PRICE FIVE CENTS

STRICKLER GIVES LECTURE ON CHRISTIAN SCIENCE

Large Number Hear This Noted
Speaker at Temple

LOCAL SOCIETY IN CHARGE

Fundamental Laws and Principles of
the Science Explained in Clear
Interesting Manner

The annual lecture of the University Christian Science society was given in the Temple theatre Saturday night by Virgil O. Strickler, C. S. B. Mr. Strickler is a member of the board of lectureship of the Mother Church, the First Church of Christ, Scientist, in Boston, Mass.

Mr. Strickler is an alumnus of the University of Virginia. He took up the study of Christian Science in New York City and soon attained prominence in that movement in the metropolis. He is now in his seventh year as a member of the authorized lecture board of the International Christian Science organization.

Mr. Strickler in his lecture said:

As it becomes more generally understood that through the ministry of Christian Science people are being healed of sickness, sin, unhappiness, worry, fear, and other discordant conditions, there is an ever-increasing desire upon the part of the general public to learn how these results are accomplished. It is the purpose of this lecture to explain how Christian Science does these things. There is no mystery about Christian Science healing, nor is it difficult to understand. It can be stated without any reservation whatever that every person who is willing to do so may learn how to heal sickness and to destroy the desire to sin for himself and others through Christian Science.

Many Different Religious Beliefs

It is said that there are more than two hundred different kinds of the Christian religion alone, not to mention of hundreds of other forms of religions that are not Christian. It is a fact that people do entertain widely different religious beliefs. In many instances the differences are irreconcilable, and yet every one believes with all of the sincerity of which he is capable that his own particular beliefs are true. It must be conceded that, in the main, all people are equally honest and equally sincere in their religious beliefs. The only reason why they are grouped together in different forms of religions is because they honestly believe that through their own particular form of religion they will find the good which they so earnestly desire.

As one considers the subject of religion from this broad viewpoint it becomes entirely plain that most of the people in the world are believing as their religion many things that are not true.

Every one will recognize not only the desirability, but the necessity, of exchanging false and erroneous beliefs about religious matters for positive truth. In no other way can we grow spiritually.

True religion consists of spiritual truth, and not of erroneous beliefs; hence it follows that one's religion is limited to the amount of spiritual truth he knows, and that erroneous religious beliefs are only so many delusions that serve no other purpose than to obstruct spiritual growth.

Christian Science aims to destroy erroneous religious beliefs, by substituting a knowledge of truth in place thereof, and to destroy out of the human mind all evil qualities by planting good qualities in their stead. It wages relentless warfare against all wrong mental qualities. It seeks to substitute love in place of hate, unselfishness in place of selfishness, hon-

Delian Literary Society Gives Patriotic Program

The Delian Literary society held a patriotic meeting Friday evening. Dean C. C. Engberg was a guest of the club. The following program was given: "The Recessional," Paul West; "Columbia the Gem of the Ocean," Marie Elliot; "Italy and the War," Elinor Homer; "History of the Flag," Augusta Janovsky; piano duet, Velma Hall and Catherine Tool; "Home Rule," Mamie Coleman; "Columbia," Delbert Metzinger; "A Helpful Family of the Republic," Ellen Schank; "Our Duty in War," Chauncey Woodie. After the program there was a short social period.

The Delian society meets every Friday evening and all students are cordially invited to attend.

IOWA COLLEGE HAS NOVEL PLAN FOR HELPING STUDENTS

In order to meet the requirements of the farmer who hitherto has had to break away when harvest help was scarce in order to enter school on time and be still at work in the spring when he as not needed, the Iowa State college has adopted a new plan whereby a student may enter school in the middle of November and be released at the end of March. The students thus enrolled may, if they choose, classify in the regular work the next semester in February, or they may continue their work in the special course. They take only half of the work, but they take it twice as fast. More than a hundred took advantage of the semester opening last Monday, the entire enrollment being in the departments of Home Economics, Animal Husbandry and Agricultural Engineering. A great deal of this success is due to publicity given the new semester. Forty thousand copies of advertising matter sent over the state of Iowa. It is the first time a school has ever tried a plan like this and its great success so far leaves hardly a doubt but that it will be adopted in other agricultural communities.

