

# THE DAILY NEBRASKAN

VOL. XVIII. NO. 53

UNIVERSITY OF NEBRASKA, LINCOLN, TUESDAY, DECEMBER 10, 1918

PRICE FIVE CENTS

## SECTION B GIVEN DISCHARGE TODAY

Demobilization of 350 Men To Be Completed Today—Uniforms Being Issued

Disbanding of Section "A" Will Probably Start Tomorrow—To Be Completed Soon

Demobilization of section B started at seven o'clock this morning, and Captain Drake estimated that at least three hundred and fifty men will have received their discharges before evening. The majority of the men discharged today will leave Lincoln tomorrow morning.

Announcement of the probable order in which the companies will be given discharges was made yesterday as follows: section B, companies F, G, and H; section A, companies A, B, C, D, I, and K.

Present plans contemplate the completion of the demobilization work within one week. This of course, does not allow for any unforeseen delays.

### Military Headquarters Working Overtime

Captain Drake and his corps of workers at military headquarters are working from twelve to fifteen hours a day in an effort to discharge all members of the unit within the allotted time, and after the equipment is issued very little further delay is anticipated.

### Issue of Winter Uniforms

Distribution of winter clothing to all men of the S. A. T. C. is progressing rapidly, all men on the city campus having been supplied with their equipment last evening. A supply sergeant has been appointed in each company who attends to the distribution of the clothing thus saving considerable delay and difficulty.

Previous estimates concerning the length of time which would be required to distribute the clothing have been thrown to the wind, and a task which ordinarily would have taken twelve days to complete is being accomplished in four.

### Governor-Elect McKelvie Speaks

Governor-elect S. R. McKelvie addressed members of the university student soldiers' unit Sunday afternoon, at the Orpheum theatre. Nebraska's future governor proved very popular among the soldier boys because of his enthusiasm and evident interest in their welfare. He advised the men to be not forgetful of rendering a service to their country, even after they had been discharged from the army.

The meeting at the orpheum was held under the auspices of the War Camp community service, company B, C, and D being in attendance. An open competition to ascertain which company could sing better was held, a cash prize of \$25 being offered to (Continued on page 2)

## HAROLD T. SANDUSKY A VICTIM OF INFLUENZA

Harold T. Sandusky, '20, an acting sergeant of company "B" and a prominent member of the junior class died at 3:15 p. m. Sunday at the "T" street hospital of Spanish influenza. He was twenty years old. His parents Mr. and Mrs. G. M. Sandusky reside at Sterling, Nebr.

Sandusky had been ill only since last Thursday and his death came very unexpectedly.

He was a member of Alpha Theta Chi and had made a wide circle of friends during his attendance at the university. Since the organization of the S. A. T. C. he has taken a prominent part in the military life of the battalion and of company B; where he was well liked as a friend and comrade.

## PLANS BEING MADE FOR ALL-UNIVERSITY PARTY

The first all-university party of the year is to be held Saturday evening, December 14, at the Armory under the direction of the war camp community service, which has volunteered to pay the expenses connected with the party, so that it will be free to all university students. The committee, under the leadership of Wilson Bryans, promises an exceptionally good party, with pep enough for everyone, and it is expected that everyone will be there. This is a closed night on the university calendar and there will be no other parties.

There has been little opportunity this fall for the students, especially the freshmen, to become acquainted, due to the men being so closely confined to barracks. This party will be very informal and full of the old-time school spirit which we hear so much about so that everyone will soon feel acquainted with everyone else. Last year there was such a scarcity of men in the school that these parties were not all that could be desired, because there were extra girls. The S. A. T. C. men are all to be free Saturday night so it is promised that there will not be a repetition of any lack of men.

Dancing will be the chief feature of the evening's entertainment, and will be continuous except during a short intermission, when there will be several clever stunts. The music will be good and there will be refreshments for all.

## FRENCH PROFESSOR SPEAKS AT TEMPLE

Doctor Reinach Tells of French Architecture Before and After German Bombardments

Professor Theodore Reinach, of the French educational mission to the United States, talked at the Temple last night on the Castle of Coucy, the townhall of Arras and the Cathedral of Rheims. He showed pictures of them before the war and later in their wrecked condition as a result of the German bombardment. He said that this was not the work of undisciplined troops, but occurred as the result of a system of defacement.

