

THE DAILY NEBRASKAN

VOL. XVIII. NO. 17

UNIVERSITY OF NEBRASKA, LINCOLN, THURSDAY, OCTOBER 10, 1918

PRICE FIVE CENTS

INDUCTION WORK AGAIN UNDER WAY

Over Six Hundred More Students
Sign Papers and Give Up
Civilian Life

Mess Line Grows Longer at Every
Meal and Men Take to
Army Fare

About 650 more S. A. T. C. prospects received notice of their competent papers Wednesday morning and by evening nearly the same number had signed their release papers which practically made them members of the United States army. Sergeant Webb, in charge of the work, is pleased with the response given by the men.

A few failed to report to attend to this duty. These men are urged to report as quickly as possible as delay will automatically count them out.

All of the men who signed the release papers were mailed greetings yesterday and they will report for final induction as soon as the papers are delivered to them. Failure to do this will mark them as slackers and they will be sent to cantonments right away as a punishment.

The number attending mess is increasing right along. Those who got up too late Tuesday morning to partake of the army breakfast turned up their alarm clocks Tuesday evening as they went to bed early in order to be on time Wednesday morning. As a consequence the number fed Wednesday morning was nearly twice as many as that of the previous day.

The foodstuff fed to the men is very good. All declare that they get enough and more too. In fact the boys are getting a little too extravagant. Orders were issued Wednesday urging the men to Hooverize.

FOUR HUNDRED FOR NEW TRAINING DETACHMENT

Volunteers From State Make Up
Part of Next Quota For
Special Work

Four hundred and twenty men of Class 1-A have been called from Nebraska to volunteer for instruction as truck drivers, and repairers, auto mechanic, motorcycle repairers, tractor operators and wagoners. The enlistment will end after October 12. The men must be white and will be sent to the University of Nebraska for training. They will be in Section B of the S. A. T. C.

The allotment was made at state headquarters at 1:30 p. m., October 7. Volunteers at that time were 453 and consequently offers had to be scaled. If a local board has no share in the call it is because Acting Provost Marshal Walter L. Anderson had no report it. Captain Anderson says in his notice to local boards:

"Referring to paragraph 7 of bulletin 477, I am advised by provost marshal general's telegram E-2678 that September, 1918, registrants between the ages of 19 and 36 who have been classified and examined and found to be in group A may volunteer under this call. We are issuing calls today for 7,000 men from Nebraska, which calls with this call will take all the available men which some boards have in the registrations prior to September, 1918."

Y. W. C. A. MEMBERSHIP CAMPAIGN OUTLINED

The fifty girls who are to be leaders of the Y. W. C. A. membership campaign met Wednesday evening at Faculty hall in preparation for the special membership drive to begin shortly.

Another Gold Star Gleams on Uni- versity's Service Flag

One more star on the university service flag has felt the touch of war's sacrifice and now shines forth in glittering gold. Francis L. DeBrunner was a victim of German gas on August 28 and died in a French hospital on September 9. He was a student in commercial law at the university and enlisted in the infantry last year. He was in the 355th infantry, 89th division, and was stationed at Camp Franklin before sailing for the war zone, June 6. His home was at Lodge Pole, Nebr.

PROF. HRBKOVA RETURNS FROM STATE LOAN TOUR

Urged Sale of Liberty Bonds in
Ten Counties of
Nebraska

Prof. Sarka Hrbkova, head of the Department of Slavonic languages, returned Tuesday, after a two weeks' Liberty Loan speaking tour, in connection with her work as chairman of the women's committee of the state council of defense. She visited ten counties and spoke in seventeen towns on this tour.

She spoke on women's war activities with special reference to the Liberty Loan. Miss Hrbkova says that she expects Nebraska to go "over the top" in this drive in spite of the fact that the quota is double that asked in the last loan. She reports that the state is in a condition of prosperity and that everywhere she met great enthusiasm.

"I was very glad to see the way in which former university students are boosting war activities in their home towns," Miss Hrbkova said. "Everywhere the women and the men who remain at home are putting their shoulders to the wheel and taking an active part in war work."

