

THE DAILY NEBRASKAN

VOL. XVIII. NO. 49

UNIVERSITY OF NEBRASKA, LINCOLN, WEDNESDAY, DECEMBER 4, 1918

PRICE FIVE CENTS

S. A. T. C. UNIFORMS ARE NOT EXPECTED

Hastings States That Men Will Probably Not Be Issued Equipment

Work of Demobilization Not Yet Begun—No Drill or Week End Passes

"While realizing an injustice will be done the men of the S. A. T. C. should the government fail to issue equipment before their dismissal. I do not think it probable that the shipment will be returned," said Vice Chancellor W. G. Hastings last evening when questioned concerning the possibility of the eventual issuance of uniforms to the university troops.

Chancellor Hastings has received no reply to his letters sent to the Omaha quartermaster depot, Omaha, and to Secretary of War Baker, Washington, D. C., referring to the situation at this institution.

According to university officials, there is still a slight possibility that the four carloads of equipment denied for the Nebraska university and Wesleyan S. A. T. C. will be returned, especially in view of the fact that the Nebraska officers acted entirely upon their own initiative in sending the uniforms back to the quartermaster's supply depot.

Demobilization Delayed

Members of Section "B" had not received their discharges this morning, but everything is in readiness to commence the work just as soon as the pay roll arrives from Washington. Advices last evening indicated that this had already left Washington, and so further delay in the discharge work is not thought probable.

Preparations have been made to discharge one company each day, beginning with Section "B."

No Week-end Passes

Members of the university troops will not be allowed to leave the city on Saturday and Sunday of this week because demobilization work will require every man to be present during the next ten days.

Heretofore final statements made payable to discharged soldiers have been negotiable and bankers and business concerns were warranted in advancing money to soldiers awaiting final payment. Recent instructions from the war department state that final statements and assignment of final pay by soldiers is unauthorized and will not be honored by the war department.

No Further Drill

Official announcement was made yesterday that members of Section "A" would not be required to drill during the demobilization period. Drill sergeants have been instructed to give the men physical exercise each day in order to keep the men in good condition physically.

MEN OF S. A. T. C. ALLOWED TO DROP LIBERTY BONDS

S. A. T. C. men may discontinue the liberty bonds which they purchased at the first of the year and have refunded to them all payments which they have made on their investment. This announcement was made from military headquarters yesterday supplemented by the note that all who wished to retain their bonds must make the entire payment upon their discharge.

Many of the men have signified their intention of dropping their subscriptions. In most cases the bonds were being paid for by deductions from the monthly pay-check, and with this source of income being taken away, but few care to complete the payments.

PUBLICATION OF STUDENT DIRECTORY IS DELAYED

The university directory may possibly not be out until after the Christmas holidays, according to the latest reports from the registrar's office. The work of compiling the book has been almost completed and the files have been corrected, but as yet the copy has not all gone to print. The question has arisen, whether it would be advisable to wait until the S. A. T. C. men have been mustered out before the directory is put out, for the men who are now living in barracks will, of necessity, change their addresses.

Those in charge of the editing of the book have therefore considered waiting until the men are settled and have notified the office of their new addresses, before completing the work of getting up the book. Under the present plans of demobilization the men should all be mustered out by December 21. It will then be only a matter of time until the readjustments have been made, before the directory will be ready for distribution.

CHANCE FOR MAKE-UP IN WAR AIMS COURSE

Professor Jones Announces Plans For Those Who Wish to Receive Credit

The students who are taking the War Aims course are given an opportunity to make up their work and receive their credit. Many of the boys have been unable to attend even one of the lectures and for their benefit, as well as for the slacker, and the student who has had difficulty in grasping the subject, make up lectures and quiz divisions will be arranged to cover the beginning work once more.

As arrangements have been made so all may make up the work that they have lost, it will be very difficult to drop this course before the semester is over. The following announcements were made by Professor Guernsey Jones, head of the War Aims course:

1. No student now taking the War Aims course will be permitted to drop it so long as he remains in the university, except for definite reasons by permission of the Dean.

2. Every assistance will be given to those who are behind in their work or who have not received a passing grade to make up their work and to receive their credit. For this purpose, make-up lecture and quiz divisions will be arranged to cover the beginning work once more. Such students will attend both the advance and make-up sections.

