

# THE DAILY NEBRASKAN

VOL. XVIII. NO. 41

UNIVERSITY OF NEBRASKA, LINCOLN, TUESDAY, NOVEMBER 19, 1918

PRICE FIVE CENTS

## SPIKE DODGERS FOR NEXT SPREE

### Nebraska Engages Iowa Soldiers For Next Battle in Lincoln

### Players None the Worse for Mud Baths—Post Season Games in Prospect

After digging the clods out of their matted hair and eyebrows, and wringing the dirty water out of their uniforms, during the Sunday vacation, the Cornhuskers are getting down to the grueling task of preparing to meet the Camp Dodge Soldiers on the Nebraska gridiron next Saturday.

Ever since he cancelled the game with Northwestern university, scheduled for November 23, Director Scott has been searching the country over for an opponent for next Saturday, and late last week he completed negotiations with the Camp Dodge coach to bring his aggregation of pigskin chasers to Lincoln.

It so happened that the Iowa camers were free on the date that was open on the Nebraska slate and were tickled to catch up the Husker offer. Although the soldiers have hit the rocks a few times this season they have a crackin' good football eleven and will stack up alongside the Huskers in good proportions. They took on the Municipal Pier bunch at Chicago last Saturday and came out three touchdowns in the rear but they were up against one of the strongest teams of the country.

### Post Season Games Brewing

Nebraska authorities have several good post-season games in prospect, and if they materialize, they will be played for the benefit of the United War Work, probably at some southern camp or school.

## KEARNEY CLUB ELECTS OFFICERS FOR SEMESTER

The Kearney club met Friday night, November 15. The following officers were elected:

- Angeline Riley, president.
  - Matilda Strassen, vice-president.
  - Alice von Berger, secretary and treasurer.
  - Mary Stehens, yell leader.
  - Miriam Pool, sergeant-at-arms.
  - Lucile De Camp, Reporter.
- The next regular meeting of the club will be held December 13

## MEMORIAL FOR DR. WOLFE

The university authorities are planning a memorial service in the near future for Professor H. K. Wolfe. Professor H. K. Abbott of Nebraska City will give an address on "Personal Recollections of H. K. Wolfe," and Regent E. P. Brown will also give an address in addition to the customary music.

Professor Wolfe was head of the department of philosophy on the University of Nebraska until his death last August, and one of the nation's leading psychologists. The time and place of the memorial service will be announced later.

## FORMER FACULTY MEMBERS TO RETURN SOON

Captain Philo M. Buck, formerly of the rhetoric department, stated in a letter to Acting Chancellor Hastings that he expects to return to Lincoln soon. Captain Buck has been serving in the intelligence department at Washington, D. C. Captain E. J. Stewart, stationed at Camp Gordon, is also expected to return soon.

A huge corn crop is shortly to be harvested, making impossible a shortage of mush.

## FIRST VESPERS IN NEW GIRLS' HOME TODAY

"Home Fires The World Around," is the topic for vespers, Tuesday afternoon at five o'clock in the new Woman's hall. Girls will talk about the situation in the different countries now because of the recent military development, how it has affected and will affect the home life of these countries. Margaret Perry will sing and Miss Ethel Hartley will give a reading.

Now that the new home is open the vespers there will be a much greater opportunity for the girls to meet each other and become acquainted. Freshmen especially should attend these services and learn to know the other members of their class.

## FRENCH MISSION ON EDUCATION COMING

### Seven of Most Noted Scholars of France to Visit Nebraska University

Seven of the most noted and leading scholars of France have arrived in the United States, and will visit Nebraska University about December 1, according to a communication received by Prof. George R. Chatburn.

The mission will be in this country during the months of November and December, and the members will deliver lectures before universities, colleges and learned societies on different aspects of French civilization.

The French mission comes in response to specific and repeated requests from several American institutions of learning to have representative French scholars interpret the dominant elements of French life, as a means of binding France and America more closely together.

The lectures of all the members of the mission will be given in English and are intended to appeal to the general public.

It is expected that not only colleges and universities will participate in the benefits from the visit of the distinguished French scholars but that such organizations as art, medical and geographical societies, associations of commerce, university clubs; as well as the Alliance Francaise, will also participate.