COMPLIMENT CHATBURN FOR S. A. T. C. WORK

Washington Pleased With Fine
Showing of State Director
of Training Camps

Professor George R. Chatburn, head of the department of applied mechanics and machine designs, has been complimented by the military authorities at Washington for the great success he had in recruiting men for the S. A. T. C. unit at the University of Nebraska.

It was through the continual and patient efforts of the university professor that every county in the state heard of the plan of the government to raise an army of trained men to be kept in reserve as a source of officer material. For about six weeks he did nothing but write and answer letters to all Nebraska men who would be eligible to the S. A. T. C.

Captain MacIvor Entertains for Alpha Chi Omega Girls at Woods Country Lodge

Captain MacIvor entertained for the active chapter of Alpha Chi Omega and the men of the headquarters company, Tuesday evening at the Woods country lodge, a charming rustic cabin in a grove near Lincoln. The men went out early in the evening in an army truck expecting only a stag affair.

When Captain MacIvor appeared a little later with three automobiles full of girls, singing their society songs, the men were taken completely by surprise.

NEW HOSPITALS ARE ESTABLISHED

Fighting Influenza Epidemic With
Every Facility at
Hand

Two More Deaths Are Reported
Among Soldiers of Training
Detachment

The seventh emergency hospital was opened on the campus Wednesday for the care of influenza patients. A number of houses near the east end of the campus, on Twelfth street, have been taken over by the military authorities of the Nebraska training detachment, and those cases which require medical treatment are sent to these temporary infirmaries. The most critical cases at the farm are being isolated from the convalescents in an eighth emergency hospital. Every effort is being made to keep the disease from spreading any further and to stamp out what has already taken a hold. New cases are being reported but on the whole there are not as many as during the first few days of the epidemic. This would seem to indicate that the epidemic is coming to a halt.

Two Soldiers Taken

Two more deaths, Reuben Larsen of Aurora and Gloudis Wedin of Haxtum, Colo., were reported among the soldiers of the training detachment on Tuesday, one on the city campus and other at Hayward military academy. The bodies are being sent to their homes for burial.

Considering the extreme heavy casualties resulting from the epidemic in other places, especially military camps in other part of the country, Lincoln may be said to be rather fortunate in having so few fatalities. At Camp Grant there have been 525 deaths reported so far. Hundreds are sick and heavy death tolls have resulted in several eastern camps, but as yet Lincoln has been spared such serious results of the spread of the grippe.

Must Report Cases

Reports of all cases of influenza must be made to the state health department through the local boards of health. A circular has been sent out instructing all physicians to report the cases which they treat. The instructions follow:

"To those diseases that are reportable, please add Spanish influenza.

"It is the request of the surgeon general of the public health service that they be constantly informed regarding conditions in Nebraska. Therefore, please report all cases promptly to your local board of health, and kindly see that the local board of health reports promptly to this department.

"We would ask that you inform your city authorities that the laws of the state of Nebraska require every person to report diseases, and it would be well to insert a notice to this effect in your local newspaper. While it is not compulsory that people call a physician, still if no physician is employed, it is the duty of the family to

(Continued on page 2)

Influenza Proves Fatal to Ex-Nebraska Man at Camp Grant

Edward A. Rogers, former student of Nebraska University and the son of Mrs. Edgar A. Rogers of 1542 K street, Lincoln, died of pneumonia following an attack of Spanish influenza at Camp Grant, Ill., October 1. He was 27 years of age and was born in Lincoln. He was a graduate of Lincoln high school and of the university, and had been a member of the Harvard law school for a year.

Mr. Rogers applied for admission to the first officers' training camp at Fort Snelling in May, 1917, but was disqualified on account of a minor defect. He entered the service at Camp Grant September 7, as a member of Company 48 of the 161st depot brigade. His first assignment was to the ambulance service at the base hospital, where he contracted the disease.

Y. W. C. A. CAMPAIGN INAUGURATED TODAY

University to be Combed for New
Members in Four Day
Canvass

Ten Teams to Work Under the
Direction of Marjorie
Barstow

The annual membership campaign of the Y. W. C. A. opens today and every girl on the campus will be asked to join the association. The campaign will be conducted Thursday, Friday, Monday and Tuesday, closing at five o'clock Tuesday.

