

THE DAILY NEBRASKAN

-VOL. XVIII. NO. 13

UNIVERSITY OF NEBRASKA, LINCOLN, FRIDAY, OCTOBER 4, 1918

PRICE FIVE CENTS

HAWKEYES INVADE LINCOLN SATURDAY

Arrive at 10:15 Saturday With Idea of Extinguishing the Husker Tribe

The Iowa football warriors invade the camp of the Huskers tomorrow with the strongest band they have been able to summon in years and are intent upon carrying back to Iowa City a dozen or more dripping scalps, trophies of a desperately fought battle. The Cornhuskers, ambushed behind hastily constructed barriers, are lying in wait with an equally desperate intent of annihilating the whole tribe from across the river.

A savage battle is predicted with the odds in favor of the invading foe. The veterans and two new men even better than the veterans comprise the aggregation from the east, as Assistant Coach Schissler described them at the football rally yesterday. Nebraska is taking to the field a raw machine whipped into shape under the able and careful hands of Coaches Kline and Schissler. Four of their number have been through the fire one season and the others have been toiling for weeks in the belief that their indomitable fight and their method of attack will down the sages from Iowa.

The first team succeeded in putting across three touchdowns in a practice game with the scrubs Thursday. McMahon showed up well in the practice getting away for a few long runs. It is probably that "Mac" will take part in the game Saturday and no provisions are being made for filling his position in the back field. Howarth and Newman showed up well in the practice and will head the list of substitutes for backfield positions.

Mont Munn, the first year phenom, continued his excellent playing at the center position and has probably clinched this place on the team for the Iowa game. Cypreanson also played a

ROSEWILDE PARTY HOUSE HAS OPENED NEW SCHOOL

The new dancing school at the Rosewilde party house under the direction of Miss Eleanor Frampton and Mrs. Kathleen Doyle Halligan held its opening exercises Thursday evening. It was an artistic program of aesthetic dances, songs and readings which preceded the general dancing. Just before the dancing a mammoth American flag which reached to the floor was unrolled from the balcony while Schembeck's orchestra, strikingly costumed to fit the occasion, played the "Star Spangled Banner." The program for the evening was as follows:

Czardash-Polish Duet, Eleanor Frampton, Marjorie Barstow.
Waltz-Romeo and Juliet, Jessie Doyle Murray.
The Dragon Fly-Toe Solo, Emily Beutley, Chicago.
Readings-Gladys Appleman.
Bedouin Daughters of the Desert-Arabian Solo, Eleanor Frampton.
Two Little Songs-Jessie Doyle Murray.
Spring Song-Interpretive Dancing, Eleanor Frampton.
General Dancing-Schembeck's Orchestra.

Induction Takes Time

The S. A. T. C. men are being inducted at the rate of about 100 per day. At this rate it will take two weeks to complete the induction. Sergeant E. A. Webb, in charge of the work, said Thursday afternoon that the work would last two weeks. The number inducted daily is as follows: Tuesday, 31; Wednesday, 53; Thursday, 151; Friday, 142; Saturday, 15. About twelve of those already called have failed to appear. The pay of an S. A. T. C. man starts when he is fully inducted.

INSTRUCTORS ANNOUNCED FOR WAR AIMS COURSE

The issues of the war will be made a living reality to each man, if the ideals of the men at the head of the war aims course are realized. The course, as planned, offers three hours a week for nine months. For the first three months, a historical sketch of the origin of the war, our participation in it, and, as much as possible, a history of the war itself, will be presented. The course is especially hard to plan because men will be removed at the end of each three month period, yet the government asks that the men who only have three or six months of the course, instead of nine months, have a well rounded conception of the subject.

Plans for the last six months of the course are being made in Washington. The political, philosophical and literary ideals of different warring nations will probably be studied. It has been proposed that this course coordinate with the rhetoric classes, and that the subjects for themes be selected from the subject matter of the war aims course.

About 1600 men will take this course. They will be divided into ten lecture divisions, with two lectures a week. The lectures will be delivered by Professors R. E. Cochran, E. L. Hinman, Guernsey Jones, J. T. Lees, Edwin Maxey, F. W. Sanford, J. P. Seening and Hutton Webster. Besides the lectures, the men will attend one quiz section a week. The quiz masters will largely be men detailed at the University of Nebraska from the Great Lakes training school.

The lectures will start Monday, October 7. The quiz sections begin the following week.