LAST OF DIRECTORIES TO BE SOLD TODAY

Fifty Remaining Books Left On
Tables on Campus—Take
One and Leave Money

The fifty student directories which remained out of the 1,230 that were printed will be left on tables at various places on the campus this morning and those who wish them may take the book and leave the twenty-five cents in the box that is also on the table. These are the last directories that may be obtained this year as no more will be printed. There are twelve leather-covered directories which will be sold at the same time.

The Y. M. C. A. wishes to express its appreciation for the help which the girls who have managed the sale on the campus have given them. For the last three days of the week co-eds had charge of four tables on the city campus and one table at the farm campus.

Satisfaction with the directory is expressed over the campus. It is more complete and more accurate this year than before, and for this reason practically every copy was sold the first two days that they were on sale.

CONSUMERS LEAGUE AT WISCONSIN TO AID IN FOOD CONSERVATION

The local branch of the National Consumers' league at the University of Wisconsin will co-operate with the National Food Conservation board in saving food. A "White List" of all Madison merchants will be published in order that the buyer may know to whom to go for the best line of goods. A series of talks on current economic problems will be given under the auspices of the University league. An active membership campaign is now being waged.

STATE FARM REPORTER ENTERS WIRELESS SERVICE

Ralph A. Ellsworth, '20, who has been acting as State Farm reporter for the Daily Nebraskan, resigned last Saturday, to leave school and take up wireless work in the United States navy. He left this morning for the Great Lakes training station, where he will remain for about three months before entering the training school at either Harvard or Yale. Ellsworth was a member of Alpha Gamma Rho, agricultural fraternity, and assistant editor of Agriculture.

Commutation of Rations Given Out Saturday

The quarterly commutation of rations of the Reserve Officers' Training corps were given out Saturday to the men from last year who had signed the contract. They were for July, August and September, and amounted to \$27.60.

FACULTY MEMBERS AT ILLINOIS TAKE MILITARY TRAINING

Faculty and members of the administrative force of the University of Illinois are now drilling as well as the students. The military department hopes soon to have a company from each college. The drills are held every Tuesday and Thursday evening at the regular drill hour.

UNIVERSITY CADET BAND FORMS ORGANIZATION

Purpose It to Further Greater
Unity Among Members—
Dwight Thomas President

The University band, following a plan started last year, has completed an organization to be known as "The University of Nebraska Cadet Band Association." The main purpose of this organization is to create a greater spirit of unity among the members of the band than can be gained through the military organization alone. The officers for this year are, president, Dwight Thomas; vice-president, H. R. Anderson; secretary, Burge Newman; treasurer, L. H. Redelfs.

Last year when the plan was suggested for such an organization, it was greeted heartily and officers were elected. The association went but little farther than that at that time. This year, however, it is the purpose of the officers and members to see that the organization is effective, that regular meetings are held and that the business of the band is discussed before the organization as a whole.

The band has been one of the liveliest and most useful organizations in the University for a number of years. It has been as much a part of football games and rallies almost, as the team itself, and it has been the band that has been the first number on the program of University week every year, leaving the people in the towns visited eager to see what would follow.

Not a little of the credit that is due the band must be given to Dr. C. B. Cornell, the director, personally. Seven years ago he took charge of the band, when it was little more than a disgrace to the school. By insisting on certain principles and by a little tact applied at the right time, he has produced an organization which, as has often been remarked by citizens of the towns visited by the band, is a real credit to and the best advertisement they have seen for the University.

At the beginning of the present year there were rumors that the band would be removed from the military department, but no definite action has been taken along that line. Later unauthorized statements are to the effect that the long established custom of having commissioned officers in the band, may be taken away this year. Any such action as this is sure to bring emphatic protests if not more from the band members.

