Make War Flour

War flour for the conservation of wheat and the production of palatable bread at a reasonable cost is the discovery of the studen's of the home economics department at the University of Kansas. Equal parts of rice, barley, and oats form the ingredients. It makes excellent bread and biscuits. Any mill for mixture will furnish it at a cost lower than wheat.

> State Saving Director Says **Big Help Will Be Rendered**

Government

Chancellor Avery has received a letter from Ward M. Burgess, of Omaha, Nebraska War Savings director, urging that students and officials of the University do all in their power to co-operate with the government in the sale of War Savings Stamps and certificates in the state. Mr. Burgess is of the opinion that the University is in a position to render the government very valuable aid in this campaign if enough interest is aroused in the matter. Small Liberty Bonds

These War Stamps are merely Liberty bonds sold in denomination of twenty-five cents and five dollars. They are sold under practically the same conditions, and with the same securities as the bonds, but are intended for those who are unbought Liberty Bonds, but wish to still further aid the government in raising funds for carrying on the

war. The method of selling these stamps is extremely simple. Investors are given a thrift card." which contains sixteen squares. As twenty-five cent stamps are purchased, they are put on this card, until all the squares are filled, when the card may be exchanged fro a \$5 stamp, by adding twelve cents in cash prior to February 1, 1918, and one cent additional for each month thereafter. Those who prefer may purchase a \$5 stamp outright. Until January 31, 1918, these will be sold for \$4.12. These stamps are affixed to "War-Savings Certificates," in the same way the cheaper ones are put on the thrift cards. The "baby bonds" will mature January 1, 1923.

The plan offers everyone a simple and profitable means of saving small amounts of money, and at the same time helping the government, and it is believed that the idea will appeal to a majority of the students of the University. Those interested may obtain further information at any postoffice or bank.
