SPECIAL PILGRIMS' CONVOCATION TODAY

Dr. H. C. Herring, National Congregational Secretary, to Speak in Temple

Dr. H. C. Herring, of Boston, national Congregational secretary, will speak at a special convocation in the Temple theatre, at 11 o'clock this morning, commemorating the landing of the Pilgrims at Plymouth 297 years ago. Chancellor Avery will preside.

Dr. Herring is in Lincoln to take part in the Inaugural ceremonies of Dr. J. A. Holmes of the First Congregational church of Lincoln, this week.

Dr. Herring is national secretary of the Congregational church, and gives his entire time to the active supervision of the work throughout the country. He is the only secretary of the Congregationalists since they adopted their present plan of a more unified church.

Before he was called to the national office, Dr. Herring was for a number of years pastor of the First church of Omaha.

AGRICULTURE WEEK TO BE GREATEST IN HISTORY

Farm and Dairy Problems Relating to War Will Be Feature of Program

Organized Agriculture Week will be observed in Lincoln this year from January 14 to 19. Practically every one of more than thirty farm organizations are completing their programs and preparations are already being made for handling the biggest crowds in the history of the Week.

The program given this year will all reflect more or less the war spirit. In nearly every case there will be special discussion of the problems to be met with in handling crops profitably in war time. For instance, the Nebraska Corn Improvers' association will take up "Field Crops in Relation to War Problems." The dairymen, among other things, will discuss "Nebraska Conditions for Milk Production." The home economics association will hold a special conservation day during the week. The horse breeders' association will take up "Prospects After the War."

The committee in charge of Organized Agriculture Week consists of W. R. Mellor, chairman; Dean E. A. Burnett, W. S. Whitten, E. R. Danielson, Prof. H. J. Gramlich, R. W. McGinnis and C. W. Pugsley.

Engineers To Be Placed In Last Draft Class

All engineering students in the technical schools and colleges of the United States who enlist in the Engineers' Reserve, will, upon the recommendation of their faculty be placed in the last draft classification. Only juniors and seniors, however, whose scholarship places them among the first one-third in their class can join the reserve. In making this ruling the government is following the example of Canada and England. Prospective engineers are one of the most valuable assets that we possess, and to send away the men who are preparing for such service would cripple the industrial world and greatly handicap the United States in carrying on the war, as well as impede the reconstruction program after the present struggle.

UNIVERSITY NOTICES

Union Society

All Unions meet in Union hall promptly at 7 o'clock Tuesday for a Christmas festival. Watch Tuesday's paper and the bulletin board for further particulars.

Business Manager Cornhusker

Applications for the position of business manager of the 1917-18 Cornhusker will be received at the Students Activities' office until Monday morning at 10 o'clock.

Camp Fire Girls

The evening group of campfire girls will meet at the Red Cross rooms in the Masonic Temple, Fifteenth and L streets, instead of at the Y. W. C. A. rooms next Monday evening.

Home Nursing Course

All faculty women who wish to take the course in home nursing, organized last week, are requested to give their names to Dr. Winifred Hyde at L-111 before Christmas vacation as there are very few vacant places left. The first meeting will be held in N-202 the Saturday after Christmas vacation from 4 to 5 o'clock.

THE UKULELE

THE languorous charm of the Hawaiian native instruments—so moving in appeal, so observably in vogue—is strikingly characteristic of the Ukulele. Its tone possesses that curiously beautiful timbre, that exotic charm of tonal quality which has made these instruments so sensation-ally popular.

The Ukulele has a pleasing grace of form. The finer models are made of genuine Hawaiian Koa wood. It is much in request today among the smarter college and other musical organizations.

It is easy to learn. Its price includes an Instruction Book.

Hawaiian Steel Guitar

Every chord struck upon this typically representative Hawaiian instrument is marked by a weird, plaintive harmony and strangely beautiful qualities of tone. It brings, to any music, qualities full of vivid color and varied charm.

Price \$2.00 and upwards, including Steel and Set of Three Thimbles for playing, and Instruction Book.