Following are the officers appointed by the military department for the present year: Captain, Leslie Ellis; first lieutenants, Dwight Thomas and Earl Wilson; second lieutenant, Allan J. Sutherland.

HISTORIC PRESS IS OFFERED NEBRASKA HISTORICAL SOCIETY

An old Washington press which has until very recently been used at the office of the Banner County News in Harrisburg, Nebraska, has been offered to the State Historical society.

The press has a very interesting history which Mr. A. E. Sheldon has been trying to discover and put together.

THE RED TRIANGLE

An Appeal in Behalf of the Campaign
to Raise \$35,000,000 for Y. M. C. A.
War Work

(By Daniel M. Henderson, Author of
"The Road to France")

Lift up the Red Triangle
Beside the thundering guns—
A friend, a shield, a solace,
To our ten million sons!
Go build a hut or dugout
By billet or by trench—
A shelter from the horror,
The cold, the filth, the stench!
Where boys we live, returning
From out the gory loam
Can sight the Red Triangle
And find a bit of home!

Lift up the Red Triangle

'Gainst things that mar and maim;
It conquers Booze, the wrecker!

It kills the House of Shame!

Go make a friendly corner,

So lads can take the pen

And get in touch with mother

And God's clean things again!

Where Hell's destroying forces

Are leashed with Potsdam's crew,

Lift up the Red Triangle

And help our boys "come through!"

KANSAS MEETS MISSOURI IN DEBATE BATTLE THIS YEAR

Kansas will debate the University of Missouri in place of the usual debate with Nebraska. The question will be "Resolved, That the terms of settlement of this war should include the establishment of a league to enforce peace."

It has not been decided yet which side of the question Kansas will uphold. The affirmative is substantially the program as proposed by the society known as the league to enforce peace.

WISCONSIN PLANS TO HELP EMPLOYEES OF UNIVERSITY

A committee has been appointed by the employee's association of the University of Wisconsin to make plans for the welfare and happiness of the employees of the university. Arrangements have been made for free athletic instruction for all women employees, co-operative buying of food commodities at wholesale prices, and medical attention by the university clinic. The families of the employees will receive all benefits of membership with the exception of voting.

THE CAMPUS WHISK-BROOM SOON TO MAKE APPEARANCE

New Magazine of Campus Fun
To Be Published by Girls'
Journalistic Fraternity

"The Girls' Book," or "The Campus Whisk-Broom" is the newest of the new. A magazine by girls, for girls, and with them forever in being whipped into existence for its first appearance next February. The book will in no way compete with the *Awgwan* or the *Cornhusker*, but only perform the function its name implies, it will brush up the dust about the campus.

Theta Sigma Phi, the girls' journalistic fraternity, realizing the opportunity for such a publication this year, when the greater portion of the University attendance is made up of women, has already started work on "The Whisk-Broom," and subscriptions will be sold the second half of this week.

The book will be absolutely original in its make-up. It will be full of "personalities," and contributions will be made by some of the most famed of Nebraska's lady literary lights. The "Whisk-Broom" will be only for fun, and it will fill a much-felt need when light-heartedness and laughter are quoted at rather high prices on the markets, these days.

To Assist Food Administrator

Professor J. H. Frandsen of the Dairy department, has just received notice from Mr. Gurdon W. Wattles, federal food administrator for Nebraska, of his appointment as chairman of the committee of dairy products. He has accepted the appointment and will do whatever he can to assist Mr. Wattles in this work in Nebraska.

Union Literary Society Holds Weekly Meeting

The Union Literary society held its regular weekly meeting Friday evening in Union hall, Temple. A program was first given, after which the evening was spent in games.

Professor LeRossignol Is Member of Fuel Committee

Professor J. E. LeRossignol has received word from the Federal Fuel administration of the state of Nebraska, that he is appointed to serve as chairman of the fuel administration committee of Lancaster county. The other members of the committee are Mr. E. B. Sawyer, Mr. Geo. W. Anderson, C. C. Quiggle and Mr. O. J. Allison.