STRONG COMPETITION FOR EDITORSHIP AT CORNELL

News measured by the inch is the factor most concerned in winning high positions on the Cornell university paper. For six weeks all competitors for the position of assistant editor have broken their necks to outdo their rivals. Each competing reporter hands in write-ups, just as fast as he can get them, to be judged and measured. If the article deserves only a one-deck head, it is measured by the actual amount of inches of the material. If, however, it deserves a two or three-deck head, the actual number of inches is doubled or tripled or quadrupled according to the important news and the person who has the most of it at the end of the period of competing wins the desired position.

PROF. HRBKOVA ON TOUR

Professor Sarka Hrbkova will return Tuesday, the eighth, from a twelve day Liberty Loan speaking tour. Miss Josephine Zurst and Mr. M. F. Levinston have had charge of her classes during her absence. Her speaking dates for the tour were: Beatrice, Sept. 26; Wymore, Sept. 27; Madison, Sept. 29; Central City, Oct. 1; Kearney, Oct. 2; Aurora, Oct. 3; York, Oct. 4; Grand Island, Oct. 5; Broken Bow, Oct. 7.

MEN ARE EXCUSED FROM DUTIES FOR ONE HOUR

S. A. T. C. Given Time to Attend Lecture on Barracks Life By Medical Officer

S. A. T. C. men are excused from any requirements between eleven and twelve o'clock this morning in order to attend a lecture on medical subjects connected with barrack life by Captain Harrington in the Temple theatre at eleven o'clock. The announcement was read to the men as they lined up this morning for roll call but the notice, signed by Chancellor Hastings applies to all S. A. T. C. men, whether already inducted or not.

SPANISH INFLUENZA UNDER CONTROL

Old Cases Are Isolated, While Only a Few New Cases Appear

The threatened epidemic of Spanish influenza is now coming under the control of the authorities at the University. About one hundred and fifty cases were reported Wednesday evening at the meeting of the committee of health and sanitation in the Commercial club rooms. Of these cases, seventy-five are among the men in the University training detachment stationed at the state farm, on the city campus and at the Hayward military academy. The others are such cases as have come to the attention of Dr. Ewing and Dr. Clapp. Absolutely new cases are not being reported as fast as they were during the first few days of the week, and indications are that they will be fewer from now on. Most of the cases which have been reported are isolated and are receiving the best of attention. Only in a very few instances is there any danger of a serious result.

Captain Buck of the University training detachment, Captain Hamilton and Captain MacIvor of the S. A. T. C. and Dr. Wilson of the state board of health, Dr. Chapman, city physician, Dr. Clapp of the University and Dr. Bailey, who presided at the meeting at the Commercial club, discussed plans to cope with the situation. They decided that one of the best ways to prevent the spread of the contagion is for everyone to keep himself in a state of general good health, and above all not to become so alarmed over the rumors heard everywhere, that he will be in a more susceptible condition. With the present measures which are being taken to care for those who are sick, there is no apparent danger of the disease developing into a serious epidemic.

There is now a temporary infirmary at the University which will adequately accommodate ninety patients, and the authorities at the state farm have given assurance that they will turn over all the buildings needed to care for the cases that may arise. The committee passed a resolution asking that the Commercial club confer with the University authorities concerning the establishment of a more permanent infirmary for the University.

To All S. A. T. C. and S. N. T. C. Students of the University:

Waiting for physical examination and induction is no excuse for non-attendance to classes. It is to be hoped that every student will, without fail, be at his post and no excuses for absences will be given after Monday, October 7, except for illness in bed. Dean Carl C. Engberg.

WHY BUY SEASON TICKETS

Six big games can be seen for three dollars for a season ticket. The general admission price for the Iowa game Saturday will be one dollar, and fifty cents more will be charged for reserved seats. This is one-half the price of a season ticket. Buy a season ticket because it pays you and it helps the Red Cross.

Dr. Condra has received a letter from Glen Ruby, who is in a cantonment of Kentucky, stating that persons who have experience in mapping at the University of Nebraska should show up to advantage in army service. Ruby is a student assistant in mapping. He borrowed an equipment from the University and reports that this is the best equipment in the camp.

S. A. T. C. MEN TO BE SELECTED OCTOBER TENTH

Things are happening by leaps and bounds at the S. A. T. C. headquarters just now. The men are not all fully inducted yet, but already a call for twenty-nine men for the officers' training camp has been issued.

Any member of the S. A. T. C. who has been fully inducted is eligible to apply. The news of the call was announced by the commandant Thursday afternoon the men who got wind of the new order rushed in to see the commandant. Application must be made in person.

The early call for future officers is in direct accordance with the plan of the S. A. T. C. It is the purpose of the organization to continually sift men for officer material. Here is a chance for men to show their ability.

