PRICE FIVE CENTS

HARD ROAD AHEAD OF VALLEY CHAMPIONS

Dope Indicates Syracuse Battle Hardest of Season

EASTERNERS MAKE RECORD

Figures Show New Yorkers Are Rated Above Tufts, Dartmouth, Michigan and Probably Pennsylvania

With the final game and the greatest battle of the season before them, the Cornhuskers took the field yesterday for the first of a series of workouts that will point them for the Syracuse game on Thanksgiving day. The great record made by the big Orange eleven during the year has left no doubt in any Cornhusker's mind but that when the New Yorkers and Nebraska meet on Turkey day, there will be one big battle from start to finish.

Practically every man on the squad was out for the workout yesterday, though most of them were nursing injuries of a more or less serious nature. A few of the veterans who have been working hard during the season were given a vacation of one day, but all will be expected to be on the field this afternoon for the first scrimmage of the week.

Hubka, whose natural position appeared to be at fullback, by the way he went through the Kansas line Saturday, came out of the game with hardly a scratch. Day, Dobson, Wilder and Cook came through in about the same way. All the rest received jolts that have bothered them some since Saturday. It was rumored around the football camp yesterday that Riddell, who has been followed by the hardest kind of hard luck all year, will not be in the Syracuse game. The knee which has gone back on him three times during the season, will probably not be well enough to allow him to get into the battle.

Coach Takes No Chances

Coach Stewart is preparing to get his men ready for any sort and all sorts of attacks from the New York team. Press dispatches from the eastern camp indicate that the Orange eleven plays a smashing game from the first whistle, and attempts in this way to wear down the opposing team in the first quarter and then walk over them during the rest of the battle. In Brown, Kinsterwald and Malone the New Yorkers have a trio that has been tearing holes in all the eastern line they have been playing against. Meehan, quarterback, is a speeder, feared by all opponents and a dangerous man at all kinds of playing.

In the line the Syracuse bunch have a number of giants who are noted for their speed and who have been outplaying all the forwards in the east. Some of the big teams of the east have fallen before the Orange men this year. Pittsburgh has been the only team to defeat them and Pitt's showing in later games has hardly warranted the showing they made against Syracuse.

PLAN TRINKET FUND TO HELP IN WAR WORK

Students Asked to Leave Old Trinkets and Discarded Jewelry at Y. W. C. A. Rooms

A number of University women have become interested in the "Treasure and Trinket" fund being started in Lincoln in connection with the local Y. W. C. A. Mrs. A. L. Haecker and Mrs. E. H. Clarke are leading the movement.

The campaign is being undertaken to help raise the Y. W. C. A.'s quota for the national hostess house fund. The local organization is short about \$7,000 of its original allotment. The national hostess house fund plans for the erection of a "Hostess House" in every continent and training camp, to provide for a social and recreation center for the men in the camps. The movement has the support of all the national authorities, and is being promoted vigorously throughout the nation.

The "Treasure and Trinket" fund is most unique and different from the rest of the war funds, in that it does not ask for a cash contribution. It

simply involves the donation of all worn out, discarded or broken bits of jewelry or gold or silverware that may be lying about the house, worthless to their owner, but possessing real value when collected and sold. The contributions are sent to the mint at Washington, where they are melted down into silver or gold nuggets, and the government pays the market price for them. A large number of contributions have already been received and these show the diversity of articles that are acceptable. In the collection are to be found lockets, rings, cigarette cases, match safes, sterling silver articles of all kinds, silverware that has been discarded, and nearly every kind of jewelry.

Successful Where Tried

This idea is no fad, but had been tried and proven a success. It originated in England, where the women gave nothing but the unused silver thimbles they had about the houses. These thimbles alone netted over \$75,000. The sum was used to purchase ambulances for use at the front. The movement in this country was first taken up in the east where it proved to be a complete success and has gradually spread westward until its adoption here the past week.

Anyone who has any old gold or silver articles that are worthless to them and who wishes to contribute them to this cause may leave them either at the Y. W. C. A., or at the J. F. Stowe jewelry store, at 1137 O street.

JOHN Z. WHITE SPEAKS AT CONVOCATION TODAY

Well Known Advocate of the Single Tax Is Making Tour of the West

John Z. White of Chicago, the noted advocate for the establishment of the single tax, will speak at convocation at 11 o'clock this morning, in Memorial hall. Mr. White has had a very interesting life. For thirty-four years he worked at the printing trade. Then he began to make tours speaking on different economic questions.

Prof. P. H. Grummann, who has charge of the convocation programs, has tried to get Mr. White for several years. Last year Mr. White planned to speak to Nebraska students, but at the last minute was prevented from coming. He is making a western tour at the present time.

The single tax advocates believe that land should be taxed instead of the improvements made on land. It attempts to do away with the "unearned increment."