The letter accompanying the appointment gives the nature of the duties connected with the work. "It shall be the duty of the committee to gather information regarding the supply of the fuel in the county to investigate and report on prices charged in the community, and the gross margin charged on the different sizes and quantities of coal, and whether such margin is excessive."

"All local requests for assistance in obtaining coal shall be presented to and considered by the committee and forwarded by the chairman to the state administration, with the recommendation of the committee."

CORNHUSKERS CINCH VALLEY CHAMPIONSHIP

Avenge Defeat of Last Year
13 to 3

KANSAS SCORES BY KICK

Cook, Hubka, Dobson and Shaw Star
For Nebraska—Riddell Is Injured
In First Few Minutes

By Dwight P. Thomas

Lawrence, Kan., November 17.—Nebraska cinched the Missouri Valley football championship here this afternoon by defeating Kansas 13 to 3 in a bitterly fought game. The one big feature of the battle was the double-quick of the Cornhuskers in the second half with the score against them. Cook, Dobson, Hubka and Shaw were the Nebraska stars.

Cook was the chief ground gainer during the period that gave Nebraska her first score. He carried the ball 55 yards in the 80 yard march from Nebraska's 20 yard line to the Kansas goal, making the score on a pretty thirty yard run. Hubka's bull line plunges were factors in Nebraska's second score, which came without losing the ball after the kick-off following the first Cornhusker score. Captain Shaw, although repeatedly injured was the mainstay of the Nebraska defense, breaking through the Jayhawkers' line and stopping play after play.

Wilder, Kositzy and Dobson shone at various points in the game. Schellenberg was gang-tackled every time he carried the ball, but was good for a small gain whenever called on. Bill Day cinched himself a place on the Missouri Valley eleven by his great defensive work. The Kansas score was made on a place kick in the second quarter. The Jayhawkers failed to get close enough to the Nebraska goal to threaten touchdown.

The First Quarter

The first quarter of the game was chiefly a punter's battle with forward pass and an end run interspersed now and then. Dobson managed to hold his end of this game in fine shape and the ball went back and forth with the edge a little in favor of Nebraska.

A fumble or so broke rather bad for the Huskers in this quarter, and Riddell and Cook were injured, Riddell being forced to leave the game. A forward pass from Dobson to Schellenberg netted fifteen yards. Dobson broke up two forward passes in this quarter, one of them that went over the goal line and the other which gave Kansas a five yard loss.

Score, Nebraska 0, Kansas 0.

The Second Quarter

In the second quarter Kansas punted and the ball went over Nebraska's goal line for a touchdown and the ball was put in play on the twenty yard line. After Schellenberg, Dobson and Otopaulik had made several good gains on line plunges, Kansas won the ball on downs and carried the ball to Nebraska's 17 yard line. At this point Lonborg made Kansas' only score by a kick from the 25 yard line.

Score, Kansas 3, Nebraska 0.

On the next kick-off Cook returned twenty-three yards. Time for the first half was called after a number of line backs by both teams and an exchange of punts. Nebraska was in possession of the ball on their forty yard line.

The Third Quarter

Nettles kicked off for forty-five yards and Schellenberg returned fourteen. Dobson and Foster exchanged punts and the ball went over Nebraska's goal line for a second touch-back.

Student Assistants' Club Holds Progressive Meeting

The Students Assistants club held a progressive meeting in the electrical and mechanical engineering laboratories, Thursday evening. J. L. Lyne spoke to the student assistants of many departments, on electrical phenomena, and showed the use of the automatic telephone.

At the Mechanical Engineering building, F. L. Oswald of the wood-cutting department, gave a practical demonstration of different uses of the saw, drill and lathe.

It is the intention of the club to have similar meetings every month, at which the workings of the various departments will be explained by the assistants. Josephine Zrust was elected secretary and treasurer of the club.
