PRICE FIVE CENTS

"EXPERIENCE" PLAYED TO CROWDED HOUSE

University Players Successfully Stage Difficult Production

SCENES ARE REALISTIC

Merritt Chaffe, as "Youth," in the Leading Role—Ruth Leech and Myrtis Downing Feature

"Experience" was presented last night by the University Players to a full house in the Temple theatre. Although it was an ambitious play for University students involving thirty different parts and eight different scenes, it was most ably done. The curtain rose promptly and the time taken up by changing the scenery was short.

Merritt Chaffe, who took the leading part, "Youth," with little previous experience, astonished his friends by the very sincerity of his work and appealed to all the audience. Ruth Leech made a very lovable "Love," Myrtis Downing took the important part of "Experience" very ably, and True Jack brought a good deal to pretty gaiety to her part of "Pleasure."

The Primrose Path Probably the most vivid scene was that of "The Primrose Path" when the lanterns, lamps and light dresses made a pleasing picture against the dark background. The cast showed good team work in getting the spirit and atmosphere of revelry into this episode. Another striking scene was that of the dope den. Some excellent by-play and stage business was done in the semi-humorous scene in the restaurant of the underworld.

The characteristic of the play was the good work that was done by people who had only small parts. This is one thing that is essential to a play involving so many small parts. Following is the cast in order of appearance.

First Episode
"In the Lands Where Dreams Begin"
Hope Gladys Appleman
Love Ruth Leech
Youth Merritt L. Chaffe
Ambition Victor Graham

Second Episode
"In the Street of Vacillation"
Excitement Elizabeth Brown
Travel Reuben Clausen
Song Paul Dobson
Fashion Gladys Appleman
Blueblood Stoddard Robinson
Style Paul Peterson
Frivolity Genevieve Addleman
Snob Leland Towle
Pride Gladys Corrick
Beauty Carolyn Kimball
Deceit Delight Garten
Slander Floyd Rivett
Wealth Phillip G. Jones
Intoxication Elizabeth Stuart
Passion Eleanore Fogg

DEAN OF WOMEN CALLS ATTENTION TO RULINGS

List of Regulations Announced to Prevent Misunderstandings

In order to prevent mistakes and to acquaint the student body with the rules for the observance of which they are held responsible, Dean Amanda Heppner requested yesterday that the attention of the students be called to the rules as they now stand after having been revised somewhat from those of last year. As all organizations are held for the strict observance of University rules, Dean Heppner wishes to avert any possible misunderstanding which comes through ignorance.

Below is the statement issued yesterday by Dean Heppner:

"I wish to call your attention again to the following University rules:

All University functions, including parties and banquets, shall be scheduled at the dean of women's office.

All University functions, including athletic contests on home grounds and social gatherings of departmental clubs, shall be held on Friday evenings and Saturdays. Note—This refers to all social functions, including banquets, which are held or continue after 8 p. m. Exceptions: Social functions may be held the night before but not the night of a mid-week holiday.

All meetings of University clubs and organizations holding later than

8 p. m. shall occur on Friday and Saturday evenings, except by the special permission of the committee on student organizations. (Departmental clubs, not purely social clubs, may meet once a month, other than on Friday and Saturday evenings, provided they do not hold later than 10 p. m. Additional meetings shall close at 8 p. m.)

All University parties shall close not later than 12 o'clock.

All parties where women are present shall be officially chaperoned. Notice of such parties shall be given to the dean of women, and the names of the chaperones submitted to her for approval at least two days in advance of the party, and it is preferred that the names of the chaperones be submitted on the Monday preceding the party. At all entertainments not given in private homes or organization houses, members of the University faculty are to be included among the guests invited to chaperone the parties.

No affairs of any kind, including banquets, which hold after 8 o'clock, are to be scheduled for closed nights."

AMANDA HEPPNER,
Dean of Women.

CORNHUSKER CALLS FOR ORGANIZATION PICTURES

Should Be Taken at Once to Avoid Rush—Rates Obtainable at Activities Office

All organizations planning to have their picture appear in the 1918 Cornhusker should make arrangements for the taking of the pictures at once, according to H. B. Thompson, business manager of the annual. There are a great number of pictures to be taken for the Cornhusker, and those societies and clubs who postpone their sittings till the very last moment are liable to be disappointed in not being able to make arrangements with the photographer in time.

All organizations whose names and addresses were procurable have been sent notices to this effect, but those who received no notice are not to feel that their pictures are not wanted. It is the desire of the management that every organization of any kind in school be represented, if it is willing to pay for the space. Rates for page spaces can be obtained from the business manager, in the Students' Activities' office, from 11 to 12 o'clock daily.

These pictures should be taken immediately, February 2 being the time limit set. The presidents of the organizations have asked to have the pictures in the annual, and it is hoped that every organization will be represented.

WILL OFFER CONDENSED COURSE IN PSYCHOLOGY

Class Arranged for Second Semester by Dr. Winfred Hyde to Cover Experimental Work

A beginning course in psychology will be given next semester by Dr. Winfred Florence Hyde. It was thought for a time that the course would not be given on account of the few students wishing to register for the course, but it now appears that a larger number of people than ever, desire to take the work, and Dr. Hyde has stated that it will be given next semester as usual.

