# Scott Attends Conference of Valley Schools-Practice Progresses Favorably

Football dope was completely upset early Saturday by the report from Chicago that Colonel Rees had ordered that all games of football for the month of October should be postponed in those cases where the visiting teams would have to entrain for the field of conflict before Saturday morning. This would have cancelled nearly all of the games on the Nebraska field for the month of October if the report proved true.

Late Saturday night, however, no definite word had been received by either Chancellor Hastings or Captain Maclvor and authorities here including Coach Kline were inclined to the belief that the report was merely a rumor started by some venturesome person in Chicago for the purpose of stirring football gossip just a triffe

The report included a similar ruling concerning the games for the November schedule allowing the time of absence from their own quarters of the visiting team to extend from Friday afternoon to Sunday evening. This would also have made short work of all the big games on the Husker schedule but the 'opinion prevailed Saturday night all the games definitely arranged under prior rulings

In the Saturday scrimmage no permanent line-up was held but the men were shifted to various positions and new men were thrown in to make a trial so that all were given opportunity to show their metal as gridiron fighters.

Probable lineup for the back field favors Shellenberg, Hubka, Mc-Mahon and Lantz, a quartet of players that will form one of the most effective machines that has ever been directed by a Nebraska coach.

As to the rest of the line-up Coach Kline picks no favorites although he feels confident that he can pick plenty of material that will fit into the line very well with the necessary training.