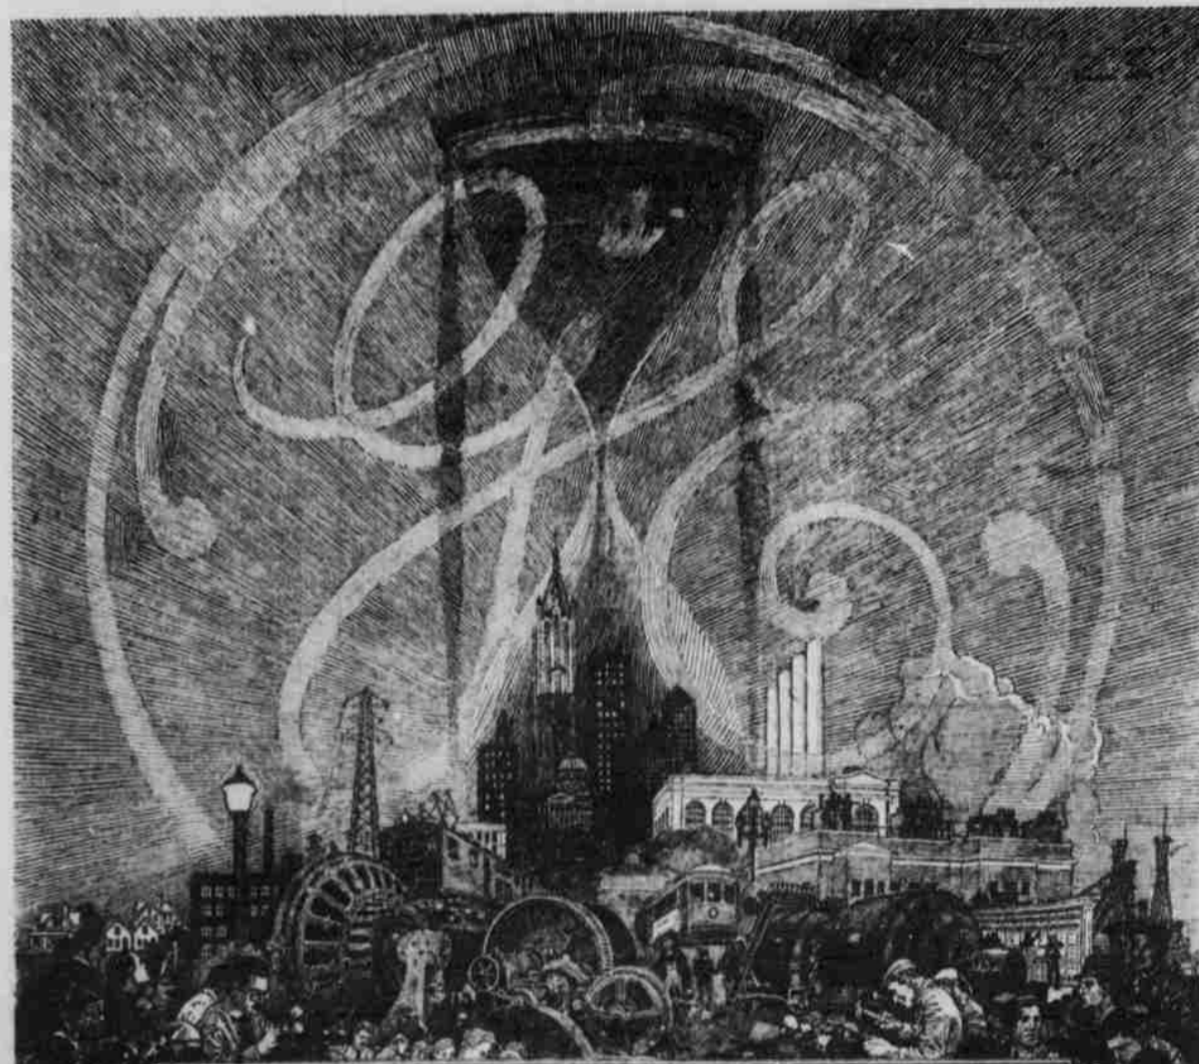

Catalogs on application.

Lyon & Healy "Washburn" Ukuleles, \$15.00; Leonardo Nunes genuine Hawaiian make, \$7.50; Mauna Loa brand, \$4. May be had of 12,000 leading music dealers. Write for name of the nearest dealer.

CHICAGO

ACHIEVEMENT

Twenty-five years ago the General Electric Company was founded.

Since then, electricity has sent its thrill through the whole structure of life.

Eager to turn wheels, to lift and carry, to banish dark, to gather heat, to hurl voices and thoughts across space, to give the world new tools for its work—electricity has bent to man's will.

Throughout this period the General Electric Company has held the great responsibilities and high ideals of leadership.

It has set free the spirit of research.

It has given tangible form to invention, in apparatus of infinite precision and gigantic power.

And it has gone forth, co-operating with every industry, to command this unseen, force and fetch it far to serve all people.

By the achievements which this company has already recorded may best be judged the greater ends its future shall attain, the deeper mysteries it yet shall solve in electrifying more and more of the world's work.

GENERAL ELECTRIC COMPANY
