PRICE FIVE CENTS

MRS. TROUT SPEAKS AT VESPER SERVICE

National Secretary of Women's Board of Missions Addresses University Girls

Tells Women's Possibilities in Lecture on "The Present World Challenge"

Mrs. Daisy June Trout, national secretary for the Christian Woman's Board of Missions, of Indianapolis, spoke at vespers Tuesday evening at 5 o'clock in the Women's hall. Her subject was "The Present World Challenge." Dorothy Wetherald presided at the meeting. Helena Burke gave a vocal solo.

"We must actually think in world terms," Mrs. Trout said. "The world is being placed before everything, such as world-citizenship, world-fellowship and world-business. As soon as the armistice was signed representatives from various corporations were in their way to different parts of the world. They were being sent to establish American business on American principles.

"There is a wonderful challenge coming to every individual from every field of work. The women have an opportunity to make their place in the world history. In order to take advantage of the new opportunities, the missionary boards are sending representatives to all the colleges and state universities to get workers. Especially seniors and post-graduates are wanted. They must be experienced and the very best trained. Doctors, nurses, evangelists, teachers, and musicians are greatly needed. In fact there is an opportunity for service in almost any field.

"The committee of 100 representatives from the various missionary boards will meet and discuss the surveys made of the fields, the needs of workers and funds today. Plans will be mapped out for Mexico, Latin America and other parts. We want people

REGISTRATION IN SCHOOL OF COMMERCE INCREASED

Professor Le Rossignol of the economics department and school of commerce reports that registration in these branches has been very encouraging because, although smaller than that of last semester, it is nevertheless larger than the registration of last year at this time. No figures are available for comparison, however, at the present writing.

Professors Virtue and Stephens and Lieutenant Cole are still absent from their duties at the university but it is hoped that they will be able to return to school next fall.

One thing that is noticeable this semester is the decrease in relative numbers of the freshmen and the numerical increase of upperclassmen. This is caused in part by the small mid-year high school graduating classes and the return of many former S. A. T. C. men to school.

LARGE NUMBER REGISTER IN FOUR WEEKS' COURSE

In spite of the unsettled conditions this is the most popular year in short courses at the University of Nebraska. Two hundred and sixty-four have been registered in four weeks' courses, beginning January 27, and ending February 22. One hundred and seventy-nine are entered in the tractor, automobile and truck courses. Eighty-five are taking general subjects in agriculture, such as poultry raising, dairying, hog, cattle and sheep raising, crops and other farming subjects. One woman is registered in the poultry course. On account of the lack of equipment the university was compelled to limit the number in the tractor, automobile and truck short courses, and more than two dozen men were turned away.

TRACK MEN TO REPORT FOR PRACTICE AT ONCE

Veterans Getting in Shape for Big Indoor Meet Held at Kansas City

Track men attention! All men who are coming out for track see Coach Stewart today. Practice starts immediately. New men should be sure to come to the gym and draw equipment.

Coach Stewart has issued a special call for all veterans and aspirants of the cinder path to confer with him today. He wants to put the first real punch in the early practice. Many of last season's veterans are working out now, getting in shape for the coming indoor meet at Kansas City.

New men especially should begin to limber up. Early practice builds up the endurance and stamina which later works into top speed. Do not delay longer but call on Coach Stewart today before six o'clock.

LIEUT. RALSTON RETURNS WITH REMARKABLE RECORD

First Lieutenant Orville A. Ralston is back on the campus after having been recommended for the distinguished service cross on December 5. Lieut. Ralston was a student at the university when the United States declared war. He was admitted to Fort Snelling and on July 5, 1917, he was sent to Canada to the ground and air schools of the Royal Air Force. After receiving his commission as first lieutenant he was sent to Fort Worth, Texas, as an instructor. In a few months he sailed for England where he ferried new battleplanes from London across the English channel to France.

Lieut. Ralston was soon assigned to the 85th Royal Air Force scout squadron. After receiving training under Col. W. A. Bishop, the famous Canadian airman, who brought down seventy-four German planes, he was attached to the British air forces. He took part in the battles of Somme, Ypres, Lille, Ostend and Amiens. While at the front he brought down seven German planes, and had 230 hours of flying.

NEBRASKAN NEEDS STUDENT SUPPORT

Fraternalities and Sororities Called Upon to Assist in Making Subscription Drive Successful

Papers to be Given to Subscribers Only—Solicitors Still Busy On Campus

University students must rally to the support of the Daily Nebraskan if they are to be assured of a daily paper which will conform to the standards of the past. The subscription list is far below normal. Seven hundred subscriptions, at least, are needed to give adequate financial backing to the publication and at the present time the subscriptions for the second semester do not total four hundred.

Beginning today students will be called upon to show a real brand of Cornhusker spirit by subscribing for the "Rag." One dollar is the subscription price and for this small sum the university public is given the latest campus news and official notices in convenient form.