### Notable Frenchmen in Party

Members of this famous mission, which is to come to the Nebraska University, follow:

Professor Emanuel de Martonne of the University of Paris, Exchange Professor at Columbia, 1916, of whom the Bulletin of Columbia University says: "One of the most widely known French geographers; is the author of the best treatise on physical geography in the French language and of important reports on the Alps, the Carpathians and different regions of France." This is Professor de Martonne's fourth visit to the United States. He will deliver illustrated lectures on "The Real France Revealed in her Scenery and Peoples," and "Paris and the Partisan Region."

Dr. Theodore Reinach, editor of the Gazette des Beaux-Arts, Lt. Colonel in the French army, who has contributed several important studies in the History of Greece; is editor of the most important French review dealing with the study of ancient and modern arts, and a member of the "Institute de France, Academic des Beaux-Arts." He will give illustrated lectures on a "Comparison of French and Athenian Education." The Part of France in the Resurrection of Greek Art," "Greek Temples and Gothic Cathedrals," and "Martyr Monuments, Rheims, Coucy, Arras."

Professor Fernand Baldensperger of the University of Paris, now of Columbia University, a distinguished traveler and humanist, who has travelled extensively in Europe, America and Asia, and published several illuminating studies on comparative literature.

## RUMORS AFLOAT IN LOCAL ARMY CAMP

### Statement That S. A. T. C. Disbanded and School Closed Unfounded

### Captain MacIvor Not to Leave Nebraska Unit as Rumored

The S. A. T. C. is to be dismissed! School is closed indefinitely!

Don't be alarmed, folks, the above statements are only wild rumors. Yesterday was official "rumor day" on the city campus. With absolutely no foundation, rumors were wafted upon every breeze, startling news was circulated everywhere, and reporters for The Nebraskan themselves on the trail of numerous wild stories.

Early in the day, the rumor that the students' army training corps was soon to be disbanded was spread broadcast upon the campus and the story gained in force each successive time it told. This rumor seriously impaired the morale of the men and studying was almost forgotten while thoughts of home were paramount in the minds of the men.

### Captain MacIvor to Remain

Dame Rumor announced also that Captain MacIvor was soon to leave the unit and go to Washington. Soon this story gained momentum, and as it was relayed from one person to another, finally was told as an actual fact. Captain MacIvor denied emphatically the authenticity of this story, saying that it was merely "a wild rumor."

The last rumor to gain circulation upon the campus yesterday concerned the influenza epidemic. According to the oracles who carried the story, the university was to be closed indefinitely because of the "flu" situation. This report was also found to be without foundation.

## NEBRASKA ALUMNUS IN AIR ACCIDENT

Lieutenant Wendall Brookley, '16, who was slightly injured in an airplane accident, is now engaged in giving the final flying tests to student flyers in the Texas flying fields.

Brookley entered the air service at the first call for student flyers. He received his commission early last spring and was chosen as one out of four hundred men to do stunt flying in exhibitions. In one of his stunt flights, his machine fell into a tall spin at 800 feet and crashed to the ground just as he righted it.

Brookley escaped with only a few bruises and was flying again in two days. He is at present working as an instructor with fifteen sub-instructors under him.

## GIRLS' ATHLETIC TROPHIES HUNG IN W. A. A. ROOM

Where is the first athletic trophy won by Nebraska girls?

The class of '05 winners of the girls' basketball tournament, 1901-02, was awarded a red silk banner. In 1910 it disappeared from the gymnasium during an athletic function. The W. A. A. wants to learn its whereabouts. The second trophy, a silver candelabrum, was won by the famous "Midget" team in 1903, and the third, a silver Camobar, was also won by this team. These latter trophies have been placed in the W. W. A. room and it is desired that the first trophy be placed here also.

A pacifist is just as much out of place in America on the Fourth of July as he would be in No Man's Land.—Lewis Allenton Forum.

Baseball has no solar plexus, but it has been hit there just the same.

## GERMAN RED CROSS CIRCULAR FUND

A circular of the German Red Cross was found in the German mathematical journal which was received recently at the university mathematical library. This journal is the first that has been received here since the beginning of the war. The pamphlet, signed by von Hindenburg as honorary president, requests subscriptions for books for the army and the navy, and asks the people to be liberal because millions of soldiers required millions of books. In part the message ran as follows:

"Help us, that we may draw from the spring which, in the nation of poets and thinkers, flows the depth of German nature. Books are friends and signify for our army and navy a spiritual force."