The course as given by Dr. Hyde is briefer than the one given by Dr. H. K. Wolfe, which extends through two semesters. It is designed for students wishing the minimum requirement in this field, and takes up more of the interesting experimental side of the study, leaving out a great deal of the anatomy of the brain, which is given in the full year's course.

Psychology 3, is a general introductory course, including the elements of descriptive, physiological, and experimental psychology. A good foundation is laid for further work in the departments of psychology, philosophy, or education. The course is not open to first year students. Three hours of class recitation and two hours of laboratory are the requirements. Three hours of credit is given. It is expected that as many men will register for this course as women, because it is of special interest to men whose courses are so largely technical, and who consequently receive a narrow view so common to specialization. The course is designed to correct this narrowness of view, and to give a person development, breadth, balance, culture and maturity.

GREEKS FINISH FIRST ROUND OF TOURNAMENT

Today and Tomorrow to Decide Semi-Final Contestants

CLOSE BATTLES PROMISED

Delta Tau, Alpha Tau Omega, Alpha Sigma Phi and Phi Kappa Psi Victors in Yesterday's Contests

The first round of the inter-fraternity basketball tournament was finished yesterday with four games, Phi Kappa Psi-Pi Kappa Phi at noon and Delta Tau-Delta Chi, Alpha Sigma Phi-Beta Theta Pi, and Alpha Theta Chi-Alpha Tau Omega in the evening.

Phi Kappa Psi put Pi Kappa Phi out of the race at noon to the tune of 24 to 4. The victors had things their way most of the time and showed team work which their opponents lacked. At the first of the game it appeared that the Pi Kapp's might have a chance but after the first few minutes of play they were unable to keep up with the swift work of their opponents. The Phi Psi's are conceded to be one of the best teams in the tournament. Kellogg and Thorpe did their best work last night, while Mingus and Garrison were the mainstays of the Pi Kappa Phi aggregation.

The line-up follows:
Phi Kappa Psi Pi Kappa Phi
Kellogg Rice
Smith Garrison
Thorpe Mingus
Wright High
Cook Ford

Phi Kappa Psi 24; Pi Kappa Phi 4.

Delta Tau Delta Wins

Delta Tau Delta ran away from Delta Chi, 22 to 0, in their game last night. Student fans believe the Delta's show the best form of any team that has yet been on the floor and will undoubtedly go the finals. They are fast on their feet and have a big asset in their teamwork. The Delta Chi's had several chances at the basket but were unable to get in connection. Hubka and Bekins were the point-winners for the Delta's and Adkins did good work for the Delta Chi's.

The line-up follows:
Delta Tau Delta Delta Chi
Gilliland Conrad
Strohmer Eckerth
Bekins Talcott
Richards Adkins
Hubka Noble
Delta Tau Delta 22; Delta Chi 0.

Alpha Sig's vs. Beta's

One of the fastest and hardest fought games was that between Alpha Sigma Phi and Beta Theta Pi ending in a 12 to 6 victory for the Alpha Sig's. During the first periods of play the lead went from one to the other and for a time it was anybody's game. The Beta's blew up in the last ten minutes of play and the Alpha Sig's ran up a 6-point lead, before the whistle blew. Bryans and Dobson

BARBS AND GREEKS CLOSE RIVALS IN SCHOLARSHIP

Sorority Women Rank at Top in Last Year's Grade Percentages Issued Yesterday

Statement of grade percentages for the first and second semesters issued yesterday from the office of the executive dean show there is little difference in the standings of fraternity and non-fraternity students. Women have a big lead over the men both in the Greek and in the barb class. In both the first and second semesters the index of the co-eds was nearly 100 per cent above that of the men.

In the first semester the fraternity men out ranked the non-fraternity men with an index of 168.9 to 159.2 for the barbs. In the second semester the Greeks did not fare so well and the indexes were 191.3 and 196.1, with the barbs in the lead.

Sorority women lead in the index records for both semesters, 267.8 to 242.8 in the first and 280.9 to 266.8 in the second. No delinquencies were registered for the sorority women in the second semester.

Following is the complete record as issued yesterday:
(Continued on page three)

Armenian Student Will Speak of Native Country

J. G. Mandalian of Nicodemia, Armenia, a graduate student in the history department, will give a talk on the conditions of the Armenian people and their future after the war, before the University Students' Guild of the First Presbyterian church at 12 o'clock Sunday.

Mandalian is a very interesting speaker and knows his subject from experience. He has been very active in the Syrian and Armenian relief work and has given talks in behalf of different campaigns.

Last Sunday morning he talked at the First Presbyterian church at Pawnee City, and during the Christmas holidays, he talked before the Ministers' association at Nebraska City to solicit support and funds preceding the Armenian relief campaign at Nebraska City.

Prof. L. C. Wimberly in Iowa Prof. L. C. Wimberly was called to Iowa Thursday on business. None of his classes met either Thursday or Friday.

