**MARION HOMPES WINS
AWGWAN'S FREE TRIP**

Gets Seventy-five Subscrip-
tion in Subscription Campaign
Which Closed Last Evening

The Awgwan subscription campaign closed last night at 5 o'clock after a very close and exciting race between a large number of hard-working co-eds. Marion Hompes and Mary Eastham sold the greatest number of subscriptions for the paper.

The winner won the first trip to Kansas by the small number of nine subscriptions over the number sold by the second highest. Marion Hompes took seventy-five subscriptions and Mary Eastham, 66. Carolyn Reed was third in the race. The first prize consists of a round-trip ticket to Lawrence and return with Pullman fare included. It was not expected at first that more than one trip would be given, but on account of the closeness of the race, the management decided to award a second trip. It will consist of a single-fare ticket to Lawrence with Pullman included.

The campaign was undoubtedly a great success. Probably more than 150 subscriptions were taken by the sixteen or more girls who were trying to win the prize. This was the figure given out last night by the Awgwan management, but many of the girls had not yet reported. It is expected that the total number of subscriptions sold will reach as high as 200.

THE WAR TAX IN DENVER

Judging by the Denver papers the theaters there did not adopt a uniform rule of action, as did the eight Lincoln theaters, but the people there—as here—are paying the tax cheerfully. Says the Denver Express:

"War taxes—paid in pennies—are making theater-going interesting these days. Sometimes you have shining copper change. Sometimes you don't, and this uncertainty combined with per cents and seat price reduction and forgettings and reminders make the whole process of seeing a show much more exciting and complicated than before.

"In the foyer of the Orpheum Tuesday night, money changing slowed up the machinery of ticket selling, so that the line of ticket-buyers and taxpayers trailed out into the street for a time. The 10 per cent amusement tax doesn't seem to deter the public from seeking enjoyment and pleasure at the Welton vaudeville theater, at any rate." —Adv.

**DAVID SAPIRSTEIN AT THE OR-
PHEUM THURSDAY**

"A six-day pianist may not be a fixture like an eight-day clock, but he may gain fame in two days less. It is an onslaught on fame of the most remarkable sort that David Sapirstein is making with his recital a day for the week. Mr. Sapirstein was already known as an American pianist of great accomplishment, and there the matter rested. If he goes through the herculean labor he has set himself, he will wake up Sunday morning famous as well as admired. He was a musician and pianist last Sunday. Next Sunday he will be also a man of nerve and iron. Quite aside from the endurance demanded, Mr. Sapirstein's undertaking deserves serious attention because of the programs he has selected. If Mr. Sapirstein's feat is a wrong one ought to be a shame to them. Pianists cannot do better than profit thus far by the example of this leader to the eminent pianists, his pretried youth and play the unfamiliar music, new and old, that their audiences crave."—New York Globe, January 20, 1915. —Adv.

Stationery, Engraved Visiting Cards, Invitations, Dance Programs, Place Cards, Christmas Greeting Cards. "The Store That Sells the Best For Just a Little Less"

ACHIEVEMENT

Twenty-five years ago the General Electric Company was founded.

Since then, electricity has sent its thrill through the whole structure of life.

Eager to turn wheels, to lift and carry, to banish dark, to gather heat, to hurl voices and thoughts across space, to give the world new tools for its work—electricity has bent to man's will.

Throughout this period the General Electric Company has held the great responsibilities and high ideals of leadership.

It has set free the spirit of research.

It has given tangible form to invention, in apparatus of infinite precision and gigantic power.

And it has gone forth, co-operating with every industry, to command this unseen force and fetch it far to serve all people.

By the achievements which this company has already recorded may best be judged the greater ends its future shall attain, the deeper mysteries it yet shall solve in electrifying more and more of the world's work.