3. Unless there is a conflict of schedules, the make-up lectures will begin next Tuesday and Thursday at 7:30, pharmacy building. Any student unable to attend at these hours will make the fact known to any of the instructors of the course.

Some men lift their hats before the memorial arch, but most men don't.

CONVOCAION

A "welcome-home" convocation for Chancellor Avery, who has just returned from a year's leave of absence spent in Washington, where he was engaged in research work in the chemical warfare division of the army, will be held in the Temple Thursday morning at eleven.

Chancellor Avery will talk, and welcome addresses will be made by Regent J. E. Miller, Acting-Chancellor Hastings, and Prof. E. H. Barbour.

One may go far after he is tired.—French.

With time a mulberry leaf becomes satin.—Chinese.

Perseverance kills the game.—Spanish.

NAVAL MEN WILL BE DISCHARGED

Orders Received Monday Specifying Final Disposition of the S. N. T. C.

Applications Must Be Sent to Great Lakes—No Orders for Disbanding Yet

Orders were received this morning at local headquarters which state that the members of the S. N. T. C. may be retired to inactive duty if they make application to the commandant of the 9th, 10th and 11th Naval Districts, Great Lakes, Ill.

No reason need be stated in the application. No orders regarding the disposal of members of the naval company who do not request retirement have as yet been received. The orders as interpreted by the commandant here follows:

Bulletin to Co. Commander, Co. E:

1. In accordance with instructions received at these headquarters, the commandant of the 9th, 10th and 11th naval districts has been authorized to release from active duty all men enrolled in the U. S. N. R. F. who are members of naval units and naval sections, S. A. T. C., who desire to be placed on inactive duty status and to discharge all men enlisted in the U. S. navy for the duration of the war attached to these units or sections and who desire discharge at this time. Releases from active duty and discharges will be made by commandant of the 9th, 10th, and 11th naval districts, Great Lakes, Ill., through these headquarters.

By order of Captain Drake.

ROBT. MULGREW,
2nd Lieut., Inf. U. S. A.,
Acting Adjutant.

Serves as Final Decision

This announcement serves as the final decision concerning the disposition of the S. N. T. C. Men of the navy have been somewhat in doubt regarding their status since demobilization orders were issued to the army section. While it was not thought probable that they would be denied the same privileges accorded the army men, they were still uncertain as to what the final orders will be, and when they would be announced.

More Time Necessary

Because of the necessity of forwarding applications for discharge to the Great Lakes station, the demobilization of the S. N. T. C. may not be accomplished at once. Most of the men, however, will probably be returned to civilian life as fast as the applications can be handled. The discharges will be conducted through local headquarters.

FORMER STUDENT PASTOR WRITES FROM IRELAND

Rev. E. S. Worthley, Y. M. C. A. Secretary, Sends Best Wishes to Nebraska Students

Rev. E. A. Worthley, former Methodist student pastor at the University of Nebraska, has written a letter to The Daily Nebraskan telling of his work as Y. M. C. A. area secretary for Ireland. Rev. Worthley is working under the direction of R. L. Ewing, former general secretary of the University of Nebraska Y. M. C. A. 4th November, 1918. Editor of The Daily Nebraskan. University of Nebraska. Lincoln, Nebraska.

Dear Sir:
When I came to Ireland in July I thought that I would certainly have a letter ready for the first issue of The Daily Nebraskan, but the many duties connected with this work have kept me so busy that very little time has

CONFINEMENT TO POST FOR S. A. T. C. TROOPS

Orders issued this morning by Captain Leslie G. Drake, commandant of the students' army training corps, Nebraska University, require that all members of the corps be confined to the post until further orders.

This has been found advisable and necessary at this time because the demobilization work requires that all men be present at the post. Also as a precautionary measure to prevent the further prevalence of tonsillitis and colds, the confinement must be enforced in an effort to have the men in their best physical condition when the final results of the examinations are entered upon the discharge papers.

Captain Drake announced last evening that the work of examining the men for dismissal would begin this morning, at which time, the Section "B" men were to receive their discharge.

ENGINEERING COURSES OPENED TO S. A. T. C. MEN

Semester's Credit Will Be Given For Work Elected Now in Certain Departments

The engineering college has taken the first step forward in the university's reconstruction policy which will follow the demobilization of the student army training corps. Realizing that many of the men will desire to continue their educational training, the head of each department in the engineering college has opened one or more courses which may be started now, and by intensive work completed by the end of the semester. Full credit will be given to any one who elects and satisfactorily completes such a course.