YESTERDAY BRIGHT SPOT IN CORNHUSKER PROGRESS

Varsity Plays Best Game of Season in Scrimmage Against the Freshmen

The varsity, exhibiting the temperamental qualities of an operatic star, has suddenly left its slump again, and is now playing better basketball than at any time since the start of the season. In the past two practices, it has given the freshmen a one-sided beating that was an entire novelty to them. The team is commencing to work its plays as it should, and as a consequence its teamwork at all points of the game is greatly improved.

Besides the improvement the team as a whole is making all the different players and showing more speed and form than before. Schellenberg has shown the most conspicuous improvement. He is developing a good eye for the ring, and has lots of speed, and should be able to make a good berth for himself among the forwards on the squad. Adkins, Hubka and Gerhart are also showing up better than ever, and Jackson, the only veteran on the team, is going at his usual fast pace.

The team will be seen in real action for the first time, when it meets Camp Funston here in the first game of the season. The soldiers have an all-star team, and the Cornhuskers have little hopes of winning the game, but if the team keeps up the pace it has been setting this week, the score should be low and close.

CONVOCATION AUDIENCE HEARS SONATA TRAGICA

Sidney Silber of University School of Music Plays Work by McDowell

A very enthusiastic and appreciative audience heard Mr. Sidney Silber play at Convocation at 11 o'clock in the Temple theatre yesterday morning. Mr. Silber who is senior pianist at the University school of music played the Sonata Tragic by McDowell, a composition which seldom played in public.

The movements of the Sonata Tragic are:
Largo Maestro-Allegro risoluto
Molto allegro-vivace
Allegro eroica.

Spear Chosen Head of Phi Delta Phi

W. Spear, Law '19, was elected council and Harvey Johnson, Law '19, was made pro-council of the Phi Delta Phi at a meeting of the organization held at the Bushnell Guild house last evening. Spear succeeds John Riddell as head of the fraternity due to the latter's withdrawal for war service. Johnson replaces Spear as pro-council.

Judge Ralph P. Wilson made a short talk early in the meeting urging to the men the seriousness of their present study and emphasizing the responsibilities of the lawyer at the bar. "Diligence," he said, "should be the lawyer's main asset in business, and to gain satisfaction with success the lawyer must above all be honest in his dealings with the client as well as his opponent." He discussed the advantages of gaining employment with

PLAN SPECIAL TRAINING FOR DRAFTED MEN

University to Give Courses in Technical and Mechanical Work

CLASSES TO BEGIN SOON

Government in Need of Trained Men—Will Assign Certificate Holders to Appropriate Duties in Camp

University officials are planning a series of courses in vocational education to be soon offered to conscripted men of classes 1 and 2, to fit them to take up technical and mechanical work when they are called to the colors. The course will probably be started as soon as it has been determined how many men will take it, and what branches of work will be wanted.

The government needs technicians and mechanics for army service, and needs them very badly. Workers in all classes of trained vocations are needed, but particularly auto and gas engine men, blacksmiths, bookkeepers, carpenters, machinists, nurses, surveyors and other vocations. To supply this demand, State boards of vocational education have been appointed throughout the country to cooperate with universities and colleges in offering these courses to the men. The plan is advantageous for both the government and the drafted men. It supplies the government with the trained men it needs, and on the other hand it gives the men an opportunity to get valuable training and to engage in more agreeable work after they have been called to service. It is expected that the plan will prove universally popular, and that the enrollment for the courses will be large.

Rules for Courses
Certain rules will govern the enrollment in these schools:

(1) Enrollment is limited to conscripted men of classes 1 and 2, who have passed the physical examination, and who have had some previous experience and ability to make it profitable for them to enter the class.

(2) Length of the term depends upon the individual ability and application.

(3) Courses of instruction are free, but the men will pay their own personal expenses.

(4) Night as well as day classes will probably be organized.

(5) This training is compulsory for no one.

(6) Men attending these courses will be given a certificate of the work they have done, to take to the training camp with them.

(7) Army authorities will keep track of the men in these classes, and will see to it that they are assigned
(Continued on page two)

MILITARY DEPARTMENT TO OFFER EXTRA COURSES

Commandant H. L. Roberts to Have Classes in Detailed Theory for Officers

The military department will offer two extra courses in military theory, beginning next semester. The first one will be for non-commissioned officers, known as Course 10, in which there will be one division at 4 o'clock Tuesdays and Thursdays, in the Armory. This course carries one hour credit. The other course will be for commissioned officers, known as Course 12, in which there will be one division at 4 o'clock Mondays, Wednesdays and Fridays in the Armory, carrying two hours' credit. It will consist of instruction in theory as directly applied to officers.

Last year courses were offered of a somewhat similar nature, when out of door drill was abandoned in the winter months, and the men received instruction in various points of military theory, but this year work will be much more detailed, and will be carried along outside of regular drill. Although the work in Course 10 will be elective, it is planned to require all non-commissioned officers not having conflicts to take the work. Colonel Roberts, commandant of the cadets, will instruct both courses.