"The Castle of Coucy was the most splendid example of military architecture when the building of feudal castles was at its height. It was built about 1230, enlarged and beautified in the fourteenth and fifteenth centuries. (Continued on page 2)

## LORD CHARNWOOD SPEAKS ON ENGLISH DEMOCRACY

Lord Charnwood, recently selected as chairman of the committee concerning England's relations with America, and who has been in this country several months, has arrived in Lincoln. While here he will speak at the auditorium, Wednesday afternoon at three o'clock, on the subject of "Democracy in England and the United States."

The committee of which Lord Charnwood is chairman, is a sub-committee of another of the purpose of which is to promote an intellectual entente among allied and friendly nations.

His lordship delivered an address on the life and influence of Abraham Lincoln at the Illinois Centennial celebration October 5, 1918. Lord Charnwood is an enthusiastic supporter of home rule and therefore is a great admirer of Gladstone. Through his enthusiasm for the latter and because of his intimate knowledge of the life of Lincoln, he is very well fitted to effectively encourage sympathy and understanding between his country and the United States.

Lord Charnwood delivered a course of lectures through the assistance of the Schiff foundation at Cornell university, on the contribution of the British empire to civilization.

## STEWART IS BACK AMONG HIS BOYS

Head Coach Returns After Half a Year as Athletic Director in Army Cantonments

Basketball Prospects Bright—Big Games in View—Practice Daily Now

"Doc" Stewart is back among his boys. The director of Cornhusker athletics who has been in army athletic training since the middle of last summer, burst into the gymnasium yesterday afternoon during basketball practice and he was literally smothered by the reception accorded him.

He wanted to know how the basketball situation was lining up and how his boys managed their gridiron season, and as he talked, more of his former pupils crowded around to shake his hand and tell him how glad they were to have him back.

Dr. E. J. Stewart has just returned from the "Big Ten" conference at Chicago which he took in on his way home from Camp Gordon, Ga., where he has been director of athletics for the past season. While at the windy city pow wow he snared a few victims for this winter's basketball quintet and for the Husker gridiron campaign next fall.

Coach Stewart told Captain Jackson that he had several interesting trips to the far east in prospect for the basket flippers, but could not announce them yet. The schedule will be worked out in full at the Missouri valley conference which is to convene shortly.

### Jumbo Steinhm for November 8

Two Big Ten numbers for next autumn were included in the catch. Jumbo Steinhm with his Indiana Hoosiers will take a shot at his former proteges here at Nebraska on November 8 and the Iowa Hawkeyes will entertain the Cornhuskers at Iowa City on October 11. Kansas and Missouri will probably occupy their customary dates on the calendar and Notre Dame and Syracuse will make their appearance near the last of the season. West Virginia, scheduled for an October date this year and cancelled on account of the length of the trip, will not be considered for a 1919 game.

### Basketball starts in earnest

The basketball squad is gaining new members at every practice session and Captain Jackson announces that practice (Continued on page three)

## THE FLU

When your back is broke and your eyes are blurred,  
And your shin bones knock and your tongue is furred,  
And your tonsils squeak and your hair is dry,  
And your doggone sure you're going to die;  
But you're skeered you wont and afraid you will  
Just drag to bed and have your chill,  
And pray the Lord to-see you through,  
For you've got the Flu. Boy. You've got the Flu.

When your toes curl up and your belt goes flat,  
And your twice as mean as a Thomas cat,  
And life is a long and a dismal curse,  
And your food all tastes like a hard boiled harse,  
When your lattice ache and your heads a-buzz,  
And nothing is as it ever was,  
Here are my sad regrets to you,  
You've got the Flu. Boy. You've got the Flu.

What is it like, this Spanish Flu?  
Ask me, brother, for I've been through  
It is by misery out of despair,  
It pulls your teeth and curls your hair,  
It thins your blood and brays your bones,  
And sometimes, maybe, you get well,  
Some call it Flu, I call it H—

## INNOCENTS SOCIETY NAMES NEW MEMBERS

Cable Jackson, '19, and D. V. Stephens, '19, both of Lincoln were initiated into the Innocents, honorary senior men's society, yesterday. They fill the vacancies caused by the withdrawal from school of members ejected last year.

Both of the new members have been prominent in athletics and school activities. Jackson is captain of the varsity basketball team, a position which he also held last year. He is a member of Delta Upsilon. Stephens won his letter in track and was president of the junior class last year. He was a member of Nebraska's stock judging team which has taken high honors at the international livestock exhibitions. He is a member of the Phi Delta Theta fraternity.

The election of new members at this time departs from the precedent established by the Innocents society, but is made necessary by the failure of several of their members who are in the service to return to school. It is customary to fill vacancies by the election of former Innocents, but none of these are in school at the present time.