New Courses Opened

Fundamental courses including mathematics, chemistry, rhetoric, drafting and shop work are open for registration at the present time. For those who do not wish to leave school and yet are doubtful about receiving credit for present work, the new plan offers excellent opportunities. A semester's credit will be given for barely a half semester's work.

It is probable that other colleges will follow the plan outlined by the engineering college and open their departments to the outgoing S. A. T. C. men. If so, student soldiers will have a wide field from which to select another course.

The only true way to make money is to do some good while you are at it.

been given to correspondence. You may wonder that we should have very much to do in Ireland in connection with the war, and so far as the actual fighting is concerned there is not very much of that to be considered. Many of our camps are seaplane bases where regular patrols are carried on in connection with the submarine warfare. Then there are the naval bases where some of our destroyers and submarine chasers are located. Besides these we have mechanics working in British aerodrome camps. We are serving both the army and the navy in our association program in Ireland.

When Mr. Ewing made a tour of Ireland about two weeks ago he felt that we had the best opportunity of putting on the full program of the association in Ireland of any place in the United Kingdom.

In mentioning Mr. Ewing, it will be of interest for you to know that a few years ago he was the general secretary of the Y. M. C. A. in the University of Nebraska. I think he still has his household furniture stored in Lincoln. He left the university to take charge of prison camps in England. He is now chief of all the work in the United Kingdom. Mr. Ewing has risen splendidly to the large responsibility which now falls to him.

BEGIN PRACTICE THIS AFTERNOON

Basket Tossers to Hold Initial Workout in Chapel at Three O'clock Today

Four Veterans Back and Six Men From Freshman Squad in Line for Jobs

The first practice of the 1918 basketball season will be staged in the chapel this afternoon at 3 o'clock, when Captain Jackson will count noses and lay his plans for a whirlwind race for Missouri valley honors. Basketball material is about as plentiful this season as germs on the public drinking cup and Coach Kline and Cap Jackson will have all they could wish from which to pick a rag-grabbing aggregation.

Four "N" Men Back

Four members of the Cornhusker quintet of last year are back in school and ready to skin their knees on the gym floor. Cable Jackson is the oldest man on the squad, working for his third sweater this year. Erney Hubka, captain of the football team and Half-back Schellertberg are also ready to shed their football togs in favor of their indoor clothes as soon as they return from St. Louis next Sunday. Frank Adkins, who has won fame as a gymnast, is the other member of the returning quartet.

All the coaches have to do is to pick one man to round out the varsity quintet and they have six veterans from last year's freshman squad from which to choose him. The list in-Howard and Neumann, who have been holding down regular berths on the football eleven, and Kacer, Bailey, Gillilan and Patty.

Freshmen May Be Eligible

With the disbanding of the S. A. T. C. it is probable that the old Missouri valley regulation which prohibits freshmen from participation in inter-collegiate games will again be put into effect. Early in the fall, the government took over the control of valley sports and removed the ban from freshman participation on the grounds that all S. A. T. C. men were soldiers of the U. S. army and there would be no distinction made between freshmen and upperclassmen. As the university passes out from under the control of the government it is to be supposed that all former rules and regulations will automatically go into effect again.

The cream of last year's high school basketball performers are in line for the freshman squad and should be able to put up a brilliant brand of opposition to the varsity in practice, and also build a solid foundation for next year's team.

DEAN W. G. HASTINGS WILL ACT AS VICE-CHANCELLOR

Dean W. G. Hastings has been temporarily appointed vice-chancellor of the university to aid Chancellor Samuel Avery, who has been active in chemical war work in Washington, D. C., since last spring. Dean Hastings was made acting-chancellor and has been acting as the head of the university since January, 1918. He was chosen as vice-chancellor because of his association with the affairs of the university this year, and his acquaintance with the conditions relative to the S. A. T. C. His work as head of the Law college will continue, and will not be affected by his new duties.

PLANNING NEW COURSE FOR UNIVERSITY WOMEN

The department of physical education is planning to offer a course in reconstruction-aid work, to begin immediately after the Christmas vacation.