BUSINESS WOMEN TO FORM WAR-WORK ORGANIZATION

Will Back Sale of Thrift Stamps and Help in the Sale of Next Liberty Bonds Issued

All the women in the department of Economics and Commerce will be entertained tomorrow evening by Miss M. T. England at her home at 1350 North 37th street, at 7:30 o'clock.

The purpose of the meeting is to organize the women into committees for war work, in preparation for the next issue of bonds. A war thrift committee will be chosen to increase the sale of the war stamps and thrift stamps which will go on sale December 3. These stamps are to be issued by the government for the purpose of giving the poor a chance to turn their savings into the government's use.

These stamps will sell for \$4.82 each and when a person has accumulated twenty of them, they are filed away until the end of five years, at which time they will be redeemed by the government for \$100. The plan is simply a different form of sale for Liberty bonds.

LIFE INSURANCE EXPERT TO SPEAK BEFORE WOMEN'S INSURANCE CLASS TONIGHT

Mr. L. M. Palmer of the Aetna Life Insurance Company, will address Miss M. T. England's Tuesday evening class of women, on the subject of insurance, this evening.

Mr. N. Z. Snell will speak on Thursday morning to the morning section of the business women's class in insurance.

NAME STOCK JUDGERS FOR CHICAGO SHOW

Eight Men Who Will Represent Nebraska Announced

TEAM WILL LEAVE FRIDAY

Will Make Side Trips to Ames, Purdue and Illinois Universities on Way to Meet

The eight men who will comprise the University of Nebraska stock judging team at the International Live Stock exposition in Chicago, beginning December 2, have been announced by Prof. H. J. Gramlich of the department of animal husbandry. The men are: A. E. Anderson, Carl C. Dale, Earl Hogue, Chester Grau, D. P. Moulton, W. F. Roberts, G. B. Snapp. All of the men except Moulton are seniors.

The team will meet representatives of all the larger colleges of the United States and Canada at the annual Chicago show. Purdue was the winner last year.

An extended trip will be made by the team on the way to the show. The men will leave Friday afternoon for Ames, where they will judge Belgians at the Irwin stock farm. From there they will go Monday evening to Chicago, and Tuesday they will run over to Wayne, Ill., to judge at the Dunham stock farm. Purdue University at Lafayette, Ind., will be the next place visited. The men will get there Tuesday morning and will judge Purdue University stock. They will go also to the Crouch farm. Wednesday the team will go to Urbana, Ill., where they will judge Thursday and Friday morning. Friday afternoon they leave for Chicago for the international judging contest at the Coliseum.

GET INSTRUCTIONS FOR SECOND TRAINING CAMP

Men who have been selected from the University for the Officers' Training school will be ordered to report at Fort Riley, Kansas, January 5. This information was received Monday at the commandant's office in a notice from the War department. The communication further states that the expenses of the journey to the training school will be paid by those who go to the camp, but will be reimbursed at the first payroll at the rate of three and a half cents a mile for the trip. Men will be permitted to provide their own uniforms before leaving, but this will be entirely at their own expense, as the government will not reimburse them for these.

Co-Eds Show Interest In Swimming Classes

The girls' swimming classes which meet Thursday evening and Saturday mornings at the Lincoln High, have been very large. Both beginning and advanced swimming is being taught by competent teachers. The great desire of the girls to learn has been shown by their large and regular attendance to the classes already organized.

Arrangements have been made whereby it will be possible for all girls to make points in W. A. A. as teams will be chosen from all the classes.

FUEL CONSERVATION

To the Faculty and Other Employees:

In accordance with the request of the federal government through Dr. Garfield, fuel commissioner, efforts will be made to economize as much as possible in the matter of fuel and lights at the University. Professor Bridgman of the College of Engineering, will assist Superintendent Chowins and myself in this matter. He will welcome suggestions in regard to possible economies.

It is hoped especially that professors will plan to do as much of their work as possible outside of teaching and business hours at their homes in order that coal for heating purposes may be saved.

S. AVERY.

War Courses at University

This is probably the most important announcement that the State University will make to the people of the state this year. For the first time the institution will hold a special term of school in the winter. While it will be especially for the farm boys and girls who have remained at home to help with the crops, everyone will be welcome. The session will begin December 3 and will dismiss early in the spring before planting operations begin. Every student completing the term will receive credit for one semester, or one-half of an entire year's work. The College of Agriculture and the School of Agriculture, as well as the College of Engineering on the down-town campus, will offer practically all first-year courses as well as such other courses as are in demand. Young men interested in agriculture who have completed a four-year high school course will register in the College of Agriculture and boys past fifteen years of age and who have completed the eighth grade will register in the School of Agriculture. There will also be general courses offered in various University departments.

Special preparations are being made by the School of Agriculture to enlist scores of young men from the farm who have remained at home to help with the crops this winter and who will find it necessary to leave school very early in the spring. The special term of the School of Agriculture will close early in March and of the College of Agriculture and other University departments early in April.

