- Artillery Ammunition,
- Engineering Material
- Packing Boxes
- Cartridge Cases
- Assembling, Loading, etc.
- Ballistic Inspectors
- Artillery Wheels
- Gun Carriage Forgings
- Gunfire Control Instruments
- Machinery and machine tools
- Cannon (Machining Operations)

2. At the suggestion of the Acting Chief of ordnance, we are addressing this letter to the Commercial club, requesting your assistance in our effort to fill these imperative ordnance employment demands. The need for competent civilian employes in the ordnance department has become so urgent that every citizen who is not now employed in some form of government work ought to look upon this as a personal appeal.

3. It is possible that among your membership there are persons who will be able to assist the ordnance department in one of the positions enumerated. Perhaps some of the members of the Commercial club will be willing to rearrange their organization so that some of their employes may be released for government service.

4. The positions in the department are filled in accordance with civil service regulations. We are attaching several announcements indicating the character of the requirements for the positions.

5. Perhaps it would be possible for you to post this letter on your bulletin board, insert the communication in your regular publication or bring it to the attention of your membership in a special letter. If you will send to the civilian personnel section the names of any persons willing to serve in any of the capacities enumerated, we shall forward such prospective employes the necessary information regarding the positions in which they are inter-

ested. All communications regarding these positions should be addressed to Major L. H. Van Dusen, civilian personnel section, 1330 F Street, N. W., Washington, D. C.

6. As the ordnance department is charged with the responsibility of supplying all munitions for our soldiers in France, anything that you can do to assist in obtaining the required quota of employes will be in the nature of a distinct contribution toward bringing about the speedy and successful conclusion of the war.

Respectfully,
(Signed) L. H. VAN DUSEN,
Major, Ordnance N. A.

GREEKS NOW READY FOR SECOND ROUND

(Continued from page one)

Score—Sig Alpha Epsilon 6, Phi Delta Theta 1.

Batteries—Sigma Alpha Epsilon, Peterson, DeTeau; Phi Delta Theta, Clark, Koehler.

Alpha Theta Chi took a hard-fought game from Bushnell Guild, 3 to 0. Neither team seemed able to find the ball at the right time. Lindley for Bushnell Guild and Evans for the Alpha Thets both struck out about half of the men who shouldered the bat. One hit apiece was accredited each team.

Score—Alpha Theta Chi 3, Bushnell Guild 0.

Batteries—Alpha Theta Chi, Evans, Spear; Bushnell Guild, Lindley, Gravengard.

The Delta Taus had little trouble in disposing of the Phi Gam's and the superiority of the Delts was never in doubt. Gillilan and Hubka had the Phi Gam's batting the air most of the time, while every man on the Delta Taus team made their bats talk hits.

Score—Delta Tau Delta 12, Phi Gamma Delta 2.

Batteries—Delta Tau Delta, Gillilan, Hubka and Thomas; Phi Gamma Delta, Dougherty and Graves.

The Sigma Nu-Phi Kappa Psi combat was a slugging contest from start to finish, with the Phi Psi's emerging the winner by the score of 15-14. During the early stages of the game it looked as if the Sigma Nu's were going to have a walk away, but when the Phi Psi's started to hit Ohde's delivery they were not to be denied the long end of the score.

Score—Phi Kappa Psi 15; Sigma Nu 14.

Batteries—Phi Kappa Psi, Wright, Kellogg and Thorpe; Sigma Nu, Ohde and Rhodes.

HALF AND HALF

Quick to Catch On

Edward had an uncle who owned a grocery and market. On Saturday it was Edward's delight to go there to help. On this particular day a neighbor chanced in. Finding Edward there, she thought she would find out how much the little fellow knew about business. Seriously she said: "Ed., have you chickens today?" The youngster's reply was: "Yep, we have all kinds, alive, read, dressed and undressed."

Chance to Escape

During the week certain members of the flock had been paying over-much attention to sampling the local whisky, and the "moonster"—this is a Scotch story—took advantage of his position in the pulpit to administer gentle reproof.

"An' I tell ye, one an' all, ye're on the way to perdition!" he cried.

At that moment a fly settled on the book before him. He raised his fist.

"Ye're gaein' ene the bottomless pit!" he shouted. "And ye'll get there just see sure as I ding the life out o' this fly."

His fist crashed down as he uttered the words. Then he looked to see the results of his handiwork.

"Missed!" he ejaculated. "Ah, well, maybe there's a chance for some o' ye yet!"—Ex

What Are You Going to do This Summer?

\$14.68 Average Profit Per Day

For the Entire Month of March

Some Things You Have Wanted To Know

Selling The People's Home Library you make as high as 60 per cent profit. You get a \$50 Government Liberty Bond for 60 days whether or not you sell a book.

The People's Home Library has been adopted as the Official Report of The International People's Aid Association. The object of this association is to prevent suffering, lower death rate, conserve food and save live stock. These things will help win the war.

You are a county conservation worker. You show the farmers how to save the things necessary to win the war.

A. A. Hurt made \$93 last week in 5 days. What Hurt is doing you can do.

"Procrastination does to opportunity what jobs do to initiative."