The committee, headed by Majorie Barstow, vice-president of the Y. W. C. A., is composed of fifty girls who are working in teams of ten each. The captains of these teams are Dorothy Wetherald, Ruth Hutton, Carolyn Reed, Helen Kendell and Grace Stuff.

The membership this year is expected to be very large because this is one year especially when every girl in the university should be a member of the Y. W. C. A. This is the girl's year for real worthwhile aims and accomplishments and the Y. W. C. A. is ready to help the girls do this work.

Perhaps the most value received from membership in the association is in the acquaintances made through vespers, committee work and Y. W. C. A. parties. Here a girl meets true, sincere girls all working together for the same ends, and many lifelong friendships are formed.

Then again, vesper services are held every Tuesday at five o'clock in the Y. W. C. A. room. Some of these meetings are conducted wholly by the girls and others by speakers on live, up-to-date topics.

This year especially the Y. W. C. A. is active in war work. The association room in the Temple is used as a hostess house, and the cabinet has pledged the association to support all worthy requests for service.

Last, but not least, this Y. W. C. A. is a part of a great world-wide movement with hundreds of thousands of members. This association is a real cog in the great wheel and every girl has the opportunity in this way of sharing in the great world needs. Any girl in the university, without regard to religious preference, can affiliate with the organization and in the light of the new "war ideals" every girl will no doubt consider it a privilege to become a member.

BUREAU RECEIVES MANY CALLS FOR TEACHERS

The bureau of professional service is receiving many calls for teachers and is unable to supply the demand. These calls are principally for science, mathematics and Latin teachers. Persons interested are asked to call at the bureau as soon as possible.

DEAL CLOSED FOR GAME NOVEMBER 2

Kline Completes Arrangements
With Notre Dame
University

Football Men to Be Inoculated
Soon—Dodge Game Still
Undecided

Final arrangements have been made with the Notre Dame athletic authorities and the Hoosiers are to invade Nebraska territory November 2. Head Coach Kline of the Huskers wired his acceptance to the note from Coach Roche Wednesday, and the deal is closed.

The proposed game with the Camp Dodge eleven for October 26 may not materialize as the members of the football team are going to be run through the inoculation machinery in a few days and Kline is doubtful as to whether they will be in a condition to play. The matter will rest for the time being at least and no game will be scheduled for either October 19 or 26.

Camp Funston is still on the bill for next Saturday and nothing has come up to block the battle. The varsity is hard at work preparing for the conflict, although six or seven regulars have been caught in the influenza cyclone. Two men, McCoy and Cyprean, have been lost to the squad by the call for the officers' training camp. The scrubs put up a scrappy exhibition against the first stringers yesterday afternoon and the coaches do not seem utterly down hearted over the prospects.

EVANGELINE PELTON'S FUNERAL TO BE TODAY

Funeral services for Evangeline Pelton, who died Tuesday, will be held at the First Presbyterian church on Thursday at 4:30 o'clock. Miss Pelton was an active member of the Y. W. C. A., the W. S. G. A. and other university organizations as well as in the church in the University Student guild. Her mother will be glad to have all her friends connected with any of these organizations attend the funeral services, as the hour selected is one when most of the university students will be free. The senior advisors are especially asked to be present. The burial will be at Wyuka.

NEBRASKA GRAD TELLS OF LIBRARIAN'S WORK

J. E. Morgan, who was graduated from the University of Nebraska in 1917, spoke on "The Seven Participating Organizations from a Camp Librarian's Experience," and "The Camp Library," at the twenty-fourth annual meeting of the Nebraska Library association, held at the city library, October 7 to 9. Mr. Morgan is librarian at Camp McArthur, Waco, Texas, and he spoke from his personal experience.

Leonard Trester, also a former student of the University of Nebraska, spoke on the Boys' Working Reserve.

PHI DELTA KAPPA HOLDS DINNER FOR J. E. MORGAN

Phi Delta Kappa, honorary educational fraternity, held a dinner Tuesday evening at six o'clock at the city Y. M. C. A. in honor of J. E. Morgan, former superintendent of schools at Guide Rock and is now doing war work with the American Library association.

Mr. Morgan is in charge of the army library at Camp McArthur, Waco, Texas, and he gave a very interesting talk on the library work with the army. He is now on a tour of the north-central states attending state meetings of the library association.