Following is the official order by the commandant:

All men whose inductions have been completed into the S. A. T. C. and who wish to make application for central officers' training schools, will file with the commanding officer such application not later than Saturday, October 5. No particular form is specified in writing application. The applicants will set forth their qualifications in detail. All S. A. T. C. members whose inductions are completed or whose inductions will have been completed by Friday, October 4, will be eligible to apply. Those men whose inductions have not been completed by Friday, October 4, are specifically instructed not to apply, as their applications will not be entertained.

NEW STAFF FOR PHYSICAL EDUCATION DEPARTMENT

An entirely new staff of directors, instructors and advisors will supervise the work in the department of physical education for women this year. Mrs. Clapp will head the department, as director, and an unusually successful year is expected under her leadership.

The rest of the appointments are as follows:

Dr. Halle Ewing, medical advisor to women. Dr. Ewing will be on duty half-time for the entire school year, in the office in the Armory. She is ready and glad to help and give at any time, who wishes medical advice. This help is free for all girls in the University, whether they be registered in the physical education department or not. Mrs. Adolph Whiting Williams, a former student and graduate of the University of Nebraska, will act as an instructor. Miss Josephine Gordon of Boston has also been appointed as an instructor. Mrs. Charlotte Wheddon Scott will be in charge of the classes in aesthetic dancing. Mrs. Scott conducted one class for advanced physical education students last year, but will have entire charge of the aesthetic dancing classes this year. For several years Mrs. Scott has had a large private dancing class in the city and has assisted in directing the dances.

ACADEMY OF SCIENCE HAS NEW OFFICERS

The newly appointed officers of the Academy of Sciences are announced by Professor David D. Whitney as follows:

President, David D. Whitney.
Vice-president, Emma Hawthorne.
Secretary, C. O. Carlson.
Treasurer, A. J. Mercer.
Vice-president Earth Sciences Section, G. A. Loveland.
Vice-president Physical Sciences and Mathematical Section, B. C. Hendricks.
Vice-president Biological Sciences and Medical Section, H. B. Latimer.
Vice-president Ethnology and Folk-Lore Section, Louise Pound.
Vice-president Engineering Section, P. K. Slaymaker.

CORNHUSKERS HAVE NEW WAR TANK

Its Steam Gauge Indicates High Hopes For Nebraska

Hawkeyes Will Be First to Fall a Victim to This Machine

Although Coach Kline, a new engineer at the wheel, in spite of the fact that only four veterans are in the tank, and regardless of unusual handicaps, Nebraska has a football machine which, in the initial game of the year Saturday, will knock the Hawkeyes back on neutral soil and will bring back the bacon to Nebraska. This was the conclusion reached by the crowd of loyal rooters who packed the Temple theatre to the rafters in the first rally of the year Thursday.

When the cheer leaders opened the exhaust on the steam gauge, a war-hoop went up that was enough to make the warriors from Iowa retreat to the back line trenches. This was an indication that the student body is behind the team with all their pep; it is a sure sign that the Cornhusker tank won't stop for lack of steam. Amid the cheers from those back of the lines in the audience, the team marched to the platform. Walter Blunk, as chairman of the meeting, introduced Professor R. D. Scott as first speaker. From the minute he began to talk the spirits of all Nebraskans, raised, and raised, and mounted and mounted until before they knew it they were believing as he did, "that Iowa hasn't a chance in the world."

Assistant Coach Paul Schissler gave a big scare when he said that Iowa has

FEDERAL BUREAU OF EMPLOYMENT INSTALLED

Nebraska is First in Country to Receive Such a Bureau

The University of Nebraska is now in co-operation with the employment service of the United States department of labor, maintaining a federal employment service for teaching and all other lines of professional service. June 19 the bureau on recommendation of teachers of the University took charge of this service. Professor A. A. Reed, secretary of the bureau, was appointed the federal director of the work, and the expenses are met jointly by the government and the University.

All candidates for teaching and other professional positions, without regard to institutions, are entitled to the assistance of the bureau, free of charge. Recommendations are sent to officials of all schools, while credentials and confidential reports are based solely on the merits of the candidate, rather than according to the standing of the school where trained. All records and files of the organization are open at any time to authorized representatives of institutions interested in candidates.

First of Its Kind in Country

Nebraska is especially favored with this opening since it is the first office of its kind in the country. It is the first time that the United States department of labor has attempted to co-operate with an educational institution and the bureau is proving a very interesting and successful experiment. It has been of great help in filling vacancies left by men who have gone into military training service. The object of the plan is to have an office at medium between schools, educational institutions and corporations interested in professional services. The bureau has been able to cover a wide field, especially in the
