election of officers will occur at this  
meeting. All former students of Peru  
Normal, whether graduates or not,  
are requested to come and join the  
club.

**ALUMNI NEWS**

Mr. Robert D. Rands, who was for-  
merly an assistant in the botany de-  
partment, visited here last week.  
Since leaving the University Mr.  
Rands has taken a degree of doctor of  
philosophy in botany at the University  
of Wisconsin and has accepted a po-  
sition as plant pathologist at the great  
Dutch botanical garden at Buitenzorg,  
Java. Dr. Rands is uncertain as to  
whether he will go because of the in-  
ternational situation. He wishes very  
much to go in order that he may study  
the diseases of the rubber tree. There  
has been an increasing scarcity of  
rubber during the last few years and  
he now hopes to be detailed by the  
government to help maintain the sup-  
ply by fighting the diseases of the  
rubber tree.

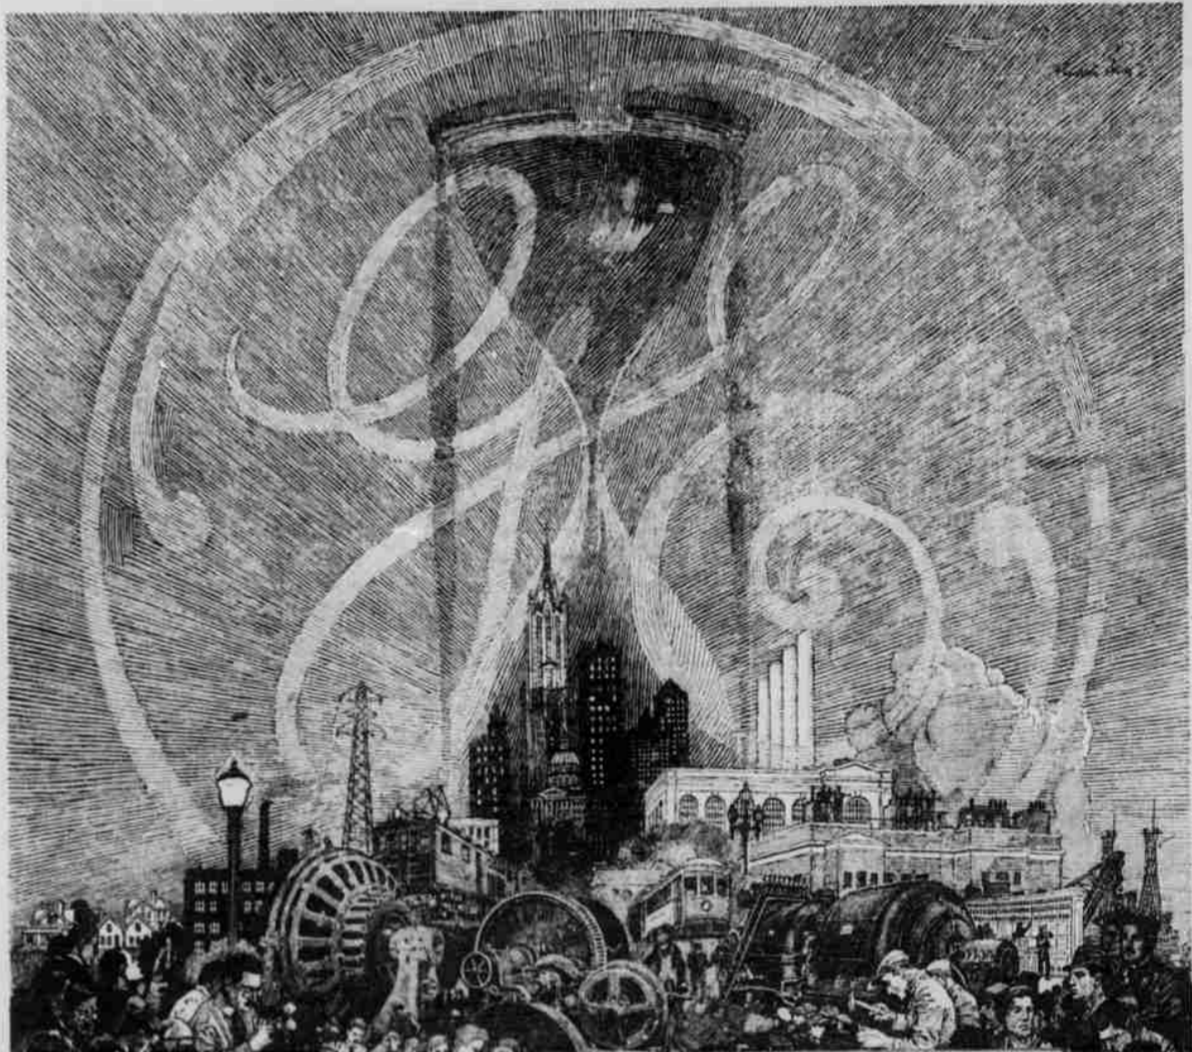

**Checks Potash Surveys**  
Professor G. E. Condra, head of the  
department of geography and conserva-  
tion, returned yesterday from North-  
western Nebraska, where he has been  
checking up surveys made of the pot-  
ash lakes.

Silk and Knitted Mufflers Sweaters  
Phoenix Silk Hose Borsalino Hats

An extensive showing of Gifts for Boys  
in the Army.

**FARQUHAR'S 1325 O**

**ACHIEVEMENT**

Twenty-five years ago the General  
Electric Company was founded. It has set free the spirit of research.  
Since then, electricity has sent its thrill  
through the whole structure of life. It has given tangible form to inven-  
tion, in apparatus of infinite precision  
and gigantic power.  
Eager to turn wheels, to lift and carry,  
to banish dark, to gather heat, to hurl  
voices and thoughts across space, to  
give the world new tools for its work  
—electricity has bent to man's will.  
Throughout this period the General  
Electric Company has held the great  
responsibilities and high ideals of  
leadership. And it has gone forth, co-operating with  
every industry, to command this unseen  
force and fetch it far to serve all people.  
By the achievements which this com-  
pany has already recorded may best  
be judged the greater ends its future  
shall attain, the deeper mysteries it  
yet shall solve in electrifying more  
and more of the world's work.

**GENERAL ELECTRIC COMPANY**

**THE UKULELE**

THE languorous charm of the  
Hawaiian native instruments—so  
moving in appeal, so observably  
in vogue—is strikingly characteris-  
tic of the Ukulele. Its tone possesses that  
curiously beautiful timbre, that exotic  
charm of tonal quality which has  
made these instruments so sensation-  
ally popular.

The Ukulele has a pleasing grace of  
form. The finer models are made  
of genuine Hawaiian Koa wood. It  
is much in request today among the  
smarter college and other musical  
organizations.

It is easy to learn. Its price includes an  
Instruction Book.

**Hawaiian Steel Guitar**

Every chord struck upon this typically rep-  
resentative Hawaiian instrument is marked  
by a weird, plaintive harmony and strangely  
beautiful qualities of tone. It brings, to any  
music, qualities full of vivid color and var-  
ied charm.

Price \$8.00 and upwards, including Steel and Set of Three  
Thumbies for playing, and Instruction Book.

Catalogs on application.