## S. N. T. C. UNIT NOW BEING DISBANDED

Ensign G. A. Webber Arrives from Great Lakes Station to Direct the Demobilization

Ensign Webber arrived Monday from the Great Lakes Naval station to take charge of the disbanding of the local S. N. T. C. unit. He states that all men of the company will be out of the service in time to return home by Christmas. All arrangements for putting the men on the inactive list have been made and work will begin this noon.

Naval medical officers are expected from Omaha this forenoon, and will begin immediately on the work of giving the men physical examinations. Yeoman E. J. Allen was sent here from the Great Lakes to have charge of the book work necessitated in retiring the men. He has been preparing forms and records for the last two days and will have everything in readiness when the examinations are begun today.

Ensign Webber made an inspection of the naval barracks in Social Science hall Monday afternoon. The inspection was as good as could be expected under the conditions in which the men are living.

Only a very few of the men stationed here are in the U. S. navy and these, alone will be given discharges, the members of the S. N. T. C. being retired to inactive duty. At least half of these men remain in school.

### Issuance of Uniforms Uncertain

The question of uniforms is still (Continued on page two)

## AWGWAN STAFF NAMED BY PUBLICATION BOARD

The staff for the Awgwan, Nebraska's comic monthly, was announced yesterday by the student publication board. Herman Thomas, '20, will be editor of the magazine and Harold Weeth will be business manager.

Other members of the editorial staff are Dwight Kirsch, '19, managing editor; Carolyn Reed, '20, associate editor, and Oswald Black, '22, associate editor.

Assistants in the business department will be Richard Hadley, assistant business manager; Byron McMahon, circulation manager, and Russell Bailey and Howard Bennett, advertising solicitors.

Work on the first number which is due about Christmas time is well under way. This number will probably be published before any subscriptions are taken, and will be given out to each person as he gives his subscription.

## INFLUENZA CURSE AGAIN THREATENS

Another Student Dies of Dreaded Disease—Thirty Cases Reported by Infirmary

Students Urged to Take Precautionary Measures—Schools May Be Closed Again

Another epidemic of Spanish influenza, the dread disease which invaded the university campus at the first of the year, is now confronting university students. More than thirty cases have been reported at the S. A. T. C. infirmary and one death, that of Harold T. Sandusky, of company "B", occurred Sunday morning. The prevalence of the disease among other students is increasing. Although the situation over the state is not serious enough at the present time to warrant a state-wide ban, it may become necessary for school authorities to enforce restrictions similar to those adopted at the first of the semester, even to the point of closing the university until the first of the year.

### Assumes Serious Proportions

The sudden rise in the number of cases within the last few days is considered by university authorities as another outbreak of the influenza plague which, since its appearance early in the year, has never entirely disappeared. The serious nature of the malady has been manifested by the heavy toll it has exacted among university students and the present outbreak promises to assume grave proportions unless checked very soon. It will doubtless be necessary to continually combat the disease until it is finally blotted out. Medical officials assert that this may not be accomplished for some time.

### Precautionary Measures

Meanwhile it is highly essential that strict precautionary measures be taken by every student. Frequent gargling of the throat and all other means which will aid in preventing the spread of germs are urged by medical authorities who also request that each student should take drastic steps to avoid catching cold which might be followed by more serious results. Prominent physicians advise people to stay away from moving picture shows, and all other public gatherings which tend to bring people into close contact with each other. They also urge students of the university who are ordinarily confined during a large part of the day, to get out in the open air as much as possible. Medical authorities agree that it would be a great thing for everyone if all conventionalities would be thrown aside and the wise act of using "flu" masks be adopted by all. In many of the smaller cities, as well as in New York City, this expedient has been resorted to with great success.

## SPECIAL CLASS PLANNED FOR HUSKER WRESTLERS

Cornhusker wrestlers will occupy a corner of the sporting page this winter, according to an announcement by Dr. R. G. Clapp, director of physical education, yesterday. A class in wrestling will be held on Monday, Wednesday and Friday at 4:00 in the chapel and is open to all men interested in mat work. The class will begin when school takes up after the Christmas holidays.

The Nebraska wrestling team will be picked from members of the class, and a series of intercollegiate meets are to be scheduled. The first one is already arranged with the Iowa Aggies from Ames, Iowa, and several others are in line.

Skepticism is always sweeping its door yard to prevent the religious people from finding any dirt there, and the religious people keep on polishing up their faith and work to keep ahead.