"Rags" For Subscribers Only
A new policy to be instituted this week by the business management will stop the wholesale distribution of free "Rags." A subscription list will be posted at the window of Station "A" and only those who have paid their dollar will receive the paper regularly. This policy, the management announces, will be strictly adhered to and students are warned to subscribe before they miss any issues of the paper.

Solicitors will cover the campus thoroughly and subscriptions will be received at the Daily Nebraskan office in University hall or at the student activities' office in the basement of the Administration building.

Appeal to Fraternalities
The business managers are making an especial appeal to members of men's and women's fraternalities to support the Nebraskan with one hundred per cent subscriptions. In times past one copy of the "Rag" has served often for the entire chapter. This year, however, fraternalities as a whole are asked to urge their members to assist in the drive for a subscription list which

Return of Prospective Barristers Puts New Spirit Into Law College

The "old law" spirit with all its beauty and volume made its post-war appearance at the college Monday morning. With the return of former students at the college to take up their work which had been put aside for the period of the war, classes were again swelled to their capacity and former predictions for a larger and better college than ever before were seemingly assured.

The second semester started with a marked increase in attendance in all of the three classes. Among the men returning for the last year of work were Boggs and Folsom, while Schroeder, L. Shaw, McKinley, Lowe and

UNIVERSITY OF UTAH WANTS MEMORIAL HALL

The erection of memorial hall on the University of Utah campus is desired by the students as a fiftieth anniversary gift. President John A. Widtsoe and members of the faculty are turning every effort to that end that the proposed building for Utah soldiers be erected.

A personal letter from President Widtsoe, also one from President Emeritus, J. T. Kingsbury and a pamphlet pointing out the numerous reasons why the new building should be located at the university are being sent to all the alumni of the institution. The alumni are urged to prompt action and are requested to "take up" the matter everywhere and to write to legislators.

FRESHMAN COMMISSION ENTERTAINS SATURDAY

Curls, bibs and other childish paraphernalia will be much in evidence at the Freshman Commission party Saturday afternoon. The commission is planning to give every freshman girl the best time she has had this year. Many games have been planned, childish games, the kind that help one to become acquainted with every other girl present. The refreshments will be very novel, suitable for children. An excellent program will be given, displaying freshman talent in many lines.

The committee in charge of the party is making plans to entertain every freshman girl in the university. Besides being a "kid party," Valentines will be conspicuous in the entertainment. The invitations which have been sent to every freshman girl were written on the good, old-fashioned "penny valentine." Although this is primarily a children's party, any girl who appears in the usual garb of a freshman will be welcome.

DELIAN SOCIETY HOLDS INITIATION OF MEMBERS

Delian Literary society initiated nine new members at their weekly meeting Saturday evening, January 25. They were: Mary Switzer, Ethel Woods, Effie Switzer, Nathan Michener, Alice Lawrence, Ruby Wolfenden, Ruth Savin, Grace Virchow, Bessie Striggon.

OMINOUS RUMBLING PORTEND EXPLOSION

Plans Indicate Record-Smashing Crowd at Friday Basketball Game and Party

Legislators to Attend in Numbers—Piker Quintet Present Formidable Front

All forms of pep and energy around the campus are now bending toward the big games with Washington university the last of this week. Dean Heppner has made Friday a closed night and the game will be followed by a whopping big mixer. The "N" club meets this noon to make sure that all organizations turn out in force. The big game starts at 7.30 o'clock.

Washington is one of the strongest teams in the valley conference and fans will be treated to a star performance. Marquardt, all-Missouri valley basketball and football center, will play the pivot position for the enemy and Stapleton is another star veteran from last season. The whole Piker team is strong and thirsting for blood. Coach Stewart's men are more than ready for them and are itching for the fray. Both teams want these games worse than Mrs. Pankhurst wanted woman suffrage. It is essential for Nebraska to tuck these away to maintain her place next to the top of the flagstaff, and Washington absolutely needs them in order to save her a permanent cellar position. From start to finish it will be a hard scrap. "Jack" and his men are all hungry for the battle.

The gym will be packed to the window Friday night. One hundred and thirty-three seats have been reserved for members of the legislature who are displaying great interest in the match and Cornhuskers are going to give them a real taste of Nebraska pep. Several fraternalities and sororities have already planned to come en masse and more societies are lining up for the colossal conflict. The "N" club is meeting at noon today to put

(Continued on page 3)

REGISTRATION SMALL IN ENGINEERING COLLEGE

Reports from the engineering college indicate that registration for the second semester was rather small. Unofficial figures compare favorably with those of last year at this time, but a decided decrease is noticeable over those figures of two years ago. Large numbers of first year student have registered for the many engineering subjects, but the upperclassmen who have returned are few.

Applied Mechanics I, is being given for the first time in a second semester this year and nearly fifty students have enrolled for this work. This shows the large number of beginning students in the engineering college in comparison with the more advanced students. Professor Bridgeman announces that there are some forty men registered for Civil Engineering 5. This is larger than any other previous second semester enrollment.