UNDERCLASSES DECIDE FOOTBALL HONORS TODAY

Showing of Both Teams Promises Fast Game—Play Begins at 2 O'clock

The freshmen and sophomores will meet this afternoon in the second battle of the annual interclass series. The game must be called at 2 o'clock sharp since the varsity must have the field at 3 o'clock, whether the game is finished or not.

Those who have been watching the two teams say that there will be a real game this afternoon. Both sides have unearthed some real football material and have been practicing for nearly two weeks. The freshmen team is heavy, and will probably outweigh their opponents, but the Sophs have some fast backs, and are expecting to emerge victorious. The sophomores are being coached by Lawrence Shaw, Farley Young and Harold McMahon, and the freshmen by John Riddell.

In the practice yesterday the sophomores worked a series of plays successfully that will call for real football on the part of the freshmen aggregation. At line plunges the first year men will be at an advantage with their unusual amount of beef, but the upperclassmen will be able to offset this with their more thoroughly developed tactics combined with a force of men that are able to develop speed when the need comes.

The sophomores figure that they are blessed with a special turn of fortune in their favor this year. They have taken the Olympics which is quite contrary to class custom and chances are by no means against them in their efforts to reverse the score of last year when the freshmen were victors to 13 to 0.

The freshmen see in this game a chance to in part avenge themselves for their Olympic defeat of two weeks ago, and will be out in force to root for their team.

Saturday afternoon the winners of this afternoon's game will meet the juniors, who defeated the seniors last Thursday by a score of 19 to 0. The winners in this final game will be awarded sweaters by the members of their class.

Y. W. C. A. to Hold Bazaar to Furnish Temple Rooms

The University Y. W. C. A. will hold a bazaar on December 15th at Miller & Paine's for the purpose of raising money to buy new furnishings for the Y. W. C. A. room in the Temple building. Every Y. W. C. A. girl in the University will contribute some inexpensive article for this bazaar and a large number of postcards have been sent out to Y. W. C. A. alumnae asking them to contribute to it. The committee in charge is not asking for expensive gifts, having decided that 15 and 25 cent articles sell best. Everything must be in Miss Drake's office not later than December 8.

WAR TAX HITS PARTIES AND PLAYS

Activities' Agent Advised They Must Be Taxed

FOOTBALL TO BE EXEMPT

Red Cross Clause Protects It—Past Parties After November 1 Taxed

Admissions to all University social activities, such as dances, plays and parties given after November 1, 1917, will be subject to the ten per cent war tax as well as public dances, theatres and amusements generally according to a letter received Saturday by T. A. Williams, agent of student activities, from the internal revenue office at Omaha. Football admissions will be exempted from the tax at Nebraska because all profits are being given to Red Cross.

The office of student activities will attend to the collecting of the tax on all dances handled through that office. The regulations of the revenue department state that an account must be kept of each and all such activities that come under the tax. In the case of dances the war tax must be collected at the rate of one cent on each ten cents or fraction thereof charged either for the admission to the hall or for the privilege of participating in the dance, and at the end of the month a verified return must be made to the collector's office showing the different entertainments at which such a fee has been charged, the rate of admission and a draft or money order for the tax due.

The letter follows:
Treasury Department,
Internal Revenue Office,
Omaha, Neb., Nov. 16, 1917.
Mr. T. A. Williams, Agent Student Activities, University of Nebraska, Lincoln, Neb.

Dear Sir:
I acknowledge receipt of yours of the 14th inst., in which you ask "what are the provisions for taxing dances at which admission is charged, and others, according to the new law."

You are advised that the holding of the Revenue department now is that admission to such dances are subject to tax the same as to public dances, theatres, and amusements generally.

In answer to a recent letter from this office, especially with reference to college activities, the Commissioner, under date of the 12th inst., writes:

"You are advised that the disposition of the funds, unless it can be conclusively shown that all of the proceeds inure exclusively to the benefit of the college itself, and the further fact that there is a deficit at the end of the year, is immaterial in determining the liability for the tax. Your attention is called to the fact that the tax paid by the public on the admission charged is in no sense a tax on the college itself. College football games do not come under the exemption mentioned in the statute unless it be specifically shown that all the proceeds are used only for the benefit of an educational institution and the burden of proof is on the management of the football game."

ART CLUB TO HOLD BOHEMIAN FETE

Plan Novel Program and Vaudeville Acts—Profits to French Orphans

One of the most novel entertainments of the school year will be given by the Art club Saturday evening at the Bohemian fete which will begin promptly at 8:30 o'clock in Art hall. The program, which will last for one and a half hours, will consist of an original playlet, "Such Luck," several vaudeville acts, including some original dancing. The proceeds will go to the support of the French orphan adopted by the club.

Special costumes are being designed by members of the club for the stunts. Original postcards and posters will be sold at the close of the evening.

At about 10 o'clock dancing will begin. Special music has been secured. Refreshments will be served from booths around the hall. Just what these will be has not been announced, but the committee has promised something novel and artistic.

Leland White, '19, Melvin Van Denbarb, '21, and Ruth Sprague, '21, have the leading parts in the short play.
