FEARS BOLSHEVISM

LEADERS SAY IT IS A MEANCE TO UNITED STATES

POLITICAL PARTIES MUST ACT

They Must Face the Problems of the Nation, and Solve Them, or Be Swept Aside

Washington.—That a new alignment of the people is coming that will sweep away existing political parties unless they face and solve readjustment problems was the warning sounded to democratic and republican chieftains by Senators Kenyon and Borah, progressive leaders.

They cautioned against "ostrich tactics," as a means of disposing of the menace of bolshevism in the United States. They urged honest, fearless, straightforward tactics by the government and political leaders to cope with reconstruction problems affecting the great mass of the American people.

After sounding the warning to "standpaters" in both parties that "a terrific jolt is coming to them from the American people" unless present conditions are remedied, Borah and Kenyon outlined ways of meeting the bolshevism menace to this country.

"Those in power, whether in political parties or in the government, who blind themselves to the menace of bolshevism in the country are courting disaster," said Kenyon.

"The workers of this country recognize the menace. They don't want bolshevism. They fear it. But they realize it is spreading here, and that something must be done to stop it. They look to their leaders to stop it.

Bolsheviks in South America

Montevideo, Uruguay.—The police have uncovered a plot on the part of the Russians to instigate a bolshevik movement here and in Buenos Aires. Four of the leaders in the movement are said to have confessed their participation in a plan to overthrow the Uruguayan and Argentine governments and institute soviet rule in both countries. The police, by quick work, prevented an outbreak here which had been arranged to occur simultaneously with that in Buenos Aires.

Government a Poor Paymaster

Washington, D. C.—Of two and a half million checks for dependants' allotments and allowances deducted from soldiers' pay for November and December, only 930,000 have been mailed. Secretary Glass, reporting on the war risk insurance bureau's work in response to a senate resolution, said all October payments had been made and checks for the past two months would be out before the end of January.

Graft Coming to Light

New York.—The story of how parasites attached themselves to war charity work and stole or squandered millions of dollars contributed for the benefit of war sufferers, was told by Assistant District Attorney Kilroe, in a report on his investigation of 534 "war charity" organizations. The investigation disclosed actual thefts of more than \$3,000,000 in one year and waste of several more millions for "expenses."

They Are Glad He Is Dead

Amsterdam.—German papers make extended reference to the death of Theodore Roosevelt, whom they describe as one of Germany's most bitter enemies. While all describe him as one of the most remarkable men who ever lived, they express the hope that his death will make easier a reconciliation.

Another Revolution Brewing

Tucson, Ariz.—Seven prominent Mexican and Mexican-American residents of Tucson and Douglas were arrested here by federal authorities, charged with smuggling arms into Mexico in connection with a new revolutionary movement.

Attorney General Resigns

Washington.—Thomas Watt Gregory, attorney general of the United States since 1914, has resigned because of "pecuniary responsibilities," and will return to the practice of law. President Wilson has agreed to his retirement next March 4.

Paderewski Wounded

Geneva.—Ignace Jan Paderewski was slightly wounded when several shots were fired into his hotel room at Warsaw, a dispatch from that city reported. Twenty bolsheviks were said to have been arrested in connection with the shooting.

Another Republic Born

Paris.—A republic has been proclaimed in Luxemburg. Grand Duchess Maria has withdrawn to her chateau near the capitol. Luxemburg had an area of 998 square miles, and a population of nearly 300,000.

found in this branch of work. General forestry is given an elaborate treatment. The book has received many enthusiastic reviews among which we find one by H. A. Smith of the United States forestry service.

Dr. Boerkner received his degree as Ph. D. from the University of Nebraska in 1915 and is at present in the employ of New York city in the forestry department.

Then we need a few more yells. We want hair raisers that will put the old pep in our mass meetings and our games.

Let's all settle down and think real hard for our new songs and yells. Then we will burst forth with our new creations when the cornerstone of the new gymnasium is laid.