## S. N. T. C. UNIFORMS EXPECTED NEXT WEEK

### Naval Officer From Lakes Will Have Charge of Local Unit

Nebraska will soon be sporting a company of uniformed sailors in about a week if present reports prove true. A naval inspector from the Great Lakes visited the local S. N. T. C. unit last Saturday and was very well pleased with the work of the company. He states that the uniforms will be here in about a week.

The dry land "gobs" are more than anxious to get their new suits. Many have already worn the uniforms which they borrowed from the men from the Lakes, but as yet the company has not made its premier appearance in uniform and according to rumors about the naval barracks the boys are expecting "to nail 'em dead" when they do appear.

The inspector also stated that a naval officer would be sent here to take charge of the company in about three weeks. Either an ensign or a chief petty officer will be sent, preferably the former, but probably the latter.

Indications are that the men will be allowed to remain on an active status and complete their school work here if they so desire. It is also probable that some of the men will be permitted to transfer to active duty.

At present the company is in charge of an army lieutenant. The company was recently transferred to the second battalion and is now under the jurisdiction of Lieutenant Sporer.

Are you studying French so as to be able to talk with the boys when they come back?

## The Memoirs of William Hohenzollern Unabridged

By the Royal Plumber to the Potsdam Palace

(Editor's note)—On the evening of the day on which the Arch Duke Ferdinand was assassinated and killed, Reginald Snooper, a popular plumber of Squash Center, Nebraska, sat in the presence of friend wife and their small son, Reginald, Jr. The meal was finished—yea—the only morsel of human sustenance visible to the nude eye was a sheaf of fruit salad on the left ear of Reggie, Jr.

Mrs. Snooper was pounding the upturned bottom of her tea cup, knocking right and left, the tea grounds on the inside. After two minutes and sixty-four seconds of the above maneuver, she turned the cup proper side up and proceeded to forecast the future of the world with the assistance of "the nonsensical conglomeration within."

Mrs. S. studied the t. g. s. diligently for a moment; then, throwing her hands high into the air, she tore

## WAR WORK QUOTA OVERSUBSCRIBED

### University Goes "Over the Top" With Surplus of Several Thousand Dollars

### Members of the S. A. T. C. and S. N. T. C. Highly Praised by Director

"Over the top" by a comfortable margin was the final outcome of the university's drive to raise its quota of \$25,000 for the United War Work campaign. With the close of the campaign Monday afternoon the reports indicated that the quota had been oversubscribed by several thousand dollars. Professor A. A. Reed, who has been directing the work at the University of Nebraska, was well pleased with the results and paid an especially high tribute to the men of the S. A. T. C. and the S. N. T. C. who contributed more than \$13,000 to the fund.

### Returns Incomplete

Not all the reports had been submitted at the student activities' office yesterday afternoon but pledges totalling more than the original quota were already on file. With a large number to follow and with a number of organizations yet to complete their quotas it is certain that the university has been exceedingly liberal in meeting the demands of the hour. Practically all of the separate organizations and S. A. T. C. companies have announced 100 per cent subscriptions.

### Rally at Last Moment

The success of the drive was not assured until the last few days of the campaign. Students at first seemed to have relaxed in their efforts and numerous appeals to support the war activities were sent out. That the students rallied greatly was evidenced by the steadily rising mercury in the huge thermometer. A jump of ten thousand dollars Saturday was a phenomenal feature of the campaign. This was caused by a number of subscriptions being withheld.

Marshal Joffre says that victory is near. It is not yet near enough, however, to loose our grip on any weapon.

Apiarists report that bees are speeding up in their production of honey. Even the bee wants to beat the Hun.

If we believe the rumors, the former czar dies a couple of deaths a week in addition to being assassinated occasionally.

No true gentleman ever stands between a lady and a looking glass.

a big hole in the placid atmosphere of Squash Center with an Apache war-whoop that would have caused Funny-face, cheer leader of the Apache tribe, to hie his old carcass to the handiest mud puddle in the vicinity and stick his bloomin' face in it.

"In this cup," said Mrs. Snooper, as she gazed intently at the contents, "I see a fiendish face. On it there seems to be a mustache with ends waxed upward. Something very pointed appears and stands sky-ward on top of the very solid looking head. It's the spear point of a soldier's helmet! And straight out from the nose I see the silhouette of a fist clenched in deliberation; on the cuff of the coat from which the fist protrudes, I see stars and stripes."

Mr. Snooper arranged his tie and crossed his right leg with his left.

Mrs. S. continued her prescient outbursts.

"On all sides of the picture con-
