carloads of sophomores pulled up along the city Y. M. C. A. where the freshmen had blockaded the streets by placing ladders across them, thus preventing the Sophs from going any further. It was here that the accident occurred to Earl Colton who fell in front of the car driven by Kenneth Saunders.

Battles before the Olympics was severely criticized by the executive department of the University last year when similar acts of the sophomores were made the subject of complaint.

This is a custom which the authorities are determined to eliminate and these measures are taken with the class of this year to give due warning to the freshmen who will occupy their places next year.

The sophomore hop was scheduled for January 4 at the Lincoln and the Iron Sphinx party was to be held November 23.

Harding Is Elected Civil-Engineering Vice-President

P. O. Harding, '18, was elected vice-president of the civil engineering society at a meeting of the society Wednesday evening, to take the place of F. R. Hall, '18, who has left school to join the army. After the business meeting of the club, G. Lindsey of the state conservation and land survey commission gave an illustrated lecture on tractors.

Lindsey had intended to tell of the irrigation project of western Nebraska but the film which illustrated the talk did not arrive. Some of the pictures that were shown were of Nebraska's good roads, pictures of the recent tractor show at Fremont and some of the Oregon football trip.

Dellian Society

The Dellian Literary society will meet Friday evening, November 16, at 8 o'clock in the Banquet room of the Temple. A patriotic program has been arranged and all are invited to attend.

HUSKERS PRIMED FOR CHAMPIONSHIP GAME

Finishing Touches Administered Last Night

SEASON'S BEST LINEUP

Jayhawkers Have Best Team in Years—Confident They Will Humble Nebraska Tomorrow

Finishing touches were put on the Cornhuskers in yesterday's practice, polishing the team play of the eleven that is to battle the Jayhawkers Saturday. A few loose screws were tightened, a part sand-papered in one place and another was smoothed off, in another and the entire machine was given an oiling, consisting in instructions from the coach.

Nebraska will undoubtedly go into the game Saturday with as strong a lineup as she has had at any time this season. Captain Shaw and Riddell will start the game and Otoupalik will either start or be on the sidelines ready to get in if he is needed. The only thing that is troubling the coach and team is the strength of the Kansas team. And that is causing a big worry in the Cornhusker camp.

All avenues for alibis from the Kansas camp have been closed by statements issued from Lawrence in the past week to the effect that the Jayhawk eleven this year is admitted by coaches and players and the whole school to be the best that has represented the Sunflower state institution in many a moon. They are even overlooking the departure of Coach Olcott, declaring that Coach Bond has filled the old coaches place with entire satisfaction and that the absence of Olcott will not effect the chances for a Jayhawk victory.

Danger of Over-Confidence

Nebraskans, on the other hand, although claiming no physical weakness in their eleven are forced to admit that with the large number of youngsters occupying berths, that are on the team, and with the tendency of these same new men to become over-confident, there is a big possibility of a defeat looming up in the immediate distance.

Just what kind of a lineup will be sent against Kansas is a puzzle even this late in the week. Coach Stewart has been changing his men from position to position during the past week and has not decided just what men he will use nor where he will use them. If it should rain between now and the time for the game tomorrow afternoon he will probably use the most weight can muster. If, however, the field is dry he will probably depend on fast men to advance the ball and stop the attacks of the Kansans.

Following is the regular Kansas lineup and the possible Nebraska lineup:

Neb.	Position	Kas.
Rhodes	LE	Laslett
Kriemelmeyer	LT	Nettels
Wildler	LG	Jones
Day	C	Hull
Munn or DuTeau	RG	Dennis
Shaw (c)	RT	Frost
Riddell	RE	Lonborg
Cook	QB	Foster
Schellenberg	LH	Pringle
McMahon	RH	Mandeville
Dobson	FB	(c) Nielsen

Word has been received from Joseph M. Elwell, ex-'18, who is now at Camp Funston, Kas. He says that he has already been made sergeant but that his company is now in quarantine for spinal meningitis. As this is a serious and very contagious disease special care has to be taken in the camp to prevent it from spreading.

STUDENTS GIVE SEND-OFF FOR DEPARTING HUSKERS

Coach Stewart Tells of Prospects—Captain Shaw Tells of Team's Spirit

Although the plans for the rally and send-off to be given the Cornhusker squad before their leave to the enemy's territory were interfered with last night by the change in the train schedule from the Union Pacific to the Missouri Pacific there were still enough students present to assure the
